BOWDOIN COLLEGE BULLETIN

Brunswick, Maine

September 1974

Number 394

Published by Bowdoin College four times during the college year: September, December, March, and June. Second-class postage paid at Brunswick, Maine, and at additional mailing offices.

Depicted on the cover (clockwise, beginning upper left) are Gibson Hall of Music, Walker Art Building, Massachusetts Hall, Hawthorne-Longfellow Library, the central campus, Harpswell Street Apartments (Bowdoin's newest housing for students), and, in the center, sunset at Five Islands (photo courtesy of Mr. and Mrs. Charles A. Grobe, Jr.). For descriptions of the buildings and the activities that take place in them, see pages 28-42.

"No test with respect to race, color, creed, national origin, or sex shall be imposed in the choice of Trustees, Overseers, officers, members of the Faculty, any other employees, or in the admission of students...."

Historical Sketch of Bowdoin College

BOWDOIN COLLEGE was established by charter from the General Court of Massachusetts on June 24, 1794, after repeated petitions to the state by citizens who wanted to provide educational opportunity in the District of Maine, then a rapidly growing frontier. Practical establishment of the College was more difficult, however, than the securing of a charter. The lands granted the College by the General Court were not readily convertible into cash. Gifts for its operation were slow in coming—except for one handsome donation by James Bowdoin III, son of the late governor of Massachusetts, whom the College honors in its name. Brunswick was selected as a proper site in 1796, but the erection of a building to house the College was not accomplished until 1802. On September 2 of that year, the Reverend Joseph McKeen was installed as the first president of the College. On the next day the College began its active educational life with eight students and one faculty member, in addition to its president.

The story of Bowdoin in its early years is an index to its entire history. Its first president was a man of religion and of science. Its first benefactor was distinguished as a diplomat, as a statesman, and as a gentleman of broad culture; and the inheritance of his extensive library and his fine collection of art established at the College a lasting conviction of the wisdom of strength in these areas of institutional resources. Its original Board was composed of strongly religious men, individually devoted to the Congregational Church as thoroughly as they were to the democratic ideals of a new nation.

The curriculum during the early years was rigidly prescribed and strong in the classics. In the field of science, mathematics was soon joined by the study of chemistry and mineralogy. Though small in size, the College had some of the greatest teachers it has known, and among the early graduates were several marked for future fame: for instance, Nathan Lord (1809), for thirty-five years president of Dartmouth; Seba Smith (1818), early humorist; Jacob Abbott (1820), prolific author of the "Rollo" books; William Pitt Fessenden (1823), for a short time President Lincoln's secretary of the treasury; Franklin Pierce (1824), fourteenth president of the United States; and Nathaniel Hawthorne and Henry Wadsworth Longfellow, both of the Class of 1825.

In 1820 the College established a medical school, which in the 101 years of its existence produced many well-trained doctors who practiced in Maine and, to a lesser extent, elsewhere. In 1921, when the needed clinical facilities and technical equipment had become too complex and expensive for a small institution to supply, it was deemed expedient to discontinue the school.

Bowdoin was established more on faith than endowment, and its finances suffered severely in the aftermath of the panic of 1837. However, its growth

was slow and steady. Social fraternities appeared on the campus in the 1840s, followed by organized athletics in the late 1850s. *The Bowdoin Orient*, which claims to be the oldest continuously published college weekly in the country, appeared first in 1871. As the controversy over slavery worked towards a climax, the home of Professor Smyth was a station of the "underground railroad" for escaped slaves; and here, in another professorial household, was written the book that was to arouse the conscience of a nation, *Uncle Tom's Cabin*. During the Civil War the College sent into the service a greater number of men in proportion to its size than any other college in the North.

The twenty years following the Civil War were the most critical in the history of the College. After President Harris's short term of four years (1867-1871), Joshua Lawrence Chamberlain, Maine's most distinguished war hero and governor of the state for four terms following his return to civilian life, was elected president. During these two administrations the curriculum was modernized somewhat, but the establishment of an engineering school in 1871 was unsuccessful, since it survived for only ten years. Its most famous graduate was Admiral Robert E. Peary (1877), the first to reach the North Pole.

President Chamberlain, for all his great services to college, state, and nation, was unequal to coping with the difficulties now besetting the institution: inadequate endowment and equipment, a decreasing enrollment, dissension among the faculty and Boards. Probably no one else connected with either group could have succeeded in the circumstances. Chamberlain's resignation in 1883 provided an opportunity to secure from outside the College the vigorous leadership imperatively needed.

The inauguration in 1885, after a two-year interregnum, of the Reverend William DeWitt Hyde marks the real beginning of another era. He brought to his task of rejuvenating the institution a boundless physical capacity that was matched by his awareness of a modern and changing world and by scholarly ability that made his national reputation an ornament to Bowdoin. He built the College figuratively and literally, introducing new subjects into the curriculum and enlarging the physical facilities on the campus by over a hundred percent. Under him, enrollment increased from 119 in 1885 to 400 in 1915 and the endowment rose from \$378,273 to \$2,312,868. He emphasized teaching as the responsibility of the College and learning as the responsibility of the students. His vigor impregnated the whole life and spirit of the College. It was under President Hyde that Bowdoin's philosophy of its students and of its faculty members as responsible, independent individuals became fixed.

Kenneth C. M. Sills succeeded President Hyde after the latter's death in 1917. He was a natural successor (though not a slavish disciple) of President Hyde. He carried forward his predecessor's program, seeing the College successfully through the upheavals concomitant to two wars. Under him, Bowdoin gradually emerged from being a "country college" to a new and in-

creasingly respected status as a country-wide college. Physical facilities were improved and increased. The faculty grew from thirty-two to eighty-one; enrollment, from 400 to double that figure; and endowment, from \$2,473,451 to \$12,312,274. Student activities were expanded, and the fraternity system was developed into a cooperative and democratic component of student life.

President Sills was succeeded by James Stacy Coles in the fall of 1952. During his fifteen-year tenure, Bowdoin met the rapidly changing demands of society and students by introducing curricular innovations, expanding the size of its faculty, and improving its facilities at a faster pace than during any comparable period in its history. It was during these years that Bowdoin thoroughly revised its curriculum, extended honors work to all gifted students, introduced independent study courses, initiated an undergraduate research fellowship program, and started its pioneering Senior Year Program. To accomplish these academic improvements, the College expanded the size of its faculty by over a third, to 109, and raised salaries to a level which has enabled it to continue attracting and retaining outstanding teachers. The value of the College's plant showed a similar dramatic increase. The Arena, Morrell Gymnasium, Senior Center, Coleman Hall, Gibson Hall, and Hawthorne-Longfellow Library were constructed. At the same time, Pickard Theater was constructed in Memorial Hall; Massachusetts Hall, Hubbard Hall, and three dormitories were renovated; and the Moulton Union and Dudley Coe Infirmary were enlarged.

President Coles resigned at the end of 1967 and a year later, on January 1, 1969, Roger Howell, Jr., a member of Bowdoin's Class of 1958, Rhodes scholar, and chairman of the Department of History, became the tenth president of the College. Only thirty-two at the time of his election, Dr. Howell had already achieved international eminence as a scholar of British history.

Under his leadership, Bowdoin has expanded its curriculum to include Afro-American studies, a major in biochemistry, and courses concerned with our environment. In 1970 it admitted women undergraduates for the first time in 168 years and since then has expanded its enrollment from 950 to 1,250. It has developed a computing center that ranks among the most sophisticated to be found on a liberal arts college campus, and it has given students a voice in the governance of the College through representation on more than a dozen faculty committees and through participation in meetings of the Governing Boards.

In the fall of 1972 President Howell announced that the Governing Boards had authorized a major fund-raising program to commemorate the 175th anniversary of the opening of Bowdoin. Entitled "The Purpose Is People," the fund-raising campaign is the most ambitious in Bowdoin's history, with a three-year goal of \$14,525,000 and a ten-year goal of \$37,755,000. Most of the funds are needed to further augment the student aid program, improve faculty salaries, construct an art instruction building, and support the library.

Campus and Buildings

BOWDOIN IS LOCATED in Brunswick, Maine, a town of approximately 18,000 population which was first settled in 1628 on the banks of the Androscoggin River, a few miles from the shores of Casco Bay. The campus, originally a sandy plain covered with blueberries and pines, is a tract of 110 acres containing nearly forty buildings and several playing fields.

Massachusetts Hall is the oldest building on the campus, having been completed in 1802. For several years it housed the students, and all classes were held there. More recently, until the fall of 1965, the president and some of the other administrative officers had their offices there. Now used for faculty offices, the building was designated a Registered Historical Landmark in 1971.

The work of the College has its heart and center in Nathaniel Hawthorne-Henry Wadsworth Longfellow Library, which contains the accumulations of over a century and a half. The nucleus of its 475,000 volumes is the collection of books and pamphlets bequeathed by James Bowdoin. These "Bowdoin Books," rich in French literature, American history, and mineralogy, were supplemented by the same generous benefactor's gift of an art collection containing many paintings of old and modern masters. Among the paintings are the portraits of Thomas Jefferson and James Madison by Gilbert Stuart, and a notable collection of portraits by the distinguished colonial artist Robert Feke.

Classes are held in Adams, Banister, Cleaveland, Gibson, Hubbard, and Sills halls, the Afro-American Center, Searles Science Building, Senior Center, Smith Auditorium, and Walker Art Building. When students are not engaged in academic work, they have at their disposal many well-equipped recreational facilities. These include the Arena, Curtis Pool, Hyde Athletic Building, Morrell Gymnasium, Moulton Union, Pickard Field House, Sargent Gymnasium, and some seventy-five acres of playing fields. Another valuable adjunct for the health of the student is the Dudley Coe Memorial Infirmary.

COLLEGE BUILDINGS

Seth Adams Hall was erected in 1860-1861 and named in honor of Seth Adams, of Boston, who contributed liberally toward its construction. From 1862 until 1921 it housed the classrooms of the Medical School of Maine. It now houses the Smyth Mathematical Library, named in memory of William Smyth, of the Class of 1825, who was professor of mathematics from 1828 to 1868. The building also contains classrooms, lecture rooms, and the offices of the Department of Mathematics. It stands west of the Presidents' Gateway.

bequeathed to the College in 1933 on the death of Professor Marshall Perley Cram, Ph.D., of the Class of 1904. Renovated in 1962 and maintained by the College, it is the center of alumni activities at Bowdoin and contains lounges, rest rooms, and other facilities for the use of visiting alumni and their families and guests. The Ladies' Lounge, located on the second floor, was presented by the Society of Bowdoin Women in 1965.

Appleton Hall (1843), named in memory of the second president of the College; **Coleman Hall** (1958), named in honor of the family of the donor, Jane Coleman Pickard (Mrs. Frederick W. Pickard); **Hyde Hall** (1917), named in memory of the seventh president of the College; **Maine Hall** (1808), known originally as "the College" and named later to commemorate the admission of Maine to the Union; **Moore Hall** (1941), named in honor of his father by the donor, Hoyt Augustus Moore, LL.D., of the Class of 1895; and **Winthrop Hall** (1822), named in memory of Governor John Winthrop of the Massachusetts Bay Colony, are the six campus dormitories. In 1964-1966 the interiors of Appleton, Maine, and Winthrop were completely renovated.

The Arena was built in 1956 with contributions from alumni, students, and friends. It contains seats for 2,400 spectators, a regulation ice-hockey rink with a refrigerated surface 200 feet long by 85 feet wide, locker rooms, and a snack bar. During 1972 and 1973 numerous improvements were made, including the installation of brighter lights and additional ice-making equipment, which enables the Arena to be operated year-around. It is the site of intercollegiate and intramural hockey contests, as well as recreational skating.

Baxter House, at 10 College Street, was purchased in 1971 and is used as a student residence. For nearly twenty years it was the chapter house of Delta Psi of Sigma Nu, which established a scholarship fund at the College with the proceeds from the sale. Named for the Baxter family in recognition of its many contributions to Bowdoin and the State of Maine, it was built by Hartley C. Baxter, of the Class of 1878, one of five Baxters to serve on the Governing Boards and step-brother of Percival J. Baxter, of the Class of 1898, governor of Maine from 1921 to 1925.

Burnett House, 232 Maine Street, is a residence for students which was acquired in 1972. From 1965 to 1970 it was the home of Phi Delta Psi Fraternity. For many years it was the home of Professor and Mrs. Charles T. Burnett. Professor Burnett, chairman of the Department of Psychology, was an active member of the faculty for forty-two years before his retirement in 1944. The house was built in the 1860s by a retired seafarer and purchased by the Burnetts in 1920.

The Chapel, a Romanesque church of undressed granite designed by Richard Upjohn, was built during the decade from 1845 to 1855 from funds received from the Bowdoin estate. The façade is distinguished by twin towers

and spires which rise to the height of 120 feet. The interior resembles the plan of English college chapels, with a broad central aisle from either side of which rise the ranges of seats. The lofty walls are decorated with twelve large paintings. The Chapel stands as a monument to President Leonard Woods, fourth president of the College, under whose personal direction it was erected. The flags are of the original thirteen colonies plus Maine, which was a part of Massachusetts at the time of the founding of the College in 1794. A set of eleven chimes, the gift of William Martin Payson, of the Class of 1874, was installed in the southwest tower in 1924. In the Chapel is an organ given in 1927 by Cyrus H. K. Curtis, LL.D. That portion of the building which formerly housed the reading rooms and stack space of the college library was named **Banister Hall** in 1850 in recognition of the gifts of the Honorable William Banister. It contains the offices of *The Bowdoin Orient* and the classrooms and laboratories of the Department of Psychology.

Chase Barn Chamber, named in memory of Stanley Perkins Chase, Ph.D., of the Class of 1905, Henry Leland Chapman Professor of English Literature from 1925 to 1951, and Mrs. Chase, is a handsome room located in the ell of the **Johnson House**. Designed by Felix Burton, of the Class of 1907, in the Elizabethan style, it is heavily timbered, contains a small stage, an impressive fireplace, and houses many of the books from the Chase library. The chamber is used for small classes, seminars, and conferences.

Parker Cleaveland Hall, designed by McKim, Mead & White, was dedicated in 1952. The building was made possible by donors to the Sesquicentennial Fund. It houses the Department of Chemistry and bears the name of Parker Cleaveland, who taught chemistry and mineralogy at Bowdoin from 1805 to 1858 and was a pioneer in geological studies. Special gifts provided the Kresge Laboratory of Physical Chemistry, the Wentworth Laboratory of Analytical Chemistry, the 1927 Room (a private laboratory), the Adams Lecture Room, the Burnett Room (a seminar room), and the Dana Laboratory of Organic Chemistry.

Dudley Coe Memorial Infirmary is a three-story brick building erected in 1916-1917. It was given by Thomas Upham Coe, M.D., of the Class of 1857, in memory of his son, and stands in the pines to the south of the Hyde Athletic Building. In 1957 it was enlarged through a gift by Agnes M. Shumway, A.M. (Mrs. Sherman N. Shumway). In 1962 it was licensed by the state as a private general hospital.

Copeland House, at 88 Federal Street, was acquired in 1972. A residence for students, it was formerly the home of Manton Copeland, Ph.D., who taught biology at the College from 1908 until 1947 and was Josiah Little Professor of Natural Science Emeritus at the time of his death in 1971.

Curtis Swimming Pool was given to the College in 1927 by Cyrus H. K.

Curtis, LL.D. The pool is housed in a separate wing attached to the Sargent Gymnasium. It measures thirty by seventy-five feet.

Getchell House, located at 5 Bath Street, is diagonally opposite Adams Hall. It was given in 1955 by Miss Gertrude Getchell, of Brunswick, and completely refurbished in 1956. It houses the offices of the News Services, College Editor, and *Alumnus* Editor.

The Harvey Dow Gibson Hall of Music, named for Harvey Dow Gibson, LL.D., of the Class of 1902, was dedicated in 1954. Its construction was made possible by funds donated by Mrs. Harvey Dow Gibson; by Mrs. Gibson's daughter, Mrs. Whitney Bourne Choate; by the Manufacturers Trust Company of New York; and by several friends of Mr. Gibson. Designed by McKim, Mead & White, the building contains class, rehearsal, and practice rooms, a recording room, several rooms for listening to records, offices, and a music library. The common room is richly paneled in carved walnut from the music salon designed in 1724 by Jean Lassurance (1695-1755) for the Hôtel de Sens in Paris.

Ham House, at 3 Bath Street, was for many years the residence of Roscoe J. Ham, L.H.D., George Taylor Files Professor of Modern Languages from 1921 to 1945. Acquired in 1954, it houses the offices of Bowdoin Upward Bound.

Harpwell Street Apartments, adjacent to Pickard Field, and **Pine Street Apartments**, across from Whittier Field, were opened in the fall of 1973. There are two buildings of contemporary design at each location, and each of the buildings contains six apartments. The apartments, which accommodate up to ninety-six students, were built to meet the need for additional housing and to provide an alternative to living in a conventional dormitory.

Haskell House, at 72 Federal Street, was given by Henry C. Haskell, A.B., B.S., of the Class of 1918, and Mrs. Haskell in memory of Alaric W. Haskell, Sc.D., the dean of Maine dentists who practiced his profession in Brunswick from 1888 until his retirement in 1955. A two-and-a-half-story colonial home, it was Dr. Haskell's residence for many years. It is the residence of the dean of the faculty.

Nathaniel Hawthorne-Henry Wadsworth Longfellow Library, designed by Walker O. Cain and Associates, of New York, was built in 1964-1965 from funds contributed during the Capital Campaign. It was named after two of Bowdoin's literary giants, both members of the Class of 1825. It houses the principal portions of the library of the College and—in its western end, named **Hawthorne-Longfellow Hall**—most of the general administrative offices of the College. Utilizing the latest concepts in library design, the library was planned to complement the older buildings of the College and, at the same time, be compatible with the newer architectural concept of the Senior Center.

Hubbard Grandstand was given in 1904 by General Thomas H. Hubbard, LL.D., of the Class of 1857. It is situated on **Whittier Field**, a tract of five acres, named in honor of Frank Nathaniel Whittier, M.D., of the Class of 1885, for many years director of the gymnasium, who was largely instrumental in its acquisition for varsity football and track in 1896. An electrically operated scoreboard, the gift of the widows of Harvey Dow Gibson, LL.D., of the Class of 1902, and Adriel Ulmer Bird, A.M., of the Class of 1916, was erected in 1960. Surrounding the field is the **John Joseph Magee Track**, an Olympic regulation all-weather track given by alumni and friends in memory of Mr. Magee, coach, trainer, and director of track and field athletics from 1913 to 1955.

Hubbard Hall, designed by Henry Vaughan and erected in 1902-1903, was the gift of General Hubbard and his wife, Sibyl Fahnestock Hubbard. For over sixty years, until the fall of 1965, it was the College Library. After suitable renovations it is now used for faculty offices, examination rooms, and the Department of Geology. Located in the basement is the Computing Center, which contains a PDP-10 time-sharing system. The Peary-MacMillan Arctic Museum is located on the first floor, and the Susan Dwight Bliss Room for rare books and bindings remains on the second floor.

Johnson House, named in memory of Henry Johnson, Ph.D., Litt.D., of the Class of 1874, a distinguished member of the Bowdoin faculty from 1877 to 1918, and Mrs. Johnson, is located at the corner of Maine and Boody streets across from the southwestern entrance to the campus. Bequeathed to the College in 1957, this commodious residence is now used as the home of the dean of the College.

Little-Mitchell House, at 6-8 College Street, houses the Afro-American Center. The Mitchell House was named in honor of Wilmot Brookings Mitchell, L.H.D., of the Class of 1890, Edward Little Professor of Rhetoric and Oratory from 1893 to 1939. It was given by Professor Mitchell in 1961. The Little House, the 8 College Street side of the connected buildings, was acquired in 1962.

Massachusetts Hall, planned in 1798 and completed in 1802, was the first college building erected. In 1936 it was remodeled, and five years later, through a gift of Frank Herbert Swan, LL.D., of the Class of 1898, the third floor was restored and furnished to accommodate faculty meetings. Until 1965 the building housed the offices of some of the administrative officers. Since then, it has been used for faculty offices. In 1971 the building was designated a Registered Historical Landmark.

Mayflower Apartments, at 14 Belmont Street, were acquired in 1972. Located within a few minutes' walk of the campus, the complex can accommodate a minimum of forty students.

Memorial Hall, built in 1868, is a structure of local granite in the Gothic style. It is a memorial to the alumni and students of the College who served in the Civil War and whose names and ranks are inscribed on bronze plaques in the lobby. The lower floor contains classrooms and an experimental theater. The entire interior was rebuilt in 1954-1955 to house the Pickard Theater, one of the gifts of Frederick William Pickard, LL.D., of the Class of 1894.

Malcolm E. Morrell Gymnasium is a 50,000-square-foot building connected to Sargent Gymnasium. Built in 1964-1965 from funds contributed during the Capital Campaign, it was in 1969 named in memory of Malcolm Elmer Morrell, of the Class of 1924, Bowdoin's director of athletics from 1928 to 1967. The gymnasium contains a modern basketball court with seats for about 2,500 persons, four visiting team rooms, eleven squash courts, offices for the director of athletics and his staff, and other rooms for physical education purposes.

The Moulton Union, designed by McKim, Mead & White, was built in 1927-1928. It was given and partially endowed by Augustus Freedom Moulton, LL.D., of the Class of 1873, as a social, recreational, and service center for the College. In 1964-1965, a two-story extension was added on the south and east sides of the building. The spacious main lounge and several smaller, intimate lounges and student activity areas are provided for general social purposes. The Union also contains the college reception, information, and scheduling center, the campus telephone switchboard, a bookstore, dining facilities, and a game room. The Union stands just outside the quadrangle opposite Appleton, Hyde, and Moore Halls.

New Meadows River Sailing Basin: In 1955 the College purchased a cabin and section of shore front with a dock on the east side of the New Meadows River Basin to provide facilities for the sailing team.

The Observatory was erected in 1890-1891 with funds given by John Taylor, Esq., of Fairbury, Illinois. It stands on the southeast corner of Pickard Field and is reached from the Harpswell Road. In 1965 it was renovated and a new telescope was installed.

Pickard Field House stands at the entrance of Pickard Field. It was given in 1937 by Frederick William Pickard, LL.D., of the Class of 1894, and Mrs. Pickard. The building contains a pleasant lounge as well as lockers and showers. **Pickard Field**, a tract of sixty-six acres, was presented to the College by Mr. Pickard in 1926. In 1952 nine acres were added to the field by purchase, making a total area of seventy-five acres, thirty of which are fully developed playing fields. The field contains the varsity and freshman baseball diamonds, several spacious playing fields for football and soccer, and ten tennis courts.

Pickard Theater in Memorial Hall, also a gift of Mr. Pickard, was dedicated in 1955. It has a seating capacity of slightly more than 600 and a stage 55 feet

wide and 30 feet deep. The space from the stage floor to the gridiron is 48 feet. Adorning the walls of the auditorium are rubbings of six large reliefs of the Chinese emperor T'ai Tsung's war horses. The reliefs were executed about A.D. 637 for the emperor's tomb and were possibly from designs of Yen Li-pen. The rubbings were the gift of Walter H. Mallery in 1955.

The President's House, built in 1860 by Captain Francis C. Jordan, originally stood on the lot at 77 Federal Street. It was purchased by the College in 1867 and was occupied by President Harris until 1871. The house was purchased by Peleg W. Chandler, and in 1874 he had it moved to its present location at the corner of Federal and Bath streets. At a later date the College reacquired the house, and shortly after President Hyde assumed office in 1885, it became his official residence. The ballroom was added in 1926.

Rhodes Hall, formerly the Bath Street Primary School, was purchased from the Town of Brunswick in 1946 to provide additional facilities for instruction and administration. The building was named to commemorate the fact that three pupils of the school later achieved distinction as Rhodes scholars at Oxford University. Here are the offices of the Department of Physical Plant and the headquarters of the ROTC.

Sargent Gymnasium and General Thomas Worcester Hyde Athletic Building were erected in 1912. The gymnasium was built from contributions from many of the students and alumni, and named in honor of Dudley A. Sargent, M.D., Sc.D., of the Class of 1875; the athletic building was given by John Hyde, Esq., of Bath, in memory of his father, Thomas Worcester Hyde, A.M., of the Class of 1861. In 1965-1966 Sargent Gymnasium was altered and renovated to make it part of the comprehensive plan for the indoor athletic facilities of the College.

Mary Frances Searles Science Building, designed by Henry Vaughan, was built in 1894 and completely renovated and modernized in 1952. It was the gift of Edward F. Searles in memory of his wife. With the Walker Art Building and Gibson Hall, it forms the western side of the quadrangle. The building contains lecture rooms, laboratories, and libraries of the Departments of Biology and Physics.

The Senior Center was completed in the autumn of 1964. Built from funds contributed during the Capital Campaign, it consists of three buildings. The main building, a sixteen-story tower, includes living and study quarters, seminar and conference rooms, lounges, accommodations for visitors, and the director's office. The entire first floor of the tower has been named in memory and honor of the late Henry Quinby Hawes, A.M., of the Class of 1910, and Mrs. Hawes. **Wentworth Hall**, named in memory of Walter V. Wentworth, Sc.D., of the Class of 1886, an overseer of the College from 1929 to 1958, is a

two-story building adjacent and connected to the tower. It contains the dining room, main lounge, and other rooms for instructional, social, and cultural activities. In 1974 the main lounge was dedicated to the memory of Athern P. Daggett, Ph.D., LL.D., of the Class of 1925, acting president from 1967 to 1969 and for many years William Nelson Cromwell Professor of Constitutional and International Law and Government. **Chamberlain Hall**, named in memory of General Joshua Lawrence Chamberlain, LL.D., of the Class of 1852, Civil War hero, governor of Maine, and president of Bowdoin from 1871 to 1883, contains apartments for the director and other participants in the program and a small banquet room for use on special occasions.

Sills Hall and **Smith Auditorium**, designed by McKim, Mead & White, were completed in the autumn of 1950. The main structure was made possible by the first appropriations from the Sesquicentennial Fund and was named after the eighth president of the College, Kenneth Charles Morton Sills (1879-1954), of the Class of 1901; the wing, containing an auditorium seating 210 persons, was built by appropriation of the Francis, George, David, and Benjamin Smith Fund, bequeathed by Dudley E. Wolfe, of Rockland. A language laboratory and speech center are located in the wing. In 1968 a donor who wished to remain anonymous established the Constance and Albert Thayer Speech Center Fund to maintain the speech center. The fund was named in honor of Albert R. Thayer, A.M., of the Class of 1922, Harrison King McCann Professor of Oral Communication Emeritus, and his wife.

Winfield Smith House, at 59 Harpswell Street, was acquired in 1972. A residence for students, it is named in memory of L. Winfield Smith, of the Class of 1907, who was born and raised in the house, "in recognition of the Smith family's long and devoted interest in Bowdoin."

Walker Art Building, designed by McKim, Mead & White, was erected in 1892-1894. It was given by the Misses Harriet and Sophia Walker, of Waltham, Massachusetts, as a memorial to their uncle, Theophilus Wheeler Walker, of Boston, a cousin of President Woods. A bronze bulletin board in memory of Henry Edwin Andrews, A.M., of the Class of 1894, director of the museum, 1920-1939, is located in Sculpture Hall. The building is surrounded on three sides by a paved terrace with supporting walls and parapets of granite. Granite and bronze sculptures adorn the front wall.

OTHER MEMORIALS

The Harold Lee Berry Special Collections Suite, in Hawthorne-Longfellow Library, is in memory of Harold Lee Berry, A.M., of the Class of 1901, for nearly forty years a member of the Governing Boards, and generous benefactor of the College. The suite comprises several rooms in the northeast area of the third floor.

The Bowdoin Polar Bear, placed in 1937, is a memorial to members of the Class of 1912. The base and life-size statue were carved by Frederick George Richard Roth. The figure stands in front of the entrance to the Sargent Gymnasium.

The Stuart Franklin Brown Lobby, in Hawthorne-Longfellow Library, is a memorial to Stuart Franklin Brown, of the Class of 1910, and was the gift of Mrs. Brown.

The Calder Mobile, which hangs near the main circulation desk in Hawthorne-Longfellow Library, was purchased with funds given in the memory of Charles B. Price III, of the Class of 1974, who died in 1972. Purchased because Price was an admirer of the work of Alexander Calder, the mobile will hang in the new art instruction building as soon as it is completed. Price, a biology and economics major, was a Dean's List student and James Bowdoin Scholar.

Catlin Path, extending from the Warren Eastman Robinson Gateway to Hubbard Hall, was laid in 1954 through the generous gift of Warren Benjamin Catlin, Ph.D., for many years Fayerweather Professor of Economics and Sociology.

The Chase Memorial Lamps, dedicated to the memory of Stanley Perkins Chase, Ph.D., of the Class of 1905, Henry Leland Chapman Professor of English Literature (1925-1951), stand on the Moulton Union terrace. They were presented to the College by Mrs. Chase in 1954.

The Class of 1875 Gateway was erected in 1901 as a memorial to members of the class. It forms the Maine Street entrance of the Class of 1895 Path.

The Class of 1878 Gateway, erected in 1903, is a memorial to members of the class. It is on Bath Street between Memorial Hall and the First Parish Church.

The Class of 1886 Pathways are a network of walks laid in 1945 as a memorial to members of his class through the generosity of Walter Vinton Wentworth, Sc.D., of the Class of 1886. The pathways traverse an area lying north of Massachusetts Hall.

The Class of 1895 Path was laid in 1945 as a memorial to members of the class. It extends from the Chapel to the Class of 1875 Gateway.

The Class of 1898 Bulletin Board, erected in 1924 near the Chapel, is a memorial to members of the class. It is made of bronze, is double-faced and illuminated.

The Class of 1903 Gateway, erected in 1928, is a memorial to members of the class. It forms the main entrance to the Whittier Athletic Field.

The Class of 1909 Organ, an electronic instrument for use in the Pickard Theater, was presented by the Class of 1909 on the occasion of its fiftieth anniversary and dedicated in June 1960. A fund with a current balance of \$4,069, given at the same time, is for the maintenance of the organ and for the support of musical education in the College.

The Class of 1910 Path was laid in 1940 as a memorial to members of the class. It extends from Bath Street to Coleman Hall, running parallel to the four dormitories and in front of the entrance to the Chapel.

The Class of 1914 Librarian's Office, in the Hawthorne-Longfellow Library, is in honor of the members of the Class of 1914, who made a specific gift for this purpose. The office is on the first floor to the left of the entrance.

The Class of 1916 Path was laid in 1946 as a memorial to members of the class. It extends from Massachusetts Hall to the Alpheus Spring Packard Gateway.

The Class of 1919 Path, laid in 1945, is a memorial to members of the class. It extends from the north entrance of Winthrop Hall, past the entrances to Massachusetts Hall and Memorial Hall, to the Franklin Clement Robinson Gateway.

The Class of 1922 Fountain, between Hawthorne-Longfellow Library and Hubbard Hall, was constructed in 1968. It is the gift of Mrs. John C. Pickard of Wilmington, Del., in honor of her husband's class. The fountain was designed by André R. Warren and was constructed by workmen of the Department of Physical Plant.

The Class of 1924 Radio Station (WBOR, "Bowdoin-on-Radio") was given by the Class of 1924 on the occasion of its twenty-fifth reunion. The station, installed in 1951 on the second floor of the Moulton Union, contains two broadcasting studios and a fully equipped control room.

The Class of 1929 Electronic Chimes System, for automation of the Chapel chimes, was presented by the Class of 1929 on the occasion of its fortieth reunion. A fund for maintenance of the system was established at the same time.

The Class of 1937 Lounge, located in the Alumni House, was presented by the Class of 1937 on the occasion of its twenty-fifth reunion. It is a large, informal, and rustic room, with pine furniture, old pictures of Bowdoin and of Brunswick, and a large hewn granite fireplace. The lounge was given in memory of Harold L. Cross, Jr., David T. Deane, J. Donald Dyer, and Maxwell A. Eaton, who gave their lives in the service of their country during World War II.

The Class of 1938 Newspaper Room, in the Hawthorne-Longfellow Li-

brary, is in honor of the members of the class. The room is on the first floor to the right of the entrance.

The Class of 1942 Cross was placed behind the reading stand in the Chapel in 1952 in memory of class members who gave their lives during World War II.

The Harry Howard Cloudman Drinking Fountain, erected in 1938, is in memory of Harry Howard Cloudman, M.D., of the Class of 1901, one of the outstanding athletes at the turn of the century. It stands near the Sargent Gymnasium.

The Robert Peter Tristram Coffin Reading Room, in the Hawthorne-Longfellow Library, is in memory of Robert Peter Tristram Coffin, Litt.D., of the Class of 1915, a distinguished author, poet, and professor. The room was the gift of the Class of 1915 on the occasion of its fiftieth reunion and occupies the northern bay on the first floor.

The Colbath Room, in the Morrell Gymnasium, is a memorial to Henry Jewett Colbath, of the Class of 1910, an outstanding athlete and dedicated teacher and coach.

The William John Curtis 1875 Room, in the Hawthorne-Longfellow Library, is a memorial to William John Curtis, LL.D., of the Class of 1875, for over twenty-five years an overseer and trustee of the College, and a generous benefactor always in the name of his class. The room, in the northeast corner of the first floor, is used for current periodicals.

Daggett Lounge, the main lounge in Wentworth Hall, was dedicated in 1974 to the memory of Athern P. Daggett, Ph.D., LL.D., of the Class of 1925. Professor Daggett, a member of the faculty for more than forty years and acting president from 1967 to 1969, was William Nelson Cromwell Professor of Constitutional and International Law and Government at the time of his death in 1973.

The Dane Flagpole, in honor of Francis Smith Dane, of the Class of 1896, stands in the northwest corner of Whittier Field. The gift of Mrs. Annie Lawrence E. Dane and a member of her family, the flagpole was placed in 1954 in recognition of Mr. Dane's efforts as an undergraduate to acquire an adequate playing field for the College.

The James Frederick Dudley Classroom in Banister Hall was renovated and furnished in 1954 as a memorial to James F. Dudley, A.M., of the Class of 1865, by the bequest of Nettie S. Dudley.

The William Pitt Fessenden Conference Room, in Hawthorne-Longfellow Hall, is a memorial to William Pitt Fessenden, LL.D., of the Class of 1823,

United States senator 1854-1864, 1865-1869; United States secretary of the treasury 1864-1865; and overseer and trustee of the College from 1843 to 1869. The room is on the second floor, near the offices of the president and deans.

The Melville Weston Fuller Reading Room, in Hawthorne-Longfellow Library, is a memorial to Melville Weston Fuller, LL.D., of the Class of 1853, chief justice of the United States Supreme Court from 1888 to 1910, and an overseer and trustee of the College from 1875 to 1910. The room occupies the southern bay on the first floor.

The Gardner Bench, near Hawthorne-Longfellow Library, is dedicated to the memory of William Alexander Gardner, of the Class of 1881, and was presented to the College by Mrs. Gardner in 1954.

Hutchinson Lounge and **Hutchinson Terrace**, in Wentworth Hall, are memorials to Charles Lyman Hutchinson, of the Class of 1890, a prominent lawyer in Portland. They are on the south side of the building between the main dining room and lounge.

The Elijah Kellogg Tree, a large pine dedicated to the memory of the Reverend Elijah Kellogg, A.M., of the Class of 1840, stands near the corner of Bath Street and Sills Drive.

The Fritz C. A. Koelln Room, in Sills Hall, was dedicated in 1971 in honor of Fritz C. A. Koelln, Ph.D., George Taylor Files Professor of Modern Languages Emeritus and a member of the Department of German from 1929 until his retirement in 1971, "in recognition of his devoted service to the College and the inspiration he has been to so many undergraduates over the years."

The Donovan D. Lancaster Lounge, in the Moulton Union, was named in November 1970 in honor of Donovan D. Lancaster, of the Class of 1927, director of the Moulton Union and the Centralized Dining Service emeritus and a member of the College staff for over forty years. The lounge is used for lectures and exhibitions of art and photography throughout the year.

The George Thomas Little Bibliography and Card Catalogue Area, in Hawthorne-Longfellow Library, is a memorial to George Thomas Little, Litt.D., of the Class of 1877, librarian of the College from 1885 to 1915. The area occupies the center portion of the first floor.

Little Ponds Wildlife Sanctuary is the gift of Mrs. Harold Trowbridge Pulsifer in memory of her husband, Harold Trowbridge Pulsifer, and Sheldon Ware, a neighbor. Located at Bethel Point, East Harpswell, and given in 1961, this tract of several acres includes a meadow, pond, woodland, and shore

frontage. It is used for the study and conservation of wildlife and is the site of the Bowdoin College Marine Laboratory.

The Harrison King McCann Music Lounge, on the sixteenth floor of the tower of the Senior Center is a memorial to Harrison King McCann, A.M., of the Class of 1902, for thirty years an overseer of the College.

The Cecil Cleophus McLaughlin Study, in Chamberlain Hall, is a memorial to Cecil Cleophus McLaughlin, M.D., of the Class of 1923. The study was the gift of his wife and is for the use of the director of the Senior Center.

The John Joseph Magee Track, surrounding Whittier Field, was given by a group of alumni and friends to honor the memory of John Joseph Magee, coach, trainer, and director of track and field athletics from 1913 to 1955 and an Olympic team coach in 1920, 1924, 1928, and 1932. Constructed in 1970, the Olympic regulation all-weather track was dedicated in 1971.

The Magee Training Room, in the Morrell Gymnasium, is another memorial to Coach Magee.

The Memorial Flagpole, designed by McKim, Mead & White, was erected in 1930 with funds given by the alumni in memory of the twenty-nine Bowdoin men who lost their lives in World War I. The Honor Roll is engraved on the mammoth granite base surmounted by ornamental bronze. The flagpole stands in the southwestern corner of the campus between Hubbard Hall, Walker Art Building, and Gibson Hall.

The Wilmot Brookings Mitchell Lounge, on the second floor of Wentworth Hall, is a memorial to Wilmot Brookings Mitchell, Litt.D., L.H.D., of the Class of 1890, a beloved teacher of English for almost fifty years.

The Morrell Office, in the Malcolm E. Morrell Gymnasium, was given by members of the Class of 1924 in honor of their classmate Malcolm Elmer Morrell, director of athletics from 1928 to 1967. It is the office of the director of athletics.

The Dean Paul Nixon Lounge-Conference Room, in Hawthorne-Longfellow Library, is a memorial to Paul Nixon, L.H.D., LL.D., for over forty years a teacher of Latin and dean of the College from 1918 to 1947. The room is on the southeast corner of the third floor.

The Alpheus Spring Packard Gateway, erected in 1940 on College Street, is a memorial to Alpheus Spring Packard, D.D., of the Class of 1816, a member of the Bowdoin faculty from 1819 to 1884.

The Peucinian Room, built in 1951, is in a corner of the lower floor of Sills Hall. It is paneled in timber taken from the Bowdoin Pines. The motto of the Peucinian Society, *Pinos loquentes semper habemus*, is carved on a heavy

timber above the fireplace. The fireplace and paneling were the gift of the Bowdoin Fathers Association in memory of Suzanne Young (1922-1948).

The Pickard Trees, twelve hawthornes in memory of Jane Coleman Pickard (Mrs. Frederick William Pickard), donor of Coleman Hall and co-donor of the Pickard Field House, were replanted around Coleman Hall by the Society of Bowdoin Women and dedicated in June 1959.

The Franklin Pierce Reading Room, in Hawthorne-Longfellow Library, is in memory of Franklin Pierce, LL.D., of the Class of 1824, the fourteenth president of the United States. This informal reading room is at the east end of the second floor.

The Presidents' Gateway, erected in 1932, is a gift of the Class of 1907 in memory of William DeWitt Hyde, D.D., LL.D., president of the College from 1885 to 1917, and "as a mark of the enduring regard of all Bowdoin men for the leadership of their Presidents." The gateway forms one of the northern entrances to the campus from Bath Street.

The Franklin Clement Robinson Gateway, erected in 1923, is a memorial to Franklin Clement Robinson, LL.D., of the Class of 1873, for thirty-six years a teacher at Bowdoin College, and to his wife, Ella Maria Tucker Robinson. The gateway forms the northwestern entrance to the campus.

The Warren Eastman Robinson Gateway, erected in 1920 at the southwestern entrance to the campus, is a memorial to Lieutenant Warren Eastman Robinson, of the Class of 1910, who lost his life in the service of his country.

The Shumway Tree, a Rocky Mountain fir in memory of Sherman Nelson Shumway, A.M., LL.B., of the Class of 1917, generous benefactor and an overseer of the College (1927-1954), was replanted on the campus and dedicated in June 1955. It stands in front of Hawthorne-Longfellow Hall.

The Simpson Memorial Sound System, the gift of Scott Clement Ward Simpson, of the Class of 1903, and Mrs. Simpson, is dedicated to the memory of their parents. The system, including a high-fidelity record player and other teaching aids in music, was installed in Gibson Hall in 1954. A fund for its maintenance was established by Mr. and Mrs. Simpson in 1955.

The Thorndike Oak, standing near the center of the campus, is dedicated to the memory of George Thorndike, of the Class of 1806, who planted the tree in 1802 after the first chapel exercises.

The Turner Tree, a maple in memory of Perley Smith Turner, A.M., of the Class of 1919, professor of education at Bowdoin (1946-1956), was replanted on the campus east of Smith Auditorium by classmates and friends and dedicated in June 1957.

The Gerald Gardner Wilder Cataloguing Room, in Hawthorne-Longfellow Library, is a memorial to Gerald Gardner Wilder, A.M., of the Class of 1904, librarian of the College from 1916 to 1944. The room is in the south-east area on the first floor.

The Frank Edward Woodruff Room, in Sills Hall, is a memorial to Frank Edward Woodruff, A.M., a member of the Bowdoin faculty from 1887 to 1922. The room was provided in 1951 through the generous bequest of Edith Salome Woodruff.

General Information

TERMS AND VACATIONS: The College holds two sessions each year, beginning in September and January. The dates of the semesters and the vacation periods are indicated on the College Calendar on pages v-vi.

Registration and Enrollment: All students are required to register at the opening of each semester in accordance with schedules posted at the College and mailed to students registering for the first time.

Offices and Office Hours: The Offices of General Administration, the Admissions Office, the Business Office, and the Development Office are located in Hawthorne-Longfellow Hall, the west end of the Nathaniel Hawthorne-Henry Wadsworth Longfellow Library. The Office of the College Counselor and the Office of Career Counseling and Placement are in the Moulton Union. The Department of Physical Plant is in Rhodes Hall.

In general, the administrative offices of the College are open from 8:30 to 5:00 Monday through Friday. Summer hours are from 8:30 to 4:00.

Telephone Switchboard: The College has a central telephone switchboard located in the Moulton Union. All college phones are connected to this switchboard. The number is 207-725-8731.

College Bills and Fees: Before the opening of the fall semester a statement covering tuition, room rent, board, and fees for the year will be sent to each student. If this statement should be sent to someone other than the student, a request in writing to do so should be made to the Business Office. Parents or guardians of incoming freshmen are required to sign a financial guaranty obligating them to pay all bills and fees so long as their son or daughter is enrolled.

Charges for the year may be paid in two equal payments to be made not later than August 15 and January 2. In addition, a \$100 deposit is required by March 15 of each year from all students, except entering freshmen, who wish to reserve a room for the next academic year.

Students whose term bills are not paid by August 15 or January 2 may not register or attend classes except under special circumstances and with approval of the Deans' Office. Charges incurred during the term must be paid when presented. Students with unpaid bills are not eligible for academic credit, transcripts, or degrees. Special problems should be discussed with the dean of students or the director of student aid.

Tuition: The tuition fee for the 1974-1975 academic year is \$1,500 each semester or \$3,000 for the year. There is a per-course charge of \$375 for special students taking fewer than four courses a semester. Any student completing

the number of courses required for the degree in less than eight semesters must pay tuition for eight semesters, except that the dean of the College is authorized to waive the requirements in such cases where the factors of advanced placement, junior year abroad, exchange or transfer status, or similar special circumstances exist. Work taken at other institutions to make up deficiencies in scholarship at Bowdoin shall not relieve the student of the obligation to pay tuition covering eight full semesters at Bowdoin College.

The Governing Boards have approved an increase in the annual tuition fee by as much as \$600 over the three-year period beginning July 1, 1974, such increase or increases to be made as financial conditions may indicate during this period. Three hundred dollars of this increase became effective on July 1, 1974.

There are opportunities at Bowdoin to receive financial aid in meeting the charge for tuition. Detailed information about scholarships, loans, and other financial aid may be found on pages 50-81.

Room and Board: Freshmen are assigned rooms by the Admissions Office but may indicate by letter to it their preference in the matter of roommates. Sophomores and juniors apply for rooms to the assistant to the dean of students. Seniors are assigned rooms in the Senior Center by the director of the Senior Center. An applicant may indicate with whom he wishes to share a room, and the College will honor this preference whenever possible.

Suites in the dormitories consist of a study and bedroom which are provided with essential furniture. Students should furnish blankets and pillows; the College furnishes bed linen and towels. College property is not to be removed from the building or from the room in which it belongs; occupants are held responsible for any damage to their rooms or furnishings.

The College owns a variety of apartments located near the campus. Rent for these apartments has been set at \$800 a student for 1974-1975. Rent for dormitory rooms and rooms in a fraternity house is \$725 (\$525 a year for three-man rooms in the dormitories). Rooms in college-owned off-campus residence houses is \$725. A \$100 deposit is required by March 15 of each year from all students, except entering freshmen, who wish to reserve a room for the next academic year. Effective September 1975 a damage deposit will be required of all occupants of college residences.

Board has been set at \$825 for the year. These charges are the same regardless of whether a student eats at the Moulton Union, Senior Center, or a fraternity.

Every student pays room and board charges unless he has established residence with his family, occupies a college apartment, or is married and living with his wife or has been excused by the dean of students.

Other College Charges: All damage done to the buildings or other property of the College by persons unknown may be assessed equally on all undergraduates. The College collects in each academic year a student activity fee of \$85. The cost of tuition, board, room, and fees amounts to about \$2,300 for the semester. To these items must be added the cost of textbooks, personal

expenses (including travel), and fraternity expenses for members of these organizations.

A student participating in a study-away program which requires Bowdoin to administer tests or otherwise evaluate work done upon the student's return to the College is required to pay a charge of \$50 a semester course credit. This charge does not apply to the Twelve College Exchange or other accredited study-away programs.

Refunds: Refunds to students leaving college during the course of a semester will not be made unless for exceptional reasons. Any refund made will be in accordance with the schedule posted by the bursar.

Health Care: The facilities of the Dudley Coe Memorial Infirmary (licensed as a private general hospital) and the services of the college physicians are available to all students. If ill, students should immediately report to the infirmary.

To cover costs of treatment and care during the college year, in the infirmary or elsewhere, each student is required to have adequate health and accident insurance. This must be purchased through the College (the present group rate of \$35 per semester is subject to change), unless a student is covered otherwise by adequate health insurance certified by his parent or guardian at the time possible exemption from this requirement is requested. Coverage may be extended through the summer vacation by payment of an extra premium. Applications for the summer coverage are available at the Bursar's Office.

Motor Vehicles: All motor vehicles, including motorcycles and motor scooters, must be properly registered at the Dean of Students' Office. A registration fee of \$5 a semester has been charged students registering a motor vehicle. Failure to register a vehicle has resulted in a fine of \$25. Adequate liability insurance is required. *The amounts of the registration fee and fine are under study and are subject to change.*

The New England Association of Schools and Colleges: Bowdoin College is accredited by the New England Association of Schools and Colleges. Membership in one of the six regional accrediting associations in the United States indicates that the school or college has been carefully evaluated and found to meet standards agreed upon by qualified educators. Colleges support the efforts of public school and community officials to have their secondary school meet the standards of membership.

Statistics: As of June 1973, 21,284 students have been matriculated at Bowdoin College, and 15,256 degrees in courses have been awarded. In addition, earned master's degrees have been awarded to 241 postgraduate students. Living alumni include 7,874 graduates, 2,038 nongraduates, 21 medical graduates, 106 honorary graduates, and 240 graduates in the special postgraduate program.

Admission to the College

ONE can analyze the profile of Bowdoin's most recent class and make a rough prediction of a particular student's chances for admission to the next class. Approximately 65 percent of those admitted will have graduated from a public school, and the large majority will have ranked in the upper tenth of their graduating class. Well over half of the independent school graduates will have been in the upper fifth of their class. The typical entering freshman (although a number of exceptions could be cited) will have had four years of English, three or four years of a foreign language, mathematics through trigonometry, two or three years of laboratory sciences, and history. But helpful as statistics can be in revealing the nature of a class, it would be wrong to assume that they reveal the whole story of who is admitted.

To be certain, Bowdoin is primarily interested in the strong student. It is interested in the person who is intellectually inclined and is putting his talents to good use. But "drive" and "thirst" are perhaps closer to the mark in describing what the College is seeking. The true student picks the most demanding courses, creates independent projects, and seeks to learn beyond what is required. Thus, grades and tests are only part of the story in judging the student. Teachers' and counselors' reports and samples of the student's writing and ideas often prove valuable in revealing attitude, determination, and creativity. Bowdoin's appraisal of the student is partly an analysis of grades and scores, but largely an analysis of attitude, desire, and personal accomplishment.

Bowdoin is seeking a well-rounded class of individuals who are proud of their individuality. In the extracurricular realm, the College is looking for accomplishment and depth in areas of particular talent rather than surface involvement in a wealth of activities. Bowdoin seeks the exceptional social conscience, the exceptional writer, the exceptional musician, the exceptional athlete—people who have demonstrated sufficient discipline to become accomplished in an activity which will benefit not only the college community but also the general society thereafter.

Bowdoin is also seeking a classful of differences. Proud of its tradition in educating Maine and New England students, Bowdoin seeks to balance their representation with men and women from across the nation and the world. Those from the suburbs remain most welcome, but Bowdoin is actively seeking to make their college experience more vital by introducing more students from the inner-city, the ghetto, and the rural areas.

In summary, Bowdoin is selecting a class of students who share certain characteristics: drive, generous aptitude, and a genuine desire to learn. On the other hand, Bowdoin seeks a class of differences: students with different talents, of differing backgrounds, from different places, and with different

points of view. The resulting class, the College hopes, is a stimulating set of individuals with a common pursuit: education and application.

APPLICATION AND ADMISSION PROCEDURES

Early Decision: Early Decision is a plan whereby a candidate, if he is certain of his first-choice college, can attempt to resolve the problem of college admission early in the senior year. Ordinarily, Bowdoin admits between one-third and one-half of the class under the Early Decision program. Bowdoin is in agreement with other colleges regarding the general ground rules, which are as follows:

1. When each Early Decision candidate files his formal application for admission, he must state in writing that he wishes to be considered for Early Decision and that he will enroll if admitted. The Early Decision candidate may file regular applications at other colleges, but only with the understanding that these will be withdrawn if the candidate is accepted on an Early Decision basis by his first-choice college. In other words, only one Early Decision application may be made, but other regular applications can be listed simultaneously.

2. The student's application and formal request for Early Decision must be submitted to Bowdoin by *November 1*. Decisions will be announced no later than December 1.

3. A successful applicant for financial aid will be notified of the amount of his award at the time he receives his Early Decision acceptance, provided his financial aid forms are complete.

4. An Early Decision acceptance is contingent upon completion of the senior year in good standing.

5. A candidate not accepted under the Early Decision program will automatically be transferred to the regular applicant group. Each year, some applicants who are deferred under Early Decision are accepted in April. However, some are notified in December that chances for admission are slim.

Regular Admission: The following items constitute a completed admissions folder:

1. The student's application form submitted with the application fee (\$20) as early as possible in the senior year. The deadline for receiving regular applications is *February 1*.

2. The secondary school report form with the school's confidential estimate of the candidate and a transcript of grades through the midyear marking period of the candidate's senior year.

3. Recommendations: Each candidate is required to submit two reference forms—from an English teacher and a second teacher, club adviser, or coach.

4. CEEB Tests: Applicants are not required, but are encouraged, to submit results of the CEEB Tests. If a student does choose to submit his test scores,

the Admissions Committee will probably find them helpful in reaching a decision. The secondary school record, however, will always be considered the most important factor.

N.B.—Although CEEB test results are not required for admission, they are required for matriculation. Test results are used in academic counseling and placement.

5. Visit and Interview: A visit to Bowdoin during the candidate's junior or senior year is recommended. An interview with an admissions officer is encouraged but not required.

The College welcomes visitors throughout the year; however, interviews with admissions officers should be arranged two to three weeks in advance. Because no interviews can be scheduled between *February 1* and *May 1*, an applicant who desires an appointment should plan it before *February 1*. Student guides are available at the Moulton Union to conduct tours of the campus. The Admissions Office is open from 9 A.M. to 5 P.M. on weekdays and from 9 A.M. until 12 NOON on Saturdays during the academic year. During the summer it is open from 9 A.M. to 4 P.M. Monday-Friday and closed on Saturday.

Admission with Advanced Standing: Bowdoin participates in the College Entrance Examination Board Advanced Placement Program and grants both advanced standing in courses and credit toward graduation to properly qualified students. Examinations in Advanced Placement subjects are given by the CEEB in May of each year, and a student is granted placement or credit on the basis of his examination performance. A score of 3, 4, or 5 normally results in a student's being given credit for one or two semesters of college-level work in the subject; if he elects to continue that subject in college, he is given appropriate placement. An applicant should request consideration for advanced placement and credit by arranging for all Advanced Placement Test scores to be sent to the Admissions Office.

Candidates not offering Advanced Placement examinations may secure advanced placement by passing a qualifying examination at the College. Bowdoin recognizes the place of more advanced courses in secondary school and provides an opportunity for the unusually qualified student to extend the range of work that he may do in school and college. Occasionally a student may gain sufficient credit to enable him to complete his college course in fewer than eight semesters.

Transfer Students: A limited number of students from other colleges and universities will be admitted each year to upper-class standing at Bowdoin. The records of transfer candidates should be of good quality (honors work or better) in a course of study which approximates the work that would have been done at Bowdoin had they entered as freshmen. At least two full years

of residence at Bowdoin are required for the degree. The deadline for filing transfer application is April 1.

Special Students: Each semester, as space within the College and openings within courses permit, Bowdoin admits a few Special Students. In general, this program is intended to serve the special educational needs of residents of the Brunswick area. It is not a program for recent high school graduates who have not attended college or a program for students who have been enrolled in a college in the previous year. The tuition is \$375 for each course each semester. Inquiries should be addressed to the Dean of the College. Normally, participation in the program is limited to two semesters.

PROCEDURE FOR APPLICATION FOR FINANCIAL AID

Bowdoin is one of more than one thousand colleges which ask candidates for financial aid to file information through the College Scholarship Service, P. O. Box 176, Princeton, New Jersey 08540, or P. O. Box 1025, Berkeley, California 94701, or P. O. Box 881, Evanston, Illinois 60201. This organization has been formed to simplify scholarship procedures and to make decisions on awards as fair as possible. Each applicant for financial aid must obtain the Parents' Confidential Statement Form from his school and request the College Scholarship Service to forward a copy of this statement to Bowdoin. *No other form is required by Bowdoin, and application for scholarship is complete upon receipt of the Parents' Statement and the completed application for admission.* February 1 is the deadline for filing these applications (or November 1 for Early Decision applicants). Recipients of financial aid are selected on the basis of their academic records and personal promise; the amount of such assistance is intended to meet the individual's need as calculated from the information in the Parents' Confidential Statement. Additional material about the program of financial aid at Bowdoin may be found on pages 50-51. Awards of financial aid are announced with the letters of admission.

All correspondence concerning admission to the College and prematriculation scholarships should be addressed to the Director of Admissions, Bowdoin College, Brunswick, Maine 04011.

Scholarships, Loans, and Financial Aid

SCHOLARSHIP GRANTS, loans, and student employment are the principal sources of aid for Bowdoin students who need help in meeting the expenses of their education. Bowdoin believes that a student who receives financial aid as an outright grant should also expect to earn a portion of his expenses and that he and his family should assume responsibility for repayment of some part of what has been advanced to help him complete his college course. Grants will total about \$880,000 in 1974-1975 and will be made to about 40 percent of the student body. All awards are made on the basis of satisfactory academic work and financial need, which is a requisite in every case. The financial aid program is coordinated by the director of student aid, to whom all applications, except those from students not yet enrolled in college, should be directed. Prospective freshmen should submit their applications to the director of admissions.

For the past several years, more than \$250,000 has been lent annually to students. Long-term loans continue to be an integral part of financial aid, supplementing scholarship grants. Long-term loans may also be made to students not receiving scholarship grants on recommendation of the director of student aid. These loans, including those made from National Direct Student Loan funds, bear no interest during undergraduate residence. Interest at 3 percent is charged; and payment over a ten-year period is called for beginning nine months after graduation or separation; or after graduate school, three years of military, Peace Corps, or Vista service, or a combination of these. National Direct Student Loans also provide for the waiver of some payments for persons who become teachers and/or who serve in the military. Small, short-term loans are available upon application at the Business Office.

The student employment program offers a wide variety of opportunities to undergraduates. These include direct employment by the College, employment by the fraternities, and employment by outside agencies represented on the campus or located in the community. Some jobs are assigned to supplement grants and loans, but there are other opportunities for students who are interested, able, and willing to work. Commitments for employment are not made to freshmen until after the opening of college in September. The College participates in the Work-Study Program established under the Economic Opportunity Act of 1964 and in the Educational Opportunity Grants Program established under the Higher Education Act of 1965.

Prematriculation Scholarships: About 120 freshmen each year receive pre-matriculation awards to help them meet the expenses of their first year. Recently the range of awards has extended from \$400 to \$4,600. As noted above,

some awards are direct grants, but most include the tender of loans. The size and nature of these awards depend upon the need demonstrated by the candidates. Application should be made to the director of admissions before February 1 of each year. A candidate will be notified of a prematriculation award at the time he is informed of the decision on his application for admission, usually about April 15.

The general basis for the award of all prematriculation scholarships is the same although there are particular qualifications in several instances which are described below. For every award, however, each candidate is judged on the basis of his academic and personal promise as well as on the degree of his financial need. In determining these, the College considers the evidence provided by the school record, the results of standardized aptitude tests, the recommendations of school authorities and others, the range and degree of the candidate's interests, and the statement of financial resources submitted on the Parents' Confidential Statement of the College Scholarship Service.

A freshman who holds a prematriculation award may be assured of continuing financial aid that meets his needs in his upper-class years if his grades each semester are such as to assure normal progress toward graduation. This will ordinarily require grades of *Pass* in all regular courses, except that in some cases one grade of *Fail* may, at the discretion of the Committee on Student Aid, be balanced by one grade of *High Honors* or two grades of *Honors*. In each upper-class year the proportion of financial aid offered as a grant will be progressively decreased, and that offered as a loan increased, except in the case of certain scholarships where the full award must be made as an outright grant.

All awards of financial aid made in anticipation of an academic year, including the freshman year, will remain in effect for the full year unless the work of the holder is unsatisfactory. Awards for such students may be reduced or withdrawn for one semester. Awards may also be reduced or withdrawn for gross breach of conduct or discipline.

General Scholarships: Awards similar to prematriculation scholarships are granted to undergraduates already enrolled in college on the basis of their academic records and their financial need. Normally, these awards are made at the end of one academic year in anticipation of the next, but applications may be made in November for aid to be assigned during the spring semester on a funds available basis. Awards made for a full year are subject to the same provisions covering prematriculation awards, but those made for a single semester are not considered as setting award levels for the following year.

Employment Assignments: So far as practicable all college student jobs paying as much as \$200 per year will be assigned to students of recognized need by agreement among the director of student aid, the department head concerned, and the students to be employed.

Graduate Scholarships: These awards are made to students who have completed their work at Bowdoin and are pursuing advanced study at other institutions. Application should be made in writing to the director of student aid. They are described on pages 77-79.

U. S. Army Reserve Officers' Training Corps Scholarships: These four-year scholarships are awarded by the United States Army on a competitive basis to high school seniors. Recipients may use these scholarships at any college which will admit them and which has an Army ROTC program. Additionally, scholarships for one, two, and three years are awarded on a competitive basis to students already in the Bowdoin ROTC program. The grant from the Army covers full tuition with an annual allowance for fees, books, and supplies as well as \$100 a month subsistence pay. Awards are made without regard to financial need. Recipients must agree to take the four-year ROTC program to earn a commission and to serve four years of active duty as an officer in the United States Army. To secure application forms for the four-year ROTC scholarship, individuals should write to the commanding general of the Army area in which they live or to the director of the ROTC program at Bowdoin College no later than October of the senior year in high school. Applications for the one-, two-, and three-year ROTC scholarship programs are made during the school year upon announcement by the director of the ROTC program.

General Scholarships

The awards made as general scholarships are derived from funds provided by many generous donors, including alumni who contribute annually through the Alumni Fund. Most of them are assigned on an annual basis early in the summer by the Faculty Committee on Admissions and Student Aid, but others, especially for freshmen, are made at the end of the fall semester. The scholarships are listed alphabetically in each of two sections, endowed scholarships and scholarships funded annually.

The income from the fund is to be awarded to a deserving member of the graduating class to help defray the expenses of graduate work designed to assist him in preparing for a career in teaching at either the college or the secondary school level. (1965)

Charles Carroll Everett Scholarship: A fund of \$21,152 bequeathed by Miss Mildred Everett in memory of her father, Charles Carroll Everett, D.D., of the Class of 1850, the net income of which is given to that graduate of Bowdoin College whom the president and faculty shall deem the best qualified to take a postgraduate course in either this or some other country. (1904)

Timothy and Linn Hayes Graduate Scholarship Fund: A fund of \$3,886 given by Timothy and Linn Hayes for support of postgraduate studies in the social sciences, i.e., those branches of knowledge which deal with the institu-

tions and functioning of human society and with the interpersonal relationships of individuals as members of society. (1970)

Guy Charles Howard Scholarship: A fund of \$28,104 bequeathed to the College by Miss Ethel L. Howard in memory of her brother, Guy Charles Howard, of the Class of 1898, the income of which is to be used to enable "some qualified student to take a postgraduate course in this or some other country, such student to be designated by the Faculty." (1958)

Henry W. Longfellow Graduate Scholarship: A fund of \$15,204 given by the daughters of Henry W. Longfellow, of the Class of 1825—Miss Alice M. Longfellow, Mrs. Edith L. Dana, and Mrs. Annie L. Thorpe—for a graduate scholarship "that would enable a student, after graduation, to pursue graduate work in some other college, or abroad if considered desirable; the work to be done in English, or general literature, and the field to be as large as possible—Belles Lettres in a wide sense. The student to be selected should be one not merely proficient in some specialty, or with high marks, but with real ability in the subject and capable of profiting by the advanced work, and developing in the best way." (1907)

The Wilmot Brookings Mitchell Graduate Scholarship: An award of \$1,000 from a fund of \$45,007 established by Hugh A. Mitchell, of the Class of 1919, "to honor the memory of my father and his love for Bowdoin." Professor Mitchell was a member of the Class of 1890 and from 1893 to 1939 Edward Little Professor of Rhetoric and Oratory. The award is made by the president upon recommendation of a committee composed of the three senior professors of the Department of English "to a member of each graduating class who has majored in English and intends to teach English, the winning candidate to be selected on the basis of character as well as superior ability and talent for teaching." The award is to be used to help defray the costs of graduate work in a leading university in this country or England. (1965)

Galen C. Moses Graduate Scholarship: A fund of \$7,675 bequeathed by Emma H. Moses in memory of her husband, a member of the Class of 1856, the income "to be awarded and paid to the student most proficient in any natural science during his undergraduate course, who shall actually pursue a postgraduate course in such science at any recognized college or university; said income to be paid to such student for a period not exceeding three years, unless he sooner completes or abandons said postgraduate course." (1934)

O'Brien Graduate Scholarship: A fund of \$30,232 given by Mrs. John Washburn, of Minneapolis, in memory of her uncles, John, William, Jeremiah, and Joseph O'Brien, for a "scholarship, preferably a graduate scholarship, for a student, or students, to be selected annually by the Faculty, who shall be deemed most suitable to profit by travel or advanced study, either in this country or abroad." (1937)

Nathan Webb Research Scholarship in English or English Literature: A fund of \$41,586 bequeathed to the College by Dr. Latham True in memory of his wife's father, the Honorable Nathan Webb, LL.D., the income to be used to support a scholarship of \$1,200 annually. The recipient must have received his A.B. from Bowdoin, preferably be unmarried, and use the scholarship in his study toward a Ph.D. "If deemed advisable, the said scholarship may be awarded to the same student for two or three years in succession, but no longer." (1963)

LAW AND MEDICINE

Garcelon and Merritt Fund: About \$20,000 from the income of this fund, established in memory of Seward Garcelon, of the Medical Class of 1830, and Samuel Merritt, of the Medical Class of 1843, is appropriated annually for medical scholarships. The larger part of the amount is awarded to students pursuing their studies in medical schools, and the remainder may be assigned to students in the College who are taking premedical courses; but, at the discretion of the Board of Trustees, all of the income available may be assigned to students in medical schools.

Awards are made only to "worthy and struggling young men . . . in need of pecuniary aid," and preference is given to graduates and former students of Bowdoin College. Applications from men not graduates or former students of Bowdoin College, but who are residents of the State of Maine, may be considered after they have completed one year in medical school. (1892)

Lee G. Paul Scholarship: A fund of \$47,262 given by Lee G. Paul, of the Class of 1929, the income to be used to provide financial assistance to graduates attending the Harvard University School of Law and requiring financial aid.

To qualify for a scholarship award from this fund a student must have been admitted to the College only after meeting all requirements for admission applicable to all candidates for admission and must have met during his undergraduate years at the College at least the minimum standards of performance expected of all students.

There is to be no discrimination either in favor of or against any student because of race, color, creed, sex or disadvantaged background in the award of scholarships from this fund. (1964)

Robinson-Davis Fund: A fund of \$192,951 given in trust under the will of Beatrice R. Davis in memory of Frank W. Robinson and Dr. Horace A. Davis, the income to be used to provide graduate scholarships for students, preferably natives and residents of Maine. Forty percent of the income is to be used for those who intend to study and practice law. The balance is for those who intend to study and practice medicine. (1972)

MISCELLANEOUS

John L. Roberts Fund: A fund of \$27,621 given by John L. Roberts of the Class of 1911 to assist some underprivileged scholar, other than a teacher or one contemplating teaching, to do research in any field he may choose. (1958)

Harold Hitz Burton Student Book Fund: A fund of \$11,514 given in honor and memory of the late Honorable Harold Hitz Burton, LL.D., of the Class of 1909, by members of the Bowdoin Club of Washington and others to assist needy Bowdoin undergraduates in the purchase of books required in their courses. Administered by the dean of students. (1967)

Davis Fund: A fund of \$2,716 established by Walter G. Davis to encourage undergraduate interest in international affairs. Administered in such manner as the president of the College may direct. (1934)

The Curriculum

Bowdoin does not prescribe a pattern of required liberal arts courses for all students. Instead, each student determines, with the help and approval of his academic counselor, what pattern of courses is most liberating for him. This practice is based on the belief that each student has come to Bowdoin to pursue seriously a liberal education. Courses, it is assumed, do not lead simply to other courses in the same subject, but properly taught, they raise questions and evoke a curiosity that other disciplines must satisfy. The College also recognizes through its course offerings the importance of relating a liberal education to a society whose problems and needs are continually changing.

The breadth of a liberal arts education is supposed to distinguish it from professional training, and its depth in one field, from dilettantism, although in fact it shares qualities of both. More specifically, Bowdoin's educational policy invites the student to extend his concerns and awareness beyond the individual at the same time that it helps him to integrate his curricular choices in accordance with his own intellectual needs. Interaction between the student and his academic adviser is a vital part of this educational experience. While there is no tidy progression among subjects outside a given department, and no way of equating a course name with its effect, students are expected to engage academic disciplines outside their chosen major and immediately related fields.

REQUIREMENTS FOR THE DEGREE

To qualify for the bachelor of arts degree, a student must have:

- a) successfully passed thirty-two courses
- b) completed a single, double, or joint major
- c) spent four semesters in residence, at least two of which will have been during the junior and senior years.

GENERAL REGULATIONS

1. Course Load: Students are required to take a minimum of four regular courses each semester. Applied music and ensemble courses are half-credit courses. In order to earn eight course credits for the year, students taking either of these courses are expected to take a fifth course in the fall semester. Students wishing to take more than *five* courses must have permission of the Deans' Office. If desired, a fifth course may be taken on a pass-fail basis.

2. Course Examinations: The regular examinations of the College are held at the close of each semester. An absence from an examination entails the mark of zero. In the event of illness or other unavoidable cause of absence from examination, the Deans' Office may authorize makeup of the examination.

3. Course Grades: Course grades are High Honors, Honors, Pass, and Fail. A fifth course carried on a pass-fail basis is marked "Sat" (satisfactory) or "Unsat" (unsatisfactory). High Honors indicates a performance of outstanding quality, characterized where appropriate by originality in thought as well as by mastery of the subject at the level studied. Honors indicates a performance which, though short of High Honors, is above the common in insight and understanding. Pass is a satisfactory performance consistent with standards for graduation. Fail indicates unsatisfactory work. In independent study courses that will continue beyond one semester, instructors shall have the option of submitting at the end of each semester except the last a grade of "S" for Satisfactory in place of a regular grade. A regular grade shall be submitted at the end of the final semester and shall become the grade for the previous semesters of independent study. With the approval of the Deans' Office, a grade of Incomplete may be recorded in any course for special reasons, such as illness. If the course is not completed within one year, the Incomplete becomes permanent or changes to Fail.

4. Grade Reports: A report of the grades of each student is sent to his parents or guardian at the close of each semester.

5. The Dean's List: Students who receive grades of Honors or High Honors in all regularly graded courses and Satisfactory in all other courses for a semester are placed on the Dean's List.

6. Deficiency in Scholarship: A student who fails three or more courses at the end of the first semester of the freshman year or who fails two or more courses at the end of any other semester is dropped from college for one semester. A student is dropped permanently from college if he is subject to dismissal a second time for failing two or more courses.

7. Maximum Residency: No student shall ordinarily be permitted to remain at Bowdoin for more than nine semesters of full-time work.

8. Senior Course Selection: Each student shall take a course in his major department in each semester of his senior year.

9. Leave of Absence: A student in good standing may, with the approval of his adviser, apply to the Recording Committee for a leave of absence for a specified number of semesters. The leave must begin at the end of a regular semester. A student on approved leave is eligible for financial aid upon his return.

ADVISING SYSTEM

Each student is assigned an academic adviser at the start of his freshman year. Whenever possible, the adviser is from a field of study in which the student has shown some interest. Advisers and students meet during orientation before the start of fall semester classes and on a systematic basis thereafter.

During orientation, freshmen meet not only with faculty members responsible for premedical and predental advising, and for preliminary discussions of law study and engineering, but they also meet for discussions with faculty

members representing the humanities, social sciences, and physical sciences. The Student Advisory Board is also available during orientation to meet and talk with freshmen.

At registration the student makes his choice of courses and asks his adviser to approve the selection by signing the registration card. Should a student and adviser find themselves in disagreement over the wisdom of the selection, a subcommittee of the Recording Committee acts as arbiter.

Although students do not register as majors until the end of their sophomore year, they are invited to talk with prospective major departments at the end of their freshman year during the period major departments have posted office hours for such discussions. The student's regular adviser, however, continues to work out programs with him and approves them through the sophomore year. After the sophomore year, a member of the student's major department serves as his adviser.

Following registration in the spring, the Recording Committee reviews the program of each student for the past year, not with the intent of correcting individual excesses but for the purpose of determining whether, under this system, the course selections of individual students reflect patterns of liberal studies consistent with the aims of the College. The committee is expected to discuss this concern in its annual report to the faculty.

COMPOSITION

The importance of good writing to a student's success in college is obvious. Students with serious writing problems will be identified by the Deans' Office in cooperation with advisers. The Deans' Office will be responsible for working out the details of this cooperative arrangement. Students identified as having serious writing problems will be advised to enter a special, noncredit tutorial program, with a reduced course load if necessary. Students who can profit from further writing experience should be encouraged to enroll in one of the Freshman-Sophomore English Seminars, in all of which composition is taught.

THE MAJOR PROGRAM

A major program is offered by every department which has been authorized by the faculty to do so. The departmental requirements for each major are listed in Courses of Instruction on pages 91-170. Students may elect one or two majors.

Interdepartmental major programs, designed to meet an individual, cultural, or professional objective, may be offered if approved by the departments concerned and the Recording Committee.

Each student must choose a major by the end of his sophomore year after consultation with the department concerned. During the week preceding the spring vacation, the registrar shall post hours for faculty conferences with

sophomores regarding choice of a major. No student may major in a department unless he has satisfied the department that he is able to do work of at least passing quality in its courses. Changes in major programs may take place only with the permission of the Recording Committee following the submission of a written request stating the reason for the change. Such request must also be approved by the departments concerned. A student who has not been accepted in a major department cannot continue his registration.

INDEPENDENT STUDY

With departmental approval, a student may elect a course of independent study under tutorial supervision. (Freshmen and sophomores require the approval of the Recording Committee as well.) In most departments the project will consist of a written dissertation or an appropriate account of an original investigation, but projects in music, the fine arts, and letters are also encouraged. *Students who seek departmental honors are expected to register for at least one course in independent study and to achieve an honor grade in it.*

A department will ordinarily approve one or two semesters of independent study for which regular course credit will be given. A definite plan for the project must be presented by the student, approved by the department, and filed in the Dean of the College's Office. The plan for a fall semester must be on file on or before the first day of classes; the plan for a spring semester must be submitted on or before the first day of the fall semester examination period. Where more than one semester's credit is sought, the project will be subject to review by the department at the end of the first semester. In special cases the Recording Committee, upon recommendation of the department, may extend credit for additional semester courses beyond two. In independent study courses that will continue beyond one semester, instructors shall have the option of submitting at the end of each semester except the last a grade of "S" for Satisfactory in place of a regular grade. A regular grade shall be submitted at the end of the final semester and shall become the grade for the previous semesters of independent study. The final corrected copy of the project must be submitted to the department before the last day of classes of the final semester of the work. Normally, the evaluation of an independent study project should be made by two faculty members. *For administrative purposes this independent study will bear one or more of the course numbers 201, 202, 203, 204, depending upon the number of course credits allowed.*

THE AWARD OF HONORS

Departmental Honors

The degree with *honors*, *high honors*, or *highest honors* in a major subject is awarded to a student who has distinguished himself in that subject. The award is made by the faculty upon recommendation of the department. It is

based upon honor grades in at least a majority of major courses, honor grades in any departmental special major requirements, and honor grades in independent study in the major department.

All written work in independent study accepted as fulfilling honors requirements shall be deposited in the library in a form specified by the Library Committee.

General Honors

For the Class of 1976 and subsequent classes, the following definitions apply:

General Honors are awarded on the basis of a student's best twenty-four courses in the final six semesters *at Bowdoin*, except that no student receiving a Failure may qualify.

A degree *cum laude* shall be awarded to a student who receives at least 75 percent Honors or High Honors. Within his honor grades, there must be two High Honors for each pass.

To receive a degree *magna cum laude* a student shall fulfill the requirement for a degree *cum laude* with the additional stipulation that at least 30 percent of his grades must be High Honors exclusive of the High Honors balancing the Passes.

A degree *summa cum laude* shall be awarded to a student who receives at least 70 percent High Honors and the balance Honors.

Unless amended by vote of the faculty, the following provisions apply to the Class of 1975:

A degree *cum laude* shall be awarded to a student who receives Honors or High Honors in three-quarters of the necessary number of Bowdoin courses presented for the degree.

To receive a degree *magna cum laude* a student shall fulfill the requirement for a degree *cum laude* with the additional requirements that at least one-quarter of his grades must be High Honors, plus one High Honors grade for each Pass grade.

A degree *summa cum laude* shall be awarded to a student who receives High Honors in at least one-half, and Honors in all his other Bowdoin courses presented for the degree.

THE SENIOR CENTER PROGRAM

In 1964 Bowdoin introduced a special educational program for seniors. In doing so, the College sought to make the senior year a more fitting culmination of liberal arts study and a recognized time of transition to the assumption of larger responsibilities. The original design included curricular innovations, a variety of educational experiences outside the classroom, and an intellectually stimulating environment. Some of these innovations, such as increased emphasis on independent study and a different grading system, were subsequently adopted in modified form by the rest of the College.

The Senior Center continues to promote educational growth which is not restricted to the classroom. Several members of the faculty have living quarters there and maintain close contact with the student residents. All members of the faculty are provided with some meals in the Senior Center dining room in order to promote informal, outside-the-classroom faculty-student contact. Guest suites for lecturers and other visitors from outside Bowdoin enable the College to invite a variety of persons to come for extended visits, during which individual conferences and small group discussions can be held. Often a lecturer whose specialty is related to the subject of one of the Senior Center seminars presents a public lecture of general interest, meets with members of one of the seminars for a more specialized encounter, and holds discussions with interested students in his guest suite, in the dining hall, or in one of the small meeting rooms. Musical, dramatic, and artistic events also take place in the Senior Center, with students sometimes as spectators, sometimes as participants.

The Senior Center seminars, the formal academic portion of the Senior Center program, are designed to provide the student with educational experiences which are not available elsewhere in the Bowdoin curriculum. In the seminars a student uses the skills and knowledge he has acquired in other courses to investigate a subject in the company of other students interested in that subject. Each senior may enroll in a seminar each semester, and non-seniors may enroll in seminars which are not filled by seniors. Carrying academic credit, the seminars count toward degree requirements as do traditional courses. Each seminar consists of one or more instructors and approximately fifteen students who usually explore an area outside their major fields, although in some cases the seminar topic may be one which students with some background in the field want to explore further. Penetrating analysis is expected rather than the accumulation of a wide range of information, such as might be sought in an introductory course. As in the past, the major program in a department chosen by the student, including honors work for qualified seniors, and elected courses in various fields of study are fundamental parts of the educational experience of the senior year.

To assist the senior with his career planning, liaison is maintained with the Office of Career Counseling and Placement and the various departments of the College. The Senior Center and Placement Office often arrange meetings with alumni engaged in banking, small business, teaching, and other fields. Graduate and professional school interviews are scheduled at the Center. The Center has a library of catalogues and other material pertaining to graduate study.

The director of the Senior Center is a member of the faculty who combines teaching duties with his supervision of the program. He works with a Senior Center Council consisting of the provost, four members of the faculty appointed by the president, two senior class officers, and two other student residents of the center.

SPECIAL PROGRAMS**Afro-American Studies**

A program in Afro-American studies was started at Bowdoin in the belief that the traditional liberal arts curriculum has given inadequate attention to a serious study of black-white relations in this nation. Bowdoin's program has been created by the Committee on Afro-American Studies, which is composed of faculty members and students. The chairman of the committee serves as the program director. Under his leadership, the committee has organized several courses which constitute the nucleus of the major in Afro-American studies. Students complete their selections of major courses from a list of regular offerings in other departments approved by the committee. (See page 91.)

Environmental Studies

The purpose of the environmental studies program at Bowdoin is (1) to introduce the nonspecialist to environmental topics and to establish in him an awareness of the complexly interwoven problems that must be solved in order to establish a way of living that is compatible with the limited resources of this planet and (2) to allow the prospective environmental specialist to prepare himself for further study at the graduate level or to enter into environment-related employment after graduation with a bachelor's degree.

To realize these objectives, Bowdoin offers a coordinate major program in environmental studies, the requirements of which are outlined on page 116.

Health Professions

Students contemplating the study of medicine, dentistry, or the other health professions are advised to arrange their undergraduate course as early as possible through consultation with the Premedical Advisory Group, which is chaired by the adviser for the health professions, James M. Moulton, of the Department of Biology. Other members of the group are Dr. John B. Anderson, associate college physician; Franklin G. Burroughs, Jr., Department of English; Alfred H. Fuchs, Psychology; Alton H. Gustafson, Biology; Dr. Daniel F. Hanley, college physician; John L. Howland, Biology; Elroy O. LaCasce, Jr., Physics; Dean Paul L. Nyhus; John R. Rasmussen, Mathematics; C. Thomas Settlemire, Biology and Chemistry; Reed A. Winston, Biology. A meeting of students interested in the health professions is held at the opening of college each fall.

Independent Language Study

Students who have demonstrated high motivation and for whom a special language is pertinent to their educational plans may undertake Independent Language Study for academic credit. These courses are given under the super-

vision of a member of a foreign language department. Emphasis is placed on self-instruction through the use of tape-recorded materials. In addition, there are regular meetings with native speakers. Examinations are conducted at the end of each semester by faculty members from Bowdoin or from other colleges or universities. Approval in advance must be given by the director of the program and by the Recording Committee. These courses may be in any language for which programmed tapes, native speakers, and qualified examiners are available. Languages currently being offered are listed on page 133. Requests for new language programs should be submitted to the director.

Off-Campus Study

Although Bowdoin does not have an urban center away from the campus or a special overseas program, it does offer its students the opportunity to participate in a variety of urban and overseas programs sponsored by other institutions and organizations. Particular attention is called to the City Semester Program of Boston University, the New York University Junior Year in New York Program, the Washington Semester Program of American University, and the Institute of European Studies. Bowdoin has special arrangements for the admission of its students into each of these programs, and detailed information on each of them is available in the Deans' Office. Approval for participation is given by the Recording Committee upon recommendation of a student's major department. Where a foreign language is involved, the approval of the department concerned is also required.

A student participating in a study-away program which requires Bowdoin to administer tests or otherwise evaluate work done upon the student's return to the College is required to pay a charge of \$50 a semester course credit. This charge does not apply to the Twelve College Exchange or other accredited study-away programs which provide transcripts or appropriate evaluations.

Preengineering Programs

Bowdoin offers programs that lead to a bachelor of arts degree and a bachelor's degree in one of several engineering disciplines in conjunction with California Institute of Technology, Massachusetts Institute of Technology, and Columbia University. Specific requirements vary with each cooperating institution, but in general a student receives two bachelor's degrees after three years of study at Bowdoin and two years at the other institution. At M.I.T., programs under this plan can be arranged in architecture, city planning, food technology, geophysics, industrial management, quantitative biology, and science teaching, as well as in the various branches of engineering.

Students wishing to avail themselves of one of these plans should notify the Deans' Office at the beginning of their freshman year and see James H. Turner, of the Department of Physics, because the programs require a very definite pattern of courses.

Teaching

The Faculty Committee on Teaching and Studies in Education exists to advise students about preparation for a teaching career and to coordinate the offerings of several departments which may be presented for certification for teaching in public schools.

Students interested in teaching in schools or graduate programs in education should discuss their plans with Paul V. Hazelton, of the Department of Education. Since the normal advice will be that a student include courses in psychology and education along with a major in a teaching field, he should make his interest known as early as possible.

Twelve College Exchange

Bowdoin has joined with Amherst, Connecticut College, Dartmouth, Mount Holyoke, Smith, Trinity, Vassar, Wellesley, Wesleyan, Wheaton, and Williams to form the Twelve College Exchange program. Students from one college may apply to study for a year at one of the other colleges. About twenty-five Bowdoin students will participate in the exchange during 1974-1975, and about the same number from other colleges will attend Bowdoin.

Bowdoin students wishing to participate in the exchange for the 1975-1976 academic year should make application to the Recording Committee. Detailed information on the course offerings of the participating colleges is available from the Office of the Dean of the College. Application is normally made for two semesters. It is hoped that the exchange will afford a student the opportunity to take courses which are not offered on his own campus or to study specialized aspects of his major field of concentration with faculty members who have achieved preeminence in that specialty. Course work satisfactorily completed at any of the participating colleges will receive credit toward a degree at the student's "home" college.

Courses of Instruction

Arrangement: The departments of instruction in the following descriptions of courses are listed in alphabetical order.

Time and Place of Classes: A schedule containing the time and place of meeting of all courses will be issued before each period of registration.

Year Courses: Courses marked with an asterisk are year courses, and if elected, must be continued for two consecutive semesters.

Bracketed Courses: All courses that cannot be scheduled for a definite semester are enclosed in brackets.

Independent Study: See page 85 for a description.

Prerequisites: Unless otherwise stated in the description, a course is open to all students.

Afro-American Studies

Administered by the Committee on Afro-American Studies

Requirements for the Major in Afro-American Studies: The major consists of ten semester courses, three of which must be **History 28**, **History 29**, and **Afro-American Studies 50**. The remaining seven must be selected from the courses listed below, with at least three chosen from one group. No more than two semesters of independent study may be substituted for courses in completing the ten-course requirement.

Group I (Society and Politics): **Afro-American Studies 1, 2, 3, 50; Education 2, 3; Government 5, 6, 23, 25; Psychology 24; Sociology 6, 8; Senior Center Seminars 5** (Fall 1972), **23** (Spring 1973), **26** (Spring 1973).

Group II (Literature): **English 41, French 20** (Fall 1973).

Group III (Music): **Music 4**.

Group IV (History): **History 3(1), 3(2), 3(3), 28, 29, 39, 40, 41, 42**.

Group V (Economics): **Economics 11, 12, 19**.

1. Problems in Afro-American Life. Fall 1974. MR. SMALL.

An interdisciplinary examination of the context and challenges of Afro-American life and the conflicts of meeting them. Providing a format by which students can synthesize their own experiences, observations, and needs with objective data, the course helps students to understand their own conflicts and prepares them to seek creative solutions to the problems of black America.

2. Contemporary Black Politics. Fall 1975. MR. SMALL.

A seminar in the ideologies and styles guiding the black American struggle for justice, self-determination, and socioeconomic well-being. Focusing on the political patterns black people have used from 1960 until now, it examines the major strategies guiding black politics and politicians today.

Prerequisite: **Government 3.**

3. Racial and Ethnic Problems in International Politics. Spring 1975. MR. SMALL.

An analysis of race and ethnicity and how they influence international relations. A seminar exposing students to the conclusions of traditionalists and behavioralists alike, the course helps students to understand white dominance systems and the linkages between internal and external affairs, surveying international relations from several racial-ethnic perspectives.

Prerequisite: **Government 2.**

50. Seminar in Public Policy and Social Change. Every spring. MR. SMALL.

A research seminar on the critical problems of social change as they relate to the Afro-American community. The objectives are to make public policy recommendations and to construct subsystem models in education, economics, and politics.

Prerequisite: Senior standing as a major in Afro-American studies.

200. Independent Study.

SENIOR LECTURER MOOZ; LECTURERS MCKEE AND TERRIEN;
MR. LUTCHMANSINGH AND MR. NICOLETTI

Requirements for the Major in Art: Students electing to major in art may choose one of two programs, the art history program or the visual arts program.

The major in art history consists of eight courses, excluding independent study, as follows: **Art 1, 2** taken as early as possible, preferably in the freshman year. Three courses, excluding independent study, in the history of art (**Art 21-30**) or equivalent courses approved by the department. Two additional courses, excluding independent study, in the history of art (**Art 21-30**) or two courses, excluding independent study, in the visual arts (**Art 41-54**). **Art 39** is required of all seniors in the art history program.

The major in visual arts consists of ten courses, excluding independent study, as follows: Honors grades in **Art 41, 42** or their equivalents by the end

of the sophomore year and approval of a portfolio by a committee of faculty members. Four additional courses in the visual arts (**Art 43-55**) or their equivalents approved by the department. Four courses in the history of art (**Art 1-39**) or their equivalents approved by the department. Presentation and departmental approval of a portfolio in the form of an exhibition displayed for the college community during the senior year.

Art majors contemplating graduate or professional work in most fields should give consideration to supplementing the major with appropriate courses in other departments. For example, students intending further study in architecture should consider taking mathematics, up to and including analytical geometry and elementary calculus, plus two years of physics. Depending on the student's particular interests, supplementary courses might be selected from psychology, literature, cultural history, or similar fields.

Courses in the History and Criticism of Art

1. The Language of Art. Spring 1975 and fall 1975. MR. LUTCHMANSINGH.

An introduction to form and style in the pictorial and sculptural arts. A study of basic types of expression in these arts as exemplified by representative illustrations from a variety of periods and cultures. Concludes with a consideration of style and styles in the history of art as defined by such authorities as Panofsky and Wölfflin. Several laboratory-type exercises are assigned for study purposes.

2. The Language of Architecture. Fall 1974. MR. BEAM.

An introduction to the organization of the formal elements for utilitarian, aesthetic, and spiritual expression through the materials and structural systems of architecture. Numerous examples drawn from the architecture of many periods are studied as illustrations of basic types and major historical styles. Special problems—such as the relation of architectural forms to site, decoration, construction, and use—are discussed, and outstanding solutions are examined. Design problems are assigned for collateral study and field trips are scheduled.

21. The Art of Antiquity. Fall 1974. MR. BEAM.

Architecture, sculpture, and painting in Egypt, Mesopotamia, and southern Europe during ancient times. Emphasis upon the art of ancient Greece. Concludes with the art and culture of ancient Rome.

22. Medieval Art. Spring 1975. MR. BEAM.

Key monuments of medieval art and their respective cultures from the fall of Rome to the end of the Gothic period. The course begins with examples of early Christian art, continues with an examination of important works from the Byzantine, barbaric, and Carolingian periods, and ends with the periods of the Romanesque monasteries and Gothic

cathedrals. Examples of the manuscript illuminations, ivory carvings, metalwork, tapestries, and stained-glass windows for which the Middle Ages are noted are also considered.

23. European Art of the Renaissance. Fall 1975. MR. BEAM.

European architecture, sculpture, and painting from the fourteenth through sixteenth centuries in Italy and northern Europe. The civilization arising from the revival of antiquity and the rediscovery of reality is studied broadly and attention is given to such masters as Giotto, Brunelleschi, Donatello, Van Eyck, Da Vinci, Michelangelo, Raphael, Titian, Dürer, and Brueghel.

24. European Art of the Seventeenth and Eighteenth Centuries. Spring 1976. MR. BEAM.

The post-Renaissance period of European art in the mannerist, Baroque, and Rococo styles of architecture, painting, and sculpture. Special consideration of the schools that arose in Spain, Flanders, Holland, France and England, and of such masters as Caravaggio, Bernini, El Greco, Velasquez, Rubens, Hals, Rembrandt, Hogarth, and Goya.

25. European Art of the Nineteenth Century. Fall 1975. MR. LUTCHMANSINGH.

The main movements in European painting, drawing, and sculpture from the late eighteenth century to 1900. Such exemplars of neoclassicism, romanticism, realism, impressionism, and postimpressionism as David, Ingres, Delacroix, Goya, Daumier, Manet, Monet, Degas, Cézanne, Van Gogh, Renoir, and Toulouse-Lautrec are studied. Attention is given to the architectural movements that provided the background for painting and sculpture in this period.

26. Art of the Twentieth Century. Fall 1974 and spring 1976. MR. LUTCHMANSINGH.

Primarily a study of the important developments in European painting and sculpture, including a careful examination of such leading artists as Picasso, Rouault, Matisse, Miro, and Klee, and the development of Cubism, primitive art, surrealism, expressionism, nonobjective art, pop art, optical art, and other movements. Concludes with an analysis of the international styles in America after the Amory show.

28. Modern Architecture. Spring 1975. MR. LUTCHMANSINGH.

The major trends of modern architecture in Europe and America since the beginning of the Industrial Revolution, with special attention given to such leaders as Sullivan, Frank Lloyd Wright, LeCorbusier, Saarinen, Mies Van der Rohe, and Gropius. Concludes with an examination of current trends in architecture and urban planning. Analytical studies of

modern architectural expression in the form of drawings or models may be required, and field trips may be scheduled.

30. The Art of the Orient. Spring 1976. MR. BEAM.

The architecture, sculpture, and painting of the Near and Far East, especially Persian painting, Indian sculpture, Chinese painting and sculpture, and Japanese painting, prints, and architecture. Attention is given to ceramics, bronze casting, jade carving, and other minor arts in which the Orient has excelled.

37. American Art from Colonial Times to the Civil War. Fall 1974. MR. MOOZ.

Architecture, sculpture, painting, graphics, and the decorative arts in pre-Civil War America and their relevant cultural backgrounds. Artists such as Feke, Copley, Stuart, West, Peale, and architects Bulfinch, Davis, Harrison, and Jefferson are studied in some detail.

38. American Art from the Civil War to the Present Day. Spring 1975. MR. BEAM.

A continuation of **Art 37**, this course considers the visual arts in America from the Civil War to the present. Stress placed on architecture through Richardson and the American tradition in painting and sculpture in the twentieth century. Homer, Eakins, Ryder, Sargent, Whistler, Sloan, and Wyeth are included.

Prerequisite: **Art 37**.

39. Advanced Studies in Art and Criticism. Fall 1974 and fall 1975. MR. LUTCHMANSINGH.

Designed to enable a major in the art history program to pursue a problem in depth. Primary emphasis on the nature of art history problems and the scholarly apparatus evolved by outstanding art historians and critics in their solution.

Required of majors in the art history program during either the junior or senior year.

Prerequisites: **Art 1, 2**, and one previous course in the modern period (**Art 25, 26, or 28**.) Open to nonmajors with honor or high honor grades in one of the prerequisites in the modern period and with consent of the instructor.

Courses in the Creative Visual Arts

In visual arts courses the emphasis is on developing an awareness of the process of visual perception. The underlying thesis is that the visual arts can be taught best through affective visual experience. The aim is not to develop technical skills but to encourage sensitive and disciplined response by individuals to their culture and environment.

- 41. Visual Response: Basic Studio Procedure.** Fall 1974 and fall 1975. MR. NICOLETTI.

An introduction to the materials and techniques associated with the various media in the visual arts. The study of basic design, design programs, graphics, and conventions of perspective.

- 42. Visual Response: Advanced Studio Procedure.** Spring 1975 and spring 1976. MR. NICOLETTI.

Continuation of Art 41 including an introduction to color theory and three-dimensional design.

Prerequisite: Art 41 or equivalent.

- 43. Visual Perception.** Fall 1974 and fall 1975. MR. CORNELL.

A survey of the theory of visual thinking, including writing from Ehrenzweig and Arnheim. Practice at raising individual awareness through the medium of drawing.

Prerequisite: Art 41, 42 or equivalent.

- 44. Creativity in the Visual Arts.** Spring 1975 and spring 1976. MR. CORNELL.

A studio course based on the study of the nature of creativity in relation to individual student achievement. The intention is to develop self-confidence and to explore the influence of the unconscious. There are no conventional standards imposed in order to increase self-motivation and self-criticism.

Prerequisite: Art 41 or equivalent.

- 45. Basic Drawing.** Fall 1974. MR. CORNELL. Fall 1975. MR. NICOLETTI.

The fundamental techniques of drawing and composition, including an introduction to Gestalt psychology. Emphasis on drawing from direct experience.

Prerequisite: Art 41 or equivalent.

- 46. Advanced Drawing.** Spring 1975. MR. CORNELL. Spring 1976. MR. NICOLETTI.

Advanced aspects of the medium, including color, morphology, and memory. An introduction to printmaking. Emphasis on independent work.

Prerequisite: Art 45 or equivalent.

- 47. Painting.** Fall 1974. MR. NICOLETTI. Fall 1975. MR. CORNELL.

The fundamental techniques of painting, including a study of materials and principles of composition. Problems based on direct experience.

Prerequisite: Art 41 or equivalent.

48. Advanced Painting. Spring 1975. MR. NICOLETTI.

A continuation of **Art 47**, including an introduction to the problem of conceptual and narrative painting, with reference to the types of composition found in the history of art. Further study of the conventions of pictorial space.

Prerequisite: **Art 47** or equivalent.

50. Principles of Photography. Spring 1975. MR. McKEE.

Photographic visualization and composition as consequences of fundamental techniques of black-and-white still photography. Weekly discussion, field and laboratory work. Students must have use of appropriate camera equipment. Enrollment limited by available darkroom facilities.

Prerequisite: **Art 41** or equivalent.

51. Advanced Photography. Fall 1974. MR. McKEE.

An extension of conceptual and technical work undertaken in **Art 50**. Emphasis on exploration of different image-making possibilities inherent in several related media, i.e., 35 mm., view camera, photo silk-screen. Seminar discussions, field and laboratory work.

Prerequisite: **Art 50** or equivalent.

54. Architectural Design: Form. Spring 1976. MR. TERRIEN.

Awareness of the means of architectural expression is developed by readings, discussion, studio experiments, and field trips which consider such aspects as size, shape, detail, material, texture, rhythm, light, color, resonance, structure, mass, and space.

55. Architectural Design: Purpose. Spring 1975. MR. TERRIEN.

The influence of surroundings upon activity and attitude is explored through readings, discussion, studio experiments, and field trips applied to the solution of illustrative problems.

200. Independent Study. THE DEPARTMENT.

1974 Summer Institute in American Painting

MR. MOOZ, *Director*; PROFESSOR BEAM; ASSOCIATE PROFESSOR CORNELL;
ASSISTANT PROFESSOR FOSTER; AND MR. NICOLETTI

A three-week institute during which the history of American painting from the sixteenth century to the present was traced. Lectures stressed the three principal areas of American painting—colonial, nineteenth century, and modern. Also the opportunity to learn through the examination of paintings in the Museum of Art. Instruction included studio demonstrations and discussions with artists painting in Maine. *One semester course credit was awarded upon successful completion of the institute.*

Biochemistry

Administered by the Committee on Biochemistry

Requirements for the Major in Biochemistry: The required courses are Physics 17-Chemistry 18; Mathematics 11, 12; Biology 44; and Chemistry 19, 21, 31. A student must elect six semester courses from the following: Biology 33, 40, 45, 47, 200; Chemistry 22, 32, 43, 44, 46, 200; Physics 23, 26, 200. Should a student elect Biology 15, 16, he need take only five additional elective courses. A student may count as electives up to two semesters of the 200 courses, and he may petition the committee to be allowed to substitute other science courses for electives.

Biology

PROFESSOR HUNTINGTON, *Chairman*; PROFESSORS GUSTAFSON, HOWLAND, AND MOULTON; ASSOCIATE PROFESSOR SETTLEMIRE; ASSISTANT PROFESSOR WINSTON; RESEARCH ASSOCIATE RITCHIE; TEACHING FELLOWS DIONNE AND WINE

Requirements for the Major in Biology: The major consists of six semester courses in the department exclusive of courses in the 200 series. Major students are required to complete Chemistry 21, a year of mathematics including Mathematics 11, and two semesters of physics. They are advised to take mathematics during their freshman year. Physics 17, Chemistry 18, 19, 21, and Biology 15, 16 should be completed by the end of the sophomore year.

15. Introductory Cell Biology. Every fall. THE DEPARTMENT.

Examination of fundamental biological phenomena with special reference to cells. Emphasis on cell structure and aspects of function which do not depend on prior knowledge of chemistry or physics. Topics include ultrastructure, cell growth, membrane transport, and the interaction between viruses and host cells. Lectures and three hours of laboratory work each week.

16. Introduction to Evolution. Every spring. THE DEPARTMENT.

Examination of the mechanisms and results of evolution. Considers the origin of life, natural selection, genetic theory, and evidence of organic evolution in comparative morphology and physiology. Lectures and three hours of laboratory work each week.

[21. Invertebrate Zoology.]

23. Comparative Anatomy of the Vertebrates. Every fall. MR. MOULTON.

Vertebrate morphology. Emphasis on the evolution of mammalian

organ systems. Laboratory work consists of dissection and study of comparable systems in representative vertebrates. Lectures and three hours of laboratory work each week.

Prerequisite: **Biology 15, 16.**

24. Biology of Plants. Every spring. MR. GUSTAFSON.

A study of the morphological, evolutionary, and ecological aspects of the diverse members of the plant kingdom and their relationships to man and his problems. Laboratory studies include investigations of varied materials from the major groups of plants, supplemented by field trips to various habitats. Lectures and three hours of laboratory work each week.

Prerequisite: **Biology 15, 16.**

26. Ornithology. Every spring. MR. HUNTINGTON.

A study of the biology of birds, especially their behavior and ecology. Facilities used in the course include the Alfred O. Gross Library of Ornithology and the College's collection of North American birds. Field trips, including a visit to the Bowdoin Scientific Station (see page 220), are an important feature of the course.

Prerequisite: A previous college-level science course or consent of the instructor.

29. Ecology. Every fall. MR. HUNTINGTON.

The relationships between organisms and their environment. Topics include the flow of matter and energy through ecosystems, population dynamics, interactions between and within species, the effect of the environment on evolution, and man's role in the biosphere. Laboratory experiments emphasize independence and diversity in field investigations. Lectures, conferences, and three hours of laboratory or field work each week.

Prerequisite: A previous college-level science course or consent of the instructor.

33. Cell Physiology. Every fall. MR. SETTLEMIRE.

The nature of cells and subcellular structures, including an examination of the cell environment, the exchange of materials across membranes, energy conversion and utilization, cell excitation and contraction, and growth and cell division. Laboratory experiments emphasize the methods of modern research. Lectures and three hours of laboratory work each week.

Prerequisites: **Biology 15, 16 and Chemistry 21.**

36. General Physiology. Every fall. MR. WINSTON.

The relationship between structure and function in organ systems and

in organisms as a whole. The interdependency of organ systems. Lectures and laboratory work or conferences each week.

Prerequisites: **Biology 15, 16 and Chemistry 19.**

38. Advanced Physiology and Pharmacology. Every spring. MR. WINSTON.

An investigation through lectures, conferences, and demonstrations of the physiological mechanisms of drug action on living systems. Additional experience in the measurement of physiological parameters is gained. Individual research topics and reports are emphasized.

Prerequisite: **Biology 36** or consent of the instructor.

40. Microbiology. Every spring. MR. SETTLEMIRE.

The structure, function, and nutrition of micro-organisms from a molecular approach and discussions of the principles of immunology. Laboratory work includes the basic techniques of identifying and culturing micro-organisms and metabolic and growth experiments using radioactive techniques.

Prerequisites: **Biology 15, 16 and Chemistry 21.**

42. Vertebrate Embryology and Histology. Spring 1975 and spring 1976. MR. MOULTON.

Embryonic differentiation from gametogenesis to adult tissue structure and function, and the principles of embryonic development. Laboratory work includes observations on living eggs and embryos as well as prepared mounts and sections, graphic reconstructions of chick embryos, and studies of mammalian development. Familiarity is gained with the microscopic structure of mammalian body tissues, and with the possible relations of structure and function within tissues. Lectures and three hours of formal laboratory work each week.

Prerequisite: **Biology 15, 16.**

44. Biochemistry. Every spring. MR. HOWLAND.

An introduction to the study of enzymes and enzyme systems. Emphasis on mechanisms of enzyme catalysis and on selected topics in metabolisms. Lectures, demonstrations, and use of the PDP-10 for model studies.

Prerequisite: **Chemistry 21.**

45. Advanced Biochemistry. Every fall. MR. HOWLAND.

A seminar dealing with biological energy transfer and the biochemistry of membranes. Based on readings from the current literature.

Prerequisite: **Biology 33 or 44,** or consent of the instructor.

47. Genetics. Fall 1974 and fall 1975. MR. GUSTAFSON.

The development of ideas on variation and heredity, the physical basis of inheritance, applications to plant and animal breeding, relationships of

genetics to the theories of evolution, and inheritance in man. Laboratory work in experimental breeding and in molecular aspects of genetics. Lectures, conferences, and three hours of laboratory work each week.

Prerequisite: **Biology 15, 16.**

200. Independent Study. THE DEPARTMENT.

Chemistry

PROFESSOR MAYO, *Chairman*; PROFESSOR BUTCHER; VISITING PROFESSOR DORAIN; ASSOCIATE PROFESSOR SETTLEMIRE; ASSISTANT PROFESSORS ANDERSON, MERRELL, AND PAGE; RESEARCH ASSOCIATE MOOZ

Requirements for the Major in Chemistry: The required courses are **Chemistry 18, 19, 21, 22, 31, 32**, three advanced courses approved by the department, and **Physics 17**. Because the department offers programs based on the interest of the student, a prospective major is encouraged to discuss his plans with the department as early in his college career as possible. The department conducts meetings designed to introduce interested students to the literature of chemistry. Students, faculty members, and outside speakers lead seminars sponsored by the department.

18. The Properties of Matter. Every semester. THE DEPARTMENT.

A discussion of the fundamental laws governing the behavior of matter, including mechanics, electricity, thermodynamics and chemical kinetics, and the structure of atoms and molecules. This course and **Physics 17** constitute the introductory program for students planning advanced work in science.

19. Elementary Organic Chemistry. Fall 1974. MR. MAYO.

An introduction to the chemistry of the compounds of carbon. The foundation for further work in organic chemistry and biochemistry. Lectures, conference, and six hours of laboratory work a week.

Prerequisite: **Physics 17-Chemistry 18.**

21. Organic Chemistry. Spring 1975. MR. PAGE.

A continuation of the study of the compounds of carbon. **Chemistry 19** and **21** cover the material of the usual course in organic chemistry and form a foundation for further work in organic chemistry and biochemistry. Lectures, conference, and six hours of laboratory work a week.

Prerequisite: **Chemistry 12 or 19.**

22. Fundamentals of Inorganic and Analytical Chemistry. Every spring. MR. MERRELL.

The general principles of inorganic and analytical chemistry. The

laboratory consists of basic inorganic preparations with subsequent analyses of the products. Lectures, conference, and six hours of laboratory work a week.

Prerequisite: **Chemistry 18**.

31. Physical Chemistry I. Every fall. MR. BUTCHER.

Thermodynamics and its application to problems of chemical interest including the solid, liquid, and gaseous states; equilibrium; electrochemistry; and kinetics.

Prerequisites: **Chemistry 22, Physics 17, Mathematics 11, 12**, or consent of the instructor.

32. Physical Chemistry II. Every spring. MR. ANDERSON.

Quantum mechanics with applications to the determination of molecular structure and the theory of the chemical bond.

Prerequisite: **Chemistry 31** or consent of the instructor.

[41. Advanced Analytical Chemistry.]

42. Inorganic Chemistry. Spring 1975. MR. MERRELL.

The structures, properties, reaction mechanisms, and syntheses of inorganic compounds.

Prerequisite: **Chemistry 31, 32**.

43. Molecular Structure Determination in Organic Chemistry. Fall 1975. MR. MAYO.

The application of infrared, Raman, ultraviolet, nuclear magnetic resonance, and mass spectrometry to the structural elucidation of complex organic systems.

Prerequisite: **Chemistry 21** or consent of the instructor.

44. Advanced Organic Chemistry. Fall 1974. MR. PAGE.

An introductory study of structure and mechanism in bio-organic chemistry. Emphasis on understanding the mechanistic implications of molecular structure and developing mechanistic theory from experimental data.

Prerequisites: **Chemistry 21, 31** or consent of the instructor.

[45. Advanced Physical Chemistry.]

46. Special Topics in Chemistry. Spring 1975.

The material to be covered depends upon the interests of the students.

Prerequisite: **Chemistry 31** or consent of the department.

200. Independent Study. THE DEPARTMENT.

Classics

ASSOCIATE PROFESSOR AMBROSE, *Chairman*; PROFESSOR DANE;
AND ASSISTANT PROFESSOR NIELSEN

Requirements for the Major in Classics: The major in classics consists of eight courses chosen from the departmental offerings. Majors must take at least two courses at the advanced level of either the Greek or Latin languages (**Greek 5, 6 or Latin 7, 8**). Two of the eight courses for the major requirement may be selected from the departmental offerings in Archaeology. **Classics 12** may be included only with consent of the department.

Archaeology

1. **Greek Archaeology: The Minoan-Mycenaean Civilization.** Every fall. MR. NIELSEN.

An introduction to Aegean civilization through a study of the monuments. Traces the development of civilization and interaction of culture between Mainland Greece and Crete from the Neolithic Period to the end of the Mycenaean Era. Particular emphasis on architecture, pottery, and sculpture.

2. **Greek Archaeology: Preclassical to Hellenistic.** Every spring. MR. NIELSEN.

An introduction to Greek civilization through a study of monuments. Traces the development of civilization on Mainland Greece from the end of the Mycenaean Era through the Hellenistic Period. Attention also given to Greek sites in Ionia and Italy. Particular emphasis on architecture, pottery, and sculpture.

Classics

12. **Introduction to the Languages and Literatures of Greece and Rome.** Every spring. MR. DANE.

Develops from the outset an elementary reading knowledge of Greek and Latin by the concentrated study of parallel passages. Lectures and readings in reputable English translations examine the main outlines and spirit of classical literature.

No previous knowledge of Greek or Latin is required. Closed to students who have studied *both* languages.

Greek

1. **Elementary Greek.** Every fall. MR. DANE.

A thorough presentation of the elements of accidence and syntax based, insofar as possible, on unaltered passages of classical Greek.

2. Continuation of Course 1. Every spring. MR. DANE.

In the latter half of the term a work of historical or philosophical prose is read.

3. Plato. Every fall. MR. DANE.

4. Homer. Every spring. MR. DANE.

5. Selected Greek Authors. Every fall. MR. AMBROSE.

Designed to meet the needs of advanced students in Greek literature, with extensive readings from representative authors in such fields as drama; history; philosophy; lyric, elegaic, and epic poetry; and oratory. *The course may be repeated for credit with the contents changed.*

6. Continuation of Course 5. Every spring. MR. NIELSEN.

Latin

1. Elementary Latin. Every fall. MR. NIELSEN.

A concentrated presentation of the elements of Latin grammar leading directly to the reading of a philosophical essay by Cicero. Designed for students without previous instruction in Latin but also open to students with less than three years of Latin in secondary school.

4. Vergil. The Aeneid. Every spring. MR. NIELSEN.

Prerequisite: Latin 1 or equivalent.

5. Horace and Catullus. Every fall. MR. AMBROSE.

Prerequisite: Latin 4 or equivalent.

7. Selected Latin Authors. Every fall. MR. DANE.

Designed to meet the needs of advanced students in Latin literature, with extensive readings from representative authors in such fields as satire, drama, philosophy, history, and elegy. *The course may be repeated for credit with the contents changed.*

8. Continuation of Course 7. Every spring. MR. DANE.

200. Independent Study. THE DEPARTMENT.

Economics

ASSOCIATE PROFESSOR FREEMAN, *Chairman*; PROFESSORS ABRAHAMSON, DARLING AND SHIPMAN; VISITING ASSOCIATE PROFESSOR ROEHL; ASSISTANT PROFESSOR VAIL; LECTURER LEE; MR. SMEEDING

Requirements for the Major in Economics: In consultation with his adviser, a student may choose either of two major programs in economics.

The major in economic analysis is designed for students contemplating graduate study in economics, business, or public administration. It provides students with an opportunity to study economics as a social science with an accepted core of theory, to study the processes of drawing inferences from bodies of data and testing hypotheses against observation, and to study the application of economic theory to particular problems. Such problems include economic development, the functioning of economic institutions (e.g., banks, government agencies, labor unions), and current policy issues (e.g., poverty, pollution, and monopoly).

The major in economic analysis consists of **Economics 1, 2, 3, 5, 6**, and three additional courses in economics. For majors it is recommended that **Economics 2** be completed before taking **Economics 3, 5, and 6** and that the latter three courses be completed by the end of the junior year.

The major in economic issues gives students the opportunity to undertake intensive study of one or two important issues in contemporary political economy. Examples of such issues are poverty in post-industrial America, the urban crisis, environmental economics and pollution, consumer protection, energy problems, population growth, imperialism and neocolonialism, and Third World problems.

A student majoring in economic issues is expected to specify his general area of interest by the fall of his junior year.

The major in economic issues consists of **Economics 1, 2, 30**; either **Economics 3, 5, or 6** (to be selected by the student in consultation with his faculty adviser); and five additional courses, of which two may be selected outside the field of economics. For example, a student studying poverty in the United States might select courses in history, government, or sociology.

Economics 1, 2 normally will have been completed before the student begins his junior year. Work of high quality in **Economics 30 or Economics 200** meets the independent study requirement for departmental honors.

1. Principles of Economics. Every semester. THE DEPARTMENT.

Fundamental economic concepts, relationships, and institutions, with emphasis on analytical methods.

2. Applications of Economic Principles. Every semester. THE DEPARTMENT.

An extension of **Economics 1**, together with a study of selected contemporary problems and the way in which economic principles can aid in their solution.

Prerequisite: **Economics 1**.

3. Economic Statistics. Every fall.

An introduction to the statistical concepts and techniques economists find most useful. Topics include measures of central tendency; probability; sampling; the binomial, normal, and *t*-distributions; estimation; and hypothesis testing. Culminates with an introduction to computer-assisted

multivariate regression analysis of sufficient depth to enable the student to conduct empirical research. No prior computer experience is required.

Prerequisite: **Economics 1.**

4. **Accounting and the Analysis of Financial Statements.** Every spring. MR. LEE.

Accounting analysis as an important working tool for the business executive, the public administrator, and the economic researcher. Consideration of such subjects as the preparation and interpretation of financial statements, the nature of income, the valuation of assets, depreciation, and reserves.

Prerequisite: **Economics 1.**

5. **Micro-Economics.** Every fall. Fall 1973. MR. FREEMAN.

An advanced study of contemporary price theory focusing on such elements as the household and the firm and their behavior in relation to prices and quantities produced under various market conditions. Actual and optimal patterns of resource allocation and income distribution are examined. Welfare economics, linear programming, input-output analysis, and other modern analytical techniques are introduced.

Prerequisite: **Economics 2** or consent of the instructor.

6. **Macro-Economics.** Every spring. Spring 1974. MR. SMEEDING.

An advanced study of contemporary national income, growth, and inflation theory with emphasis on the relationships among consumption, investment, government receipts and expenditures, money and interest rates, and their role in determining the level of aggregate economic activity. Some attention is given to policy implications of the analysis.

Prerequisite: **Economics 1.**

7. **International Economics.** Spring 1975. MR. FREEMAN.

The theory and practice of foreign trade, balance of payments, international movements of capital, and governmental policies with regard to international economic affairs.

Prerequisite: **Economics 2** or consent of the instructor.

8. **Economic History and Development.** Fall 1974. MR. ROEHL. Fall 1975. MR. SHIPMAN.

An advanced study of economic growth and industrialization in the West, combining development theory and institutional history. A general knowledge of European and American history is assumed.

Prerequisite: **Economics 1.**

9. **Economics of Money, Banking, and Finance.** Fall 1974. MR. DARLING.

The general principles and institutions of money, banking, and financial markets as they relate to the performance of the economic system.

Current problems concerning financial institutions, the flow of funds into investment, the Federal Reserve System, and the use of monetary and financial controls are considered.

Prerequisite: **Economics 1.**

10. Economics of the Public Sector. Fall 1974. MR. SMEEDING.

The economic role of government. Policy-oriented investigation of effects of government expenditures and tax policies on efficiency of resource allocation, equity of income distribution, and economic stability. Tax analysis and the basis for tax reform, the budget's role in setting national priorities, and the evaluation of public projects are emphasized.

Prerequisite: **Economics 1.**

11. Urban Economics. Spring 1975. MR. DARLING.

The economic causes and consequences of urbanization. The relationships among the city, its suburbs, the metropolitan region, and the national economy are studied from the viewpoint of economic growth and the quality of life in the urban area. Students investigate a specific urban problem and report on their findings from among such subject areas as unemployment and poverty, urban renewal, transportation, environmental pollution, public education, health care and recreation, governmental finance, and crime and disorder, including aspects which relate to the black community and other minorities.

Prerequisite: **Economics 1.**

12. Labor and Manpower Economics. Fall 1974. MR. ABRAHAMSON.

The problems surrounding unionism, collective bargaining, unemployment, and manpower utilization are considered from the viewpoints of labor, management, and the public.

Prerequisite: **Economics 1.**

13. History of Economic Thought. Spring 1975. MR. ROEHL.

The "worldly philosophers" from the seventeenth century onward. Special attention is given to the historical development of those ideas and concepts now constituting the core of economic analysis, and to the relation such ideas bear to the mainstream of intellectual history.

Prerequisite: **Economics 1.**

14. Comparative Political Economy. Spring 1975. MR. VAIL.

After investigating Marxist economic thought and the criteria for comparing and evaluating the performances of economic systems, the course focuses on three examples of socialist economy: Soviet Central Planning, Yugoslav Market Socialism, and Chinese Mass Mobilization. Concludes with an inquiry into the value of socialist experience as a model for underdeveloped economies.

This course is offered in close coordination with **Government 12.**

Students are required to register for both courses.

Prerequisites: **Government 4** or **51** and **Economics 1**, or consent of the instructor.

15. Industrial Organization and Public Control. Spring 1976. MR. SHIPMAN.

A study of the structure, performance, and control of selected industries. Attention is given to transport, energy, and communications as well as to the manufacturing sector. Cultural and environmental impacts are also explored.

Prerequisite: **Economics 2** or consent of the instructor.

16. Econometrics and Simulation. Spring 1975.

An examination of the use of statistical and mathematical methods in the testing of models and in practical decision-making. Topics include a review of multiple regression, simultaneous equation models, simulation models of complex systems, and an introduction to decision theory.

Prerequisite: **Economics 3**.

17. Population Analysis. Spring 1975.

The measurement and behavior of the major demographic variables, fertility, mortality, and migration, and their role in determining the growth and age distribution of populations. Contemporary problems include the relation of population growth to economic development, metropolitan concentration and crowding, environmental deterioration, the aging of populations, and zero population growth. Population policy and prospects for the future are also discussed.

Prerequisite: **Economics 1**.

18. Economics of Resources and Environmental Quality. Spring 1975. MR. FREEMAN.

The economic dimensions of environmental quality and resource management problems faced by the United States and the world. The relationships among population, production, and pollution; the role of market failure in explaining the existence of pollution; evaluation of alternative strategies for pollution control and environmental management; the adequacy of natural resource stocks to meet the future demands of the United States and the world.

Prerequisite: **Economics 1**.

19, 20. Contemporary Problems.

Topics vary from year to year. Prerequisites, if any, are determined by the instructor.

19. Problems of Economic Growth in Underdeveloped Areas. Fall 1974. MR. VAIL.

Special attention given to the "development of underdevelopment"

through imperialism and the continuing dependent role of poor countries in the international division of labor. Investigation of the strategies for economic development stresses such problems as rapid population growth; urbanization and unemployment; the industry-vs.-agriculture controversy; the roles of trade, aid, and foreign investment; and the usefulness of comprehensive economic planning. The East African experience is emphasized.

Prerequisite: **Economics 1**.

30. Research Seminar. Every semester. THE DEPARTMENT.

A required course for senior majors in economic issues consisting of selected topical seminars. The seminar is divided into small-group sections each specializing in a particular field of economic issues. Each participant undertakes a substantial piece of independent research. The seminar provides an opportunity for students to articulate their ideas, models, methods, and problems to their peers, as well as to exercise their critical capacities in commenting on the projects of other seminar members.

Prerequisite: **Economics 2** and consent of the instructor.

200. Independent Study. THE DEPARTMENT.

Education

PROFESSOR HAZELTON, *Chairman*

1. Education in the Twentieth Century. Every fall.

The purposes, organization, and government of modern educational systems. Comparative studies of American and English education are the principal focus of the course.

2. History of American Education. Every spring.

The study of educational institutions and thought in their social and cultural settings. The organization of the course includes individual and group work on topics such as the growth of the common school, the progressive education movement, the development of the high school, and the nineteenth-century college and university.

3. Secondary Education. Every fall.

A study particularly of the American public high school although certain aspects of private education are included. The emphasis is on problems of policy and practice that are to be found in documents and studies like the Coleman Report.

Prerequisite: **Education 1** or **2**, or consent of the instructor.

4. Teaching. Every spring.

A study of the process of teaching, the organization of subjects and the curriculum, and the teacher's profession. A substantial part of the work of the course consists of observation in school classrooms. A special section of the course provides an opportunity for student teaching for some students with previous experience of work in schools.

Prerequisites: An appropriate sequence of courses in education and psychology and consent of the instructor.

10. Topics in Education. Spring 1974.

Studies in special topics such as reading or elementary education, or the education of the mentally retarded offered regularly by visiting faculty.

Prerequisites: **Education 1** and an appropriate course in psychology.

200. Independent Study.

Note: Undergraduates considering a career in teaching should make their interest known to Mr. Hazelton so that their course programs may be planned most effectively.

On page 90 there is a further discussion of careers in teaching.

English

ASSOCIATE PROFESSOR REDWINE, *Chairman*; PROFESSORS COXE, GREASON, AND HALL; ASSOCIATE PROFESSORS COURSEN AND KASTER; ASSISTANT PROFESSORS BURROUGHS AND LAUREN; VISITING LECTURER COLE; DIRECTOR OF THEATER RUTAN; Ms. JACKSON

Requirements for the Major in English and American Literature: The major consists of ten courses. At least one semester unit is required from each of four groups: (1) **English 10, 11, or 12**; (2) **13 or 14**; (3) **15, 16, or 17**; (4) **18, 19, or 20**. Six additional units may be chosen from the foregoing and/or **English 1, 2** (Freshman-Sophomore Seminars, not more than two), **21, 22, 30, 31, 32, 33, 34, 35, 36, 41**. In addition, candidates for honors in English are required to write an honors essay and to take a comprehensive examination in the senior year. Exceptions to this program may be arranged by the department to encourage and accommodate special individual programs such as interdisciplinary majors.

Freshman-Sophomore Seminars in English Composition and Literature

Open to freshmen and sophomores. Enrollment normally limited to fifteen students a section. Discussion, outside reading, papers, and individual conferences on problems of composition. Written work on assigned readings with emphasis on analysis of problems of exposition.

English 1. Fall 1974.

Seminar 1. Twentieth-Century Southern Fiction: Themes and Backgrounds.

MR. BURROUGHS.

Concentration on fiction growing out of the South's social and historical experience. Includes works by Glasgow, Faulkner, O'Connor, and Percy.

An introduction to the drama. Emphasis on the close reading of plays by Shakespeare, Wycherly, Congreve, Ibsen, Shaw, and Beckett.

Courses in Writing, Communication, and Theater Arts**3. Oral Communication: Public Speaking. Every fall. MS. KASTER.**

Theory and practice of topic selection, audience analysis, research methods, development and organization of ideas, and delivery techniques. Designed for students with little or no experience in public speaking.

Prerequisite: Consent of the instructor.

4. Oral Interpretation of Literature. Fall 1974. MS. KASTER.

Oral interpretation as a method of literary analysis. Topics to include *persona* and the reader; characterization and placement; devices of language and structure; individual and group performance of poetry and fiction.

Prerequisite: Consent of the instructor.

5. Oral Communication: Argumentation. Spring 1975. MS. KASTER.

Emphasis on evaluating evidence; the use of induction and deduction in daily life; practice in using the Toulmin model. Students will be involved in classroom debates. Designed for those without previous forensic experience.

6. **History, Theory, and Criticism of Film.** Every spring. Ms. KASTER.

The aim is to sharpen the perception of film as art. The history of the media, the major aesthetic theories, and the syntax of film will be discussed as they function to clarify the nature of filmic expression. Films of major directors will be viewed, including those of Melies, Griffith, Eisenstein, Wiene, Wells, Riefenstahl, Bergman, Penn, and Vanderbeek.

- 7, 1. **English Composition.** Every year. Fall 1974. Ms. LAUREN.

Practice in expository writing, with special attention to the preparation, writing, and analysis of student essays. Ordinarily limited to students not planning to take **English 8**.

Prerequisite: Consent of the instructor.

- 7, 2. **Elements of Journalism.** Fall 1974. MR. COLE.

An introduction to journalism: the researching and writing of news stories for Maine publications, political and critical reporting, emphasis on writing for print journalism.

Prerequisite: Consent of the instructor.

8. **Advanced Composition.** Every year. Spring 1975. MR. COURSEN.

Written work with emphasis on imaginative writing. Ordinarily limited to students who have not taken **English 7**.

Prerequisite: Consent of the instructor.

[9. **Literary Composition.**]

47. **Playwriting.** Every other year. Fall 1974. MR. RUTAN.

Study and practice in the writing of plays, with emphasis upon the one-act play.

Prerequisite: Consent of the instructor.

51. **Acting and Directing.** Every semester. MR. RUTAN.

A studio class for students interested in the fundamentals of acting and directing.

Prerequisite: Consent of the instructor.

52. **Set Design.** Every semester. MR. RUTAN.

A studio class for students interested in the fundamentals of set designing.

Prerequisite: Consent of the instructor.

53. **Technical Theater.** Every semester. MR. RUTAN, with the assistance of WILLIAM H. MOODY, THEATER TECHNICIAN.

A studio class for students interested in the fundamentals of technical production in the theater.

Prerequisite: Consent of the instructor.

Advanced Courses in English and American Literature

10. **History of the Language.** Every other year. Spring 1976. MR. BURROUGHS.
 Extensive readings in Old English, and a survey of conspicuous developments in Middle and Early Modern English.
11. **Chaucer.** Every other year. Fall 1975. MR. BURROUGHS.

12. **Epic and Romance.** Every other year. Spring 1975. MR. BURROUGHS.
 The main tradition of secular narrative from antiquity to the Renaissance. Includes an initial consideration of Vergilian epic and Arthurian legend, selected medieval romances, Spenser, and Milton. All Middle English works read in the original.
13. **Shakespeare I.** Every fall. MR. COURSEN.
 A study of Shakespeare's comedies; history plays, particularly the Second Henriad (*Richard II* to *Henry V*); early tragedies, including *Hamlet*; and tragicomedies.
14. **Shakespeare II.** Every spring. MR. COURSEN.
 A study of the major tragedies, the Roman plays, and the final comedies.
15. **English Literature of the Early Renaissance.** Every other fall. Fall 1975. MR. REDWINE.
 A critical study of the literature of the sixteenth century, with emphasis upon Elizabethan nondramatic poetry.
16. **English Literature of the Later Renaissance.** Every other spring. Spring 1976. MR. REDWINE.
 A critical study of the literature of the seventeenth century exclusive of Milton, with emphasis on the poetry of Donne, Jonson, and their followers.
17. **Milton.** Every other year. Fall 1974. MR. REDWINE.
 A critical study of his chief writings in poetry and prose.
18. **Eighteenth-Century Poetry and Prose.** Every other year. Spring 1976. MR. GREASON.
 A study of neoclassical values, with special attention to the writings of Swift, Pope, and Johnson.
19. **English Romanticism.** Every other year. Fall 1974. MR. HALL.
 The origins, growth, and nature of romanticism, with emphasis on

Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats, with illustrative parallels in the visual arts, including paintings of Gainsborough, Reynolds, Constable, Blake, and Turner.

20. **Victorian Poetry.** Every other year. Spring 1975. MR. COXE.
A critical study of the major Victorian poets.
21. **Twentieth-Century English and American Literature I.** Every other fall. Fall 1975. MR. HALL.
The philosophic and technical bases of the modern schools: Hardy, Conrad, James, Yeats, Eliot, Joyce, Hemingway, Faulkner, and others.
22. **Twentieth-Century English and American Literature II.** Every other year. Spring 1976. MR. COXE.
Readings in American and British poetry and fiction, 1900-1970. Such poets as Eliot, Stevens, and Pound; such novelists as Golding, Flannery, O'Connor, and Bellow. The list of authors varies from year to year.
30. **Literary Criticism: Definitions and Methods.** Every year. Spring 1975. MR. HALL.
An approach to criticism through the definitions of its governing concepts and terms; analysis of selected critical writings and practice in the application of the principles and instruments of criticism.
31. **The Development of the English Drama.** Every other fall. Fall 1974. MS. LAUREN.
The plays of medieval, Elizabethan (excluding Shakespeare), Jacobean, and Restoration drama, as far as Sheridan.
32. **Modern Drama.** Every other spring. Spring 1975. MS. LAUREN.
Modern dramatic literature, with emphasis on the comparative trends and influences of foreign drama.
33. **The English Novel I.** Every other fall. Fall 1975. MS. LAUREN.
'The development of English fiction and the changing patterns of the novel in the eighteenth century, through Jane-Austen.'
34. **The English Novel II.** Every other spring. Spring 1976. MS. JACKSON.
Nineteenth-century fiction from Dickens to Lawrence.
35. **American Literature I.** Every fall. MR. HALL.
Pre-Civil War fiction. Emphasis on Hawthorne and Melville, and illustrative parallels in the painting of Allston, Cole, Durand, and others.
36. **American Literature II.** Every spring. MR. COXE.
Readings in American poetry and fiction. Significant works by Melville, Poe, Whitman, Dickinson, and others, up to and including Robinson and Frost.

41. Studies in Literary Genres. Every year.

Lectures, discussions, and extensive readings in a major literary genre: e.g., the narrative poem, the lyric poem, fiction, comedy, tragedy, or the essay.

Fall 1974. **Poetics and Versification.** MR. COXE.

Prosody through the works of Wyatt, Jonson, Pope, Tennyson, Hopkins, Pound, Auden, and others. Metrics, syllabics, free verse, and forms such as sonnet and sestina. Composition in set forms and metrics as well as critical papers on particular problems. The approach is both historical and by case study.

Prerequisite: Consent of the instructor.

Spring 1975. **The Nineteenth-Century Novel.** MS. JACKSON.

Representative types of nineteenth-century fiction. Tentative authors: Stendhal, Flaubert, Eliot, Tolstoy, Conrad, and James.

Prerequisite: Consent of the instructor.

[60. Junior Major Tutorial.]**200. Independent Study.** THE DEPARTMENT.

Environmental Studies

Administered by the Committee on Environmental Studies

Requirements for the Coordinate Major in Environmental Studies: The major consists of (1) a course of study in an existing major department which may be similar to the major program for that department; (2) courses related to environmental matters in other departments; and (3) **Environmental Studies 51.** The program of study leading to the major will be developed by the student with the approval of the chairman of the major department and a member of the Committee on Environmental Studies. The committee will provide a list of recommended courses to be used as a guide.

A student contemplating a coordinate major in environmental studies is advised to get in touch with the committee in his freshman year or early in his sophomore year.

1. Introduction to Environmental Studies. Spring 1975. MR. BUTCHER (Chemistry).

An introductory study of select environmental topics in a multidisciplinary context. Applying basic concepts and analytic techniques from several disciplines—e.g., biology, economics, government—the course examines environmental topics such as population, use of resources, the water cycle, the nitrogen cycle, energy production, and food production. Particular emphasis on defining root problems in environmental systems and evaluating practical obstacles to their solution—technical, legal,

social, or other. While the perspective is primarily global, select local situations are examined as exemplary of the large-scale systems. Group discussions, field trips, and laboratory work, in addition to lectures and readings, may be included. Intended primarily for freshmen and sophomores but open to all students.

51. Seminar on Environmental Policy: The Dickey-Lincoln School Hydroelectric Project. Spring 1975. THE COMMITTEE.

An upper-level seminar bringing the techniques of several disciplines to bear on selected problems of power generation. The Dickey-Lincoln project is a case study in the context of the National Environmental Policy Act of 1970 (NEPA) which requires "a systematic, interdisciplinary approach . . . integrated use of the natural and social sciences . . . , [so that] unquantified environmental amenities and values be given appropriate consideration along with economic and technical considerations." Consideration also given to the role of this and other means of power generation in meeting the energy requirements of New England. Open to juniors and seniors, others with consent of the instructor.

Geology

PROFESSOR HUSSEY, *Chairman*

Students contemplating advanced study in geology should consult with the chairman of the department as soon as possible. They should plan a joint major between geology and chemistry, physics, biology, or mathematics. **Geology 11** and **12** should be taken during the freshman year. By the end of the sophomore year **Mathematics 11, 12** and **Physics 17-Chemistry 18** should be completed.

11. Introduction to Physical Geology. Every year.

Lectures devoted to the composition and structure of the earth and the dynamic equilibrium processes that affect the earth's crust. Laboratory work includes the recognition and study of common rocks and minerals, the interpretation of topographic and geologic maps, and two half-day field trips to examine geological features of the Brunswick area. In addition, a one-day trip is taken to southern York County to examine evidence for glaciation, recent sea level changes, structures and types of metamorphic rocks, and sequence of intrusion of four major magma series. Three lecture hours and three laboratory hours each week.

12. Introduction to Historical Geology. Every year.

Lectures devoted to a study of the principles involved in the interpretation of geologic history as deciphered from the rock record and a review of present knowledge of the evolution of the earth and its inhabitants.

Three hours of laboratory work each week includes the recognition of fossils and their modes of preservation, interpretation of geologic maps, and a summary of the geologic history of the principal tectonic belts of North America. A one-day field trip is taken in the spring to illustrate important aspects of the geologic history of the southern coastal Maine area.

Prerequisite: **Geology 11.**

21. Mineralogy and Optical Mineralogy. Fall 1975 and fall 1977.

Lectures devoted to morphological crystallography, crystal chemistry, optical mineralogy, and a survey of the common rock-forming and economic minerals. Six hours of laboratory work each week include morphological and X-ray crystallography, and identification of minerals by hand specimen, chemical, optical, and X-ray diffraction techniques.

Prerequisite: **Chemistry 18 or Geology 11.**

22. Petrology. Spring 1976 and spring 1978.

The classification, description, and genesis of the common rock types. Six hours of laboratory work each week devoted to the identification of rocks in hand specimen and examination of thin sections with the use of the polarizing microscope.

Prerequisite: **Geology 21.**

23. Structural Geology. Fall 1974 and fall 1976.

The primary and secondary structures of rocks, and the interpretation of crustal deformation from these features. Laboratory work includes structural interpretation of geologic maps, construction of cross sections, and the use of stereographic projections and orthographic constructions in the solution of structural problems and presentation of data. Three lecture hours and three laboratory hours each week.

Prerequisite: **Geology 11, 12.**

24. Invertebrate Paleontology. Spring 1975 and spring 1977.

The concepts and paleontological evidence of evolution, the principles of paleontology, and application of fossil data to geology and biology. The classification and morphology of the invertebrate groups occurring as fossils. Three lecture hours and three laboratory hours each week.

Prerequisite: **Geology 11, 12 or Biology 15, 16.**

200. Independent Study.

German

PROFESSOR HODGE, *Chairman*; MS. CAFFERTY, MR. CERF, AND MR. WHITMAN

Requirements for the Major in German: The major consists of 1) any five courses from German 13 through 18 (one semester of German 5-6 may be

included in this group) and 2) one semester of **German 22** or an independent study approved by the department.

- 1, 2. **Elementary German.** Every year. Fall 1974. MR. CERF. Spring 1975. MR. WHITMAN.

Three hours a week of training in grammar, composition, and reading. Two hours of audio-lingual training in the language laboratory.

- 3, 4. **Intermediate German.** Every year. Fall 1974. Ms. CAFFERTY. Spring 1975. MR. CERF.

Three hours a week of reading, composition, and review of grammar. One hour of audio-lingual training in the language laboratory or with the teaching assistant.

- 5, 6. **German Conversation and Composition.** Every year. Fall 1974. MR. HODGE. Spring 1975. Ms. CAFFERTY.

Designed to increase oral fluency, compositional skills, and understanding of spoken German. Metaphorical expression and other idiomatic usages may be emphasized during the second semester.

Prerequisite: **German 4** or equivalent.

8. **Advanced Translation: German to English.** Spring 1976.

For students of all disciplines who expect to do specialized reading or research work in German. Emphasis on discrepancies between grammar and style, various approaches to vocabulary learning, and "decoding" difficult structures. Readings from areas of general knowledge. As a final project each student translates a reading selection from his own subject area.

Prerequisite: **German 4** or equivalent.

13. **The Development of Literary Classicism.** Fall 1975.

Beginning with the reaction against the Age of Reason and continuing into the later works of Goethe and Schiller.

Prerequisite: **German 4** or equivalent.

14. **The Romantic Movement.** Spring 1976.

Its literary philosophy, several schools of thought, and preferred genres, including consideration of such representative or influential figures as Tieck, A. W. and F. Schlegel, Kleist, Arnim, Brentano, Chamisso, Eichendorff, E. T. A. Hoffmann, and Schopenhauer.

Prerequisite: **German 4** or equivalent.

- 15, 16. **Literature of the Nineteenth and Twentieth Centuries.** 1974-1975. Fall 1974. MR. HODGE. Spring 1975. Ms. CAFFERTY.

German literature ca. 1830-1950. Such authors as Hebbel, Storm, Meyer, Keller, Hauptmann, Hofmannsthal, Mann, Kafka, and Brecht are included.

Prerequisite: **German 4** or equivalent.

17. **Contemporary Literature.** Fall 1974. MR. CERF.
 Stress on the newest—largely untranslated—authors and on authors not ordinarily considered in **German 15, 16**, e.g., Dürrenmatt, Grass, Böll, Weiss, Handke, Dorst, and Doderer, among others.
 Prerequisite: **German 4** or equivalent.
18. **The Short Prose Form.** Fall 1975.
 Unique theory, form, and content of the German *Novelle* as they have developed from Goethe to the present.
 Prerequisite: **German 4** or equivalent.
22. **Seminar in Aspects of German Literary History.** Every spring.
 Work in a specific area of German literature not covered in other departmental courses, e.g., individual authors, literary movements, genres, cultural influences, and literary-historical periods.
 Prerequisite: One semester's work beyond **German 4** or equivalent.
 Spring 1975: **Vienna, 1890-1914.** MR. CERF.
 A survey of the shorter literary works (i.e., *Novellen*, dramas, poetry, essays, etc.) of such diverse, psychologically oriented authors as Hofmannsthal, Freud, Trakl, Schnitzler, Kraus, and Musil.
31. **German Literature in English Translation.** Every fall.
 Fall 1974: **Bertolt Brecht and Epic Theater.** MS. CAFFERTY.
 The Epic Theater tradition, its high point in Brecht's revolutionary theory of drama, its singular contributions to modern theater and film. Examination of works which have received critical acclaim in English performance. Emphasis on Brecht; others include Büchner, Weiss, Dürrenmatt, and Frisch.
200. **Independent Study.** THE DEPARTMENT.

Government and Legal Studies

ASSOCIATE PROFESSOR MORGAN, *Chairman*; PROFESSORS DONOVAN AND RENSENBRINK; ASSOCIATE PROFESSOR POTHOLM; ASSISTANT PROFESSORS EMMERT, PALMER, AND SMALL; SENIOR LECTURER ROBISON; AND MRS. MINER

Requirements for the Major in Government and Legal Studies: The major consists of at least two Level A courses and at least six Level B courses. Majors must, however, take at least one course from each division of the department's offerings: American government (**Government 3, 5, 6, 9, 10, 13, 14, 30, and 31**); comparative government (**Government 4, 12, 23, 24, and 25**); political theory (**Government 1, 16, 17, 19, and 20**); and international politics (**Government 2, 7, 8, 15, and 18**).

In addition, the student seeking to graduate with honors in government and legal studies must take both semesters of the honors seminar (**Government 60, 61**) during his senior year and must prepare an honors paper. No more than one semester of independent study, including independent study for honors, may be substituted for a course in completing the eight-course requirement (two from Level A and six from Level B).

Sophomore standing is required for courses numbered 5-39; junior standing for courses numbered 40-49; senior standing for courses 60-69. Courses numbered 50-59 are specialized seminars with individualized requirements as to class standing and prerequisite courses.

Level A Courses

1. **Introduction to Political Theory.** Fall 1974. MESSRS. EMMERT AND RENSENBRINK.

A systematic examination of selected major problems of politics, such as legitimacy, obligation, authority, and participation.

2. **Introduction to International Relations.** Fall 1974 and spring 1975. MRS. MINER.

Identifies and explains patterns of interaction among nation-states. Focuses on developments since World War II, but many lectures draw on material from other periods. Such topics as the nature of man and the causes of war, the international espionage subculture, revolutionary change, and environmental constraints are considered.

3. **Introduction to American Government.** Fall 1974. MESSRS. DONOVAN AND MORGAN.

Emphasis on the national government and the making of public policy. Examination of the Constitution, Supreme Court, presidency, Congress, political parties and interest groups, bureaucracy, and national budget-making. Whenever possible an attempt will be made to relate the study of basic institutions to the development of current issues of public policy.

4. **Introduction to Comparative Government.** Fall 1974. MR. PALMER. Spring 1975. MRS. MINER.

An introduction to the study of governments other than the United States. Governments selected for study vary from year to year but usually include a Western European parliamentary type, a communist one-party type, and the government of a non-Western, noncommunist developing country.

Level B Courses

5. **Local Governments.** Fall 1974. MR. PALMER.

The structures of political power in America at the local level. Special

reference to the capacity of local political structures to cope with the problems of contemporary American society.

Prerequisite: **Government 3, 13, or 14.**

6. Law and Society. Spring 1975. MR. MORGAN.

Selected nonconstitutional areas of American public law which have become the focus of intense political conflict: to include federal and state statutory efforts in the field of civil rights, police practices, and the philosophical underpinnings of the criminal law.

[7. International Law.]

[8. International Organization.]

10. The American Presidency. Spring 1975. MR. EMMERT.

An examination through the study of historical materials and recent literature of the office of the president and of presidential leadership. Emphasis on the case for and against a vigorous, independent executive and on understanding the problems and nature of statesmanship in a liberal democracy.

Prerequisite: Any Level A course.

12. Advanced Comparative Government. Spring 1975. MR. RENSENBRINK.

An exploration of political development or modernization, either by a comparison of a Western developed country (other than the United States) to a non-Western underdeveloped country or by the analysis of the modernization of a contemporary European government. Comparisons and contrasts will be made in the light of analytic materials that probe the nature of development and which identify the problems of political formation and continuity. The aim is to involve the student in significant political issues in a familiar and in an unfamiliar context and thereby sharpen his understanding of basic political forces and of options available under varying circumstances.

This course is offered in close coordination with **Economics 14**. Students are required to register for both courses.

Prerequisite: Consent of the instructor.

13. Parties, Interest Groups, and Elections in America. Fall 1974. MR. DONOVAN.

Parties and interest groups, their functions in the American system, and their relationships with other political institutions. Also the dynamics of voting behavior and campaign techniques.

Prerequisite: Any Level A course.

14. The Policy-Making Process. Spring 1975. MR. DONOVAN.

The policy-making process in American government with emphasis on executive-legislative relations, the roles of Congress and the presi-

dency, and the basic problem of responsible formulation of public policy in American democracy.

Prerequisite: Any Level A course.

15. Advanced International Politics. Fall 1974. MR. SMALL.

An examination of some new and even novel approaches to the study of international politics. Designed to help students become aware of the ways in which the relations between nation-states may be conceptualized and studied.

Prerequisite: **Government 2, 7, 8, or 18.**

16. Development of American Political Thought. Spring 1975. MR. DONOVAN.

American political thought from the seedtime of the Republic through the present. Emphasis on an analysis of major American thinkers from Madison to John Dewey. Concludes with an examination of the contemporary dialogue of American liberalism, conservatism, and radicalism.

Prerequisite: Any Level A course.

17. Problems of Political Analysis. Fall 1974. MR. RENSENBRINK.

An examination of various approaches to the study and understanding of politics. Special emphasis on the study of the influence of personality on politics in America at both the elite and mass levels.

Prerequisites: Any Level A course and consent of the instructor.

18. American Foreign Policy: Its Formulation and the Forces Determining Its Direction. Spring 1975. MR. SMALL.

The major theories concerning the sources and conduct of American foreign policy since World War II. Not only diplomatic, constitutional, and administrative factors but also economic and cultural forces are considered.

Prerequisite: Any Level A course or **History 22.**

19, 20. The History of Political Thought in the West from Greek Antiquity to the Present. 1974-1975. MESSRS. EMMERT AND RENSENBRINK.

An analysis, through close textual criticism, of the political writings of selected thinkers of ancient Greece and Rome, medieval Europe, and modern Western civilization. Non-Western thinkers may be included. Examples of authors to be read are Plato, Aristotle, Lucretius, Augustine, Marsiglio of Padua, Machiavelli, Hobbes, Locke, Rousseau, Hegel, John Stuart Mill, Marx, Kierkegaard, Nietzsche, Veblen, Weber, Lenin, Collingwood, Ortega y Gasset, Pareto, Sorel, Dewey, Sartre, Mao Tse-tung, Gandhi. Not all of these authors are read in a single year. Authors not listed may be read in any given year.

Prerequisite: **Government 1** or consent of the instructors.

23. African Politics. Fall 1974. MR. POTHOLM.

An examination of the underlying political realities of modern Africa. Emphasis on the sociological, economic, historical, and political phenomena which affect the course of politics on the continent. While no attempt is made to cover each specific country, several broad subjects, such as hierarchical and polyarchical forms of decision-making, are examined in depth. A panel discussion with African students and scholars at the end of the course.

Prerequisite: Any Level A course or consent of the instructor.

24. Latin American Politics. Spring 1975. MR. PALMER.

An introduction to political realities in twentieth-century Spanish and Portuguese America. General historical, geographical, social, and economic factors of the region are explored, as are alternative models of development. Mexico, Cuba, Chile, Bolivia, Uruguay, Brazil, and Peru receive special emphasis.

Prerequisite: **Government 2, 4, or 25**, or consent of the instructor.

25. Political Analysis and the Forces of Change. Fall 1974. MR. POTHOLM.

The study of the process of political development, including an analysis of elite groups as crucial variables in the modernization process, models and patterns of political development, dysfunctional factors impeding modernization, and aspects of political stagnation and devolution. A variety of material is used, including fiction, nonfiction, and films.

Prerequisite: Any Level A course or consent of the instructor.

30, 31. American Constitutional Law. Every year. MR. MORGAN.

Constitutional principles in the United States. The case method is used in the presentation of material.

Advanced Seminars

The specific subject matter of each seminar will vary according to the interests of the instructor. The department does not expect to give all, or in some cases any, seminars in a given semester. The seminars are intended to utilize the scholarly interests of members of the department and provide advanced work for selected students who have successfully completed a number of lower-level courses in the field in which they seek to take a seminar.

40. Advanced Seminar in Political Theory.

Secrecy and Democracy: The Continuing Tension. MR. ROBISON.

An examination of the practice of secrecy by American and selected foreign governments, with reference to the secrecy requirements of foreign and defense policy making. This seminar involved a survey of the

history of U. S. governmental policies and practices compared with British practices and the British Official Secrets Act. An examination of the continuing tensions between democratic presumptions and the felt necessity for secrecy by governmental decision-makers.

Prerequisite: Consent of the instructor.

This course was offered in spring 1974 and is included here for the historical record.

41. Advanced Seminar in Comparative Politics.

Spring 1975. **Political Participation.** MR. PALMER.

The relationship of the citizen to the political system in various types of regimes: democratic, authoritarian, totalitarian, socialist. Alternative participation structures, such as parties, interest groups, cooperatives, worker-managed enterprises, neighborhood organizations, and peoples' courts. Also, the various functions of citizen participation for self and system, such as control, education, and integration.

Prerequisite: Consent of the instructor.

42. Advanced Seminar in International Relations.

Fall 1974. **War.** MRS. MINER.

An examination of selected cases in an effort to identify for discussion the factors and perceptions which led governmental decision-makers to resort to armed force as an instrument of foreign policy.

Prerequisite: Consent of the instructor.

42. Advanced Seminar in International Relations.

The Inter-American System. MR. VALENZUELA.

The historical development and present structure of regional legal arrangements in the Western Hemisphere for political and security purposes. Focus on the tensions between national and regional concerns, between large and small nations, and between developed and developing countries. Case studies.

This course was offered in spring 1974 and is included here for the historical record.

43. Advanced Seminar in American Politics.

The Contemporary Presidency and the Executive Bureaucracies. MR. DONOVAN.

An examination of the relationship between the growth of the institutionalized presidency and the established bureaucratic structures of the Executive branch. The seminar studied domestic and national security issues as they are addressed within the higher levels of the Executive branch. Since much of the available information was not yet in book form, the seminar offered an opportunity for a number of upperclass majors to work with primary materials and a variety of case studies.

Prerequisite: Consent of the instructor.

This course was offered in spring 1974 and is included here for the historical record.

Requirements for the Major in History: The departmental offerings are divided into the following fields: Europe to 1500, Europe since 1500, Great Britain, United States, Asia, Africa, and Latin America.

The major consists of eight courses, distributed as follows:

- a) A primary field of concentration, selected from the above list, in which four or more courses are taken. One of the courses must be numbered in the 50s, selected with departmental approval, in which a research essay is written.
- b) Two supplemental fields, in each of which two courses are taken.

With departmental approval a student may offer for credit toward the history major college-level work in history at other institutions. This work may represent fields other than those that are available at Bowdoin. A student who anticipates study away from Bowdoin should discuss with the department, as early in his college career as possible, a plan for the history major which includes work at Bowdoin and elsewhere.

The freshman-sophomore seminars listed under **History 3** are not required for the major, but one such seminar may count toward the required eight courses.

Before electing to major in history, a student should have completed or have in progress at least two college-level courses in history, and he should have received an honor grade in at least one of them.

History majors are encouraged to develop competence in one or more foreign languages and to use this competence in their historical reading and research. Knowledge of a foreign language is particularly important for students planning graduate work.

Each major has a departmental adviser. A student should plan, in consultation with his adviser, a program that progresses from introductory to advanced levels. The courses numbered in the 50s presuppose a reasonable background understanding. They are open with the consent of the instructor to

history majors and other students, normally upperclassmen. The department endeavors to keep enrollments in these courses sufficiently small to permit active participation by each student.

1. History of Western Civilization I. Every year. Fall 1974. MESSRS. HOWELL AND WHITESIDE.

An introductory survey of Western civilization from the fall of Rome through the Reformation.

[2. History of Western Civilization II.]

Freshman-Sophomore Seminars

The following seminars are introductory in nature. They are designed for freshmen and sophomores who have little background in history generally or in the period and area in which the particular topic falls. Enrollment is limited to twenty students in each seminar.

Objectives are 1) to cover the essential information relating to the topic, together with a reasonable grounding in background information, and 2) to illustrate the manner in which historians (as well as those who approach some of the topics from the point of view of other disciplines) have dealt with certain significant questions of historical inquiry.

The seminars are based on extensive reading, class discussion, oral reports, two or three short critical essays, and an examination.

History 3. 1974-1975.

Seminar 1. Slavery in the Americas. Fall 1974. MR. BLAND.

A close introductory study of slavery and slave societies in the United States, the Caribbean, and Brazil.

Seminar 2. Colonial Rule and Local Response in Africa, the Indian Subcontinent, and the Middle East. Spring 1975. MR. MOTANI.

Ideological and institutional aspects of colonialism; African, Arab, and Indian reactions to colonial masters, including the Arab reaction to the Zionist colonization of Palestine.

Seminar 3. The Poor and Society. Spring 1975. MR. LEVINE.

A comparative look at how four different western societies—Germany, Denmark, England, and the United States—have responded to “the poor,” what characteristics they perceive in poor people, and how they, conceptually and institutionally, have dealt with the issue. Readings primarily from legislation and novels.

History 3. 1975-1976.

Seminar 1. The Frontiers of Medieval Europe. Fall 1975. MR. NYHUS.

Seminar 2. **Crowd, Class, and Political Protest in Modern Europe.** Spring 1976. MR. HOWELL.

[4. **Political, Cultural, and Intellectual History of Europe in the Classical Period.**]

5. **History of Europe in the Middle Ages.** Every other year. Spring 1976. MR. NYHUS.

A survey covering political and social institutions as well as intellectual and cultural movements. Begins with the end of the Roman Empire but emphasizes the Carolingian period and the High Middle Ages.

6. **History of the Reformation and the Age of Louis XIV.** Every other year. Fall 1975. MR. KARL.

A brief overview of the Reformation serves as an introduction to the social, political, and intellectual history of Continental Europe from the sixteenth century to the death of Louis XIV.

7. **History of the Enlightenment and the Revolutionary Era.** Every other year. Spring 1976. MR. KARL.

A survey of Continental European history from the death of Louis XIV to the Revolutions of 1848, with focus on the French Revolution and its role in European development.

8. **Germany: Thirty Years' War to Bismarck.** Every other year. Fall 1976. MR. KARL.

A consideration of some mainstreams in German development, concentrating on the eighteenth and nineteenth centuries and directed toward exploring the historical background to the German problem.

Prerequisite: A course in modern European history.

9. **History of Europe from the Revolutions of 1848 to World War I.** Every other year. Fall 1974. MR. BRIASCO.

Political and social history of European states and their imperialistic expansion, ending in a detailed study of the origins of World War I.

10. **Recent European History.** Every other year. Fall 1975. MR. BRIASCO.

A survey of World War I and the peace settlements as a background for the study of political and social developments in Europe in the inter-war period, World War II, and current international problems.

11. **Renaissance Europe.** Every other year. Spring 1975. MR. NYHUS.

A close study of the politics and culture of the period. Consideration of the historical problem of a renaissance.

13. **History of Russia to Emancipation.** Every other year. Spring 1976. MR. KARL.

A broad survey beginning with medieval Russia but concentrating on

the rise of Muscovy, Peter the Great, and developments leading to the Emancipation of 1861.

14. **History of Russia: Emancipation to the Present.** Every other year. Fall 1974. MR. KARL.

Begins with the accession of Alexander II in 1855 and focuses chiefly on the long-term coming, course, and aftermath of the Revolution of 1917. Events after Stalin are treated more briefly. No prior knowledge of Russian or European history is required.

15. **History of England to 1550.** Every other year. Spring 1975. MR. WILLMAN.

An advanced survey of the origins of English society. Attention paid to the cultural, intellectual, social, political, and economic aspects of medieval English life in an attempt to produce a satisfactory definition of a complex and dynamic society. The growth of representative institutions and the common law is studied within this context. Concludes with the Reformation, which is interpreted as a revolutionary disruption of many of the features of medieval England. Readings include selections from medieval historians, from Bede to Froissart; other contemporary sources, such as the *Magna Charta* and More's *Utopia*; and modern works.

[16. **History of England from the Sixteenth to the Nineteenth Century.**]

17. **History of England from 1800 to the Present.** Every other year. Fall 1974. MR. WILLMAN.

A survey of the cultural, intellectual, political, constitutional, social, and economic development of England.

21. **Interpretations of American History.** Fall 1974 and fall 1975. MR. LEVINE.

A critical analysis of some of the major syntheses of American history: those works which try to find a common theme or structure in American history as a whole, including Charles A. Beard, Frederick Jackson Turner, David M. Potter, William Appleton Williams, Rowland T. Berthoff, and others. The course will be based on discussion, critical work in the library, then more discussion. Some previous college-level or secondary advanced placement work in history is helpful.

22. **The Colonial Experience.** Every other year. Fall 1974. MR. BLAND.

The origins of American civilization examined through political and intellectual history. Emphasis on the political theory and practice of the Revolutionary period.

23. **The Age of Jefferson and Jackson.** Every other year. Spring 1975. MR. BLAND.

A study based on monographs and source materials of the early na-

tional period of American history, 1789-1848. Social and intellectual currents as well as political developments are covered.

24. The American Civil War. Fall 1975. MR. WHITESIDE.

The Civil War in the context of nineteenth-century American political, economic, social, and intellectual history. A comparative critical examination of changing interpretations of the causes, consequences, and significance of the conflict.

Prerequisite: A course in American history to 1860 or consent of the instructor.

25. American Society and Thought, 1865-1917. Fall 1974 and spring 1976. MR. WHITESIDE.

The transformation of American society through industrialization, urbanization, and immigration. Exploration of the effort to adapt older institutions to the new conditions. Social critics and theorists are studied.

26. The Foreign Relations of the United States since 1898. Spring 1975. MR. WHITESIDE.

Consideration of the nation's changing role in world affairs since the war with Spain. Imperialism and its critics; preparedness, diplomacy, and World War I; varieties of isolationism—before, during, and since its peak years 1935-1939; the challenge to isolationism and America's participation in the struggle against the Axis powers; the American role in international organizations; "realism," containment, and the cold war; the challenge to cold war thinking since the involvement in Vietnam; the changing American role in Asia, Latin America, the Near and Middle East.

27. The United States since 1945. Every other year. Spring 1975. MR. LEVINE.

Consideration of social, intellectual, political, and international history. Topics include the cold war; the survival of the New Deal; the changing role of organized labor; Keynesian, post-Keynesian or anti-Keynesian economic policies; the urban crisis. Readings common to the whole class and the opportunity for each student to read more deeply in a topic of his own choice.

[28. The Black Man in American Society until Reconstruction.]

29. The Black Man in American Society since Reconstruction. Every other year. Spring 1976. MR. LEVINE.

The failure of Reconstruction and its consequences, the development of institutions in the black society, the migration north and its consequences. Consideration of prejudice, discrimination and various types of oppression, resistance, and rebellion. The emotional flavor of oppression

and resistance. Readings include Allport, *The Nature of Prejudice*, Malcolm X, *Malcolm Speaks*, and Margaret Walker, *Jubilee*.

34. Traditional Japanese Civilization. Spring 1975. MR. TAM.

Consideration of major institutional, social, economic, intellectual, and cultural changes in Japan from the earliest times to the 1850s. Some attention paid to problems of Chinese influence in earlier periods.

35. Traditional Chinese Civilization. Fall 1974. MR. TAM.

A survey of the civilization of traditional China from the earliest times to 1842. In addition to historical studies of social, political, and economic institutions, works of art, literature, and philosophy are considered as documents contributing to the understanding of Chinese culture.

36. Intellectual History of China. Spring 1976. MR. LANGLOIS.

Introduction to the classical Chinese formulations of humanism and the governing of men in the pre-Christian era and their subsequent history. Attention given to the rise of neo-Confucianism in the Sung Dynasty and the response of intellectuals to Western and especially Marxist thought in the nineteenth and twentieth centuries. The thought of Mao Tse-tung considered from various points of view.

37. Modern Chinese History, 1842-1967. Fall 1975. MR. LANGLOIS.

Focus on the major problems of China since the Opium War. Topics include the Taiping Rebellion, the Reform Movement of 1898, the Revolution of 1911, the era of the warlords and the Nationalist government, the anti-Japanese war, and the success of the Communist revolution. Communist China is considered to the end of the Cultural Revolution.

38. Modern Japanese History, 1853-1973. Fall 1974. MR. TAM. Spring 1976. MR. LANGLOIS.

A survey of the changes in Japan that have occurred since the arrival of Perry in 1853. Themes examined are the destruction and legacy of the feudal system, the political and industrialization experiments during the Meiji period, the rise of nationalism and militarism in the twentieth century, the emergence of the Japanese superstate in the postwar era, and the literature, especially fiction, of modern Japan.

39. Africa from Antiquity to the Nineteenth Century. Fall 1974. MR. MOTANI.

After exploding the myth that Africa had no history during this period and after considering the unwritten sources of African history, a survey of the most important themes begins. These include the Nile Valley (Northeast African), Sudanic (West African), Swahili (East African), and Zimbabwean (Central African) civilizations; the Bantu

migrations; long-distance trade, state formation, and the Atlantic slave trade; the peopling of South Africa by blacks and whites and the origins of apartheid.

40. Africa since 1800. Spring 1975. MR. MOTANI.

A regional and thematic study with emphasis on "modernizers" and "revolutionaries" of the nineteenth century (e.g., Mohammed Ali, Usman dan Fodio, the Mahdi and Shaka); the "scramble" for and "partition" of Africa; a comparison of British, Belgian, Portuguese, and French colonialism; African reaction to European imperialism; the "third person" (i.e., the non-African minorities) in Africa; the nationalist awakening, Pan-Africanism, Negritude; independence and the post-independence period.

41. The Making of Modern East Africa, 1870-1970. Fall 1974. MR. MOTANI.

A study of present-day Kenya, Tanzania, and Uganda. Main themes: East Africa on the eve of partition; African traditional societies and response to European explorers, missionaries, traders, and colonialists; "collaborators" and "resisters"; emergence of the white-brown-black colonial system; new elites and African political activity; the "Indian Question" in Kenya; Black American education and African school curricula; the closer union (East African federation) controversy; rise of nationalism and independence; Nyerere's Tanzania, Kenyatta's Kenya, and Uganda under Obote and Amin.

[42. West Africa in the Nineteenth Century.]

46. Latin American History: The Colonial Period. Fall 1974. MR. REED.

A survey of the period through the wars of independence. Emphasis on the political, social, economic, religious, and cultural development of the Spanish and Portuguese empires in the New World with some comparative study of Latin American colonial institutions and those of North America.

[47. Latin American History: The National Period.]

Problems Courses

Courses 51 through 55 involve the close investigation of certain aspects of the areas and periods represented. Following a reading in and a critical discussion of representative primary and secondary sources, students develop specialized aspects as research projects, culminating in oral presentations and written essays. Adequate background is assumed, the extent of it depending on whether these courses build upon introductory courses found elsewhere in the history curriculum. Enrollment in these courses requires the consent of the instructor.

51. Problems in Early European History.
Fall 1975. Rome in the Age of Cicero, Caesar, and Augustus. MR. BLAND.
52. Problems in Modern European History.
Fall 1974. Nazi Germany. MR. KARL.
Fall 1975. 1848: Europe at Mid-Century. MR. KARL.
53. Problems in British History.
Fall 1974. Britain in the Twentieth Century. MR. WILLMAN.
Spring 1975. History of Ireland. MR. WILLMAN.
Spring 1975. The English Revolution of the Seventeenth Century. MR. HOWELL.
54. Problems in American History.
Fall 1974. The New Deal. MR. LEVINE.
Fall 1974. Arms Limitation and Disarmament Efforts since 1920. MESSRS. HUGHES (Physics) AND WHITESIDE.
Spring 1975 and spring 1976. The American Revolution. MR. BLAND.
Spring 1975. Topics in Maine History. MR. WHITESIDE.
55. Problems in Asian History.
Spring 1975. Comparative Modernization (Japan and China). MR. TAM.
Fall 1975. Chinese Cultural History during the Sung and Yuan Dynasties. MR. LANGLOIS.
Prerequisite: History 35 or 36 or equivalent.
200. Independent Study. THE DEPARTMENT.

RASMUSSEN, AND SILVER; LECTURERS CURTIS AND GROBE

Requirements for the Major in Mathematics: The major consists of a coherent program of courses, reviewed and approved by the department on an individual basis. Such a program must include at least seven courses numbered above 20, except that a quantitative course from another department (e.g., **Chemistry 32**, **Economics 16**, or **Physics 37**) may be substituted for one of these. Basic courses in both algebra (e.g., **Mathematics 21**) and analysis (e.g., **Mathematics 13** or **22**) are strongly recommended for all mathematics majors. A major program should include a selection of some courses in which the emphasis is primarily theoretical, as well as courses which are useful for applications. An exceptional major who demonstrates that he is capable of intensive advanced work is encouraged to undertake an independent study project in a topic which is of personal interest or importance to him. Such an independent study receives course credit and with departmental approval may also help satisfy the major requirement.

By the beginning of his junior year, each major will submit a proposed major program for departmental approval. Although it is expected that this program may undergo changes during the junior and senior years, it is understood that these changes also require departmental approval and that despite any such revision the major program will maintain the required coherence.

Below are listed some of the courses recommended to students contemplating various careers in mathematics.

For secondary-school teaching: **Mathematics 17, 25, 5 or 26, 27, 33, 35, 36.**

For graduate study: **Mathematics 32, 35, 39**, and at least one 40-level course.

For engineering and applied mathematics: **Mathematics 22, 26, 27, 28, 29, 31, 34, 37, 38.**

For operations research, management science, and econometrics: **Mathematics 26, 27, 29, 30, 37, 38**, and **Economics 16.**

For computer science: **Mathematics 5, 26, 30, 35, 36.**

2. Topics in Mathematics. Every spring. THE DEPARTMENT.

The origins of mathematical problems, the nature of mathematical language and proof, and the purpose and applicability of abstract mathematics. One or more themes developed each semester. Recent topics have been the unity of mathematics, the theory of numbers, basic algebraic structures, topological models and graph theory, and algorithmic mathematics.

5. Introduction to Computer Programming. Every fall. THE COMPUTING CENTER STAFF.

An introduction to modern computer systems, time-sharing, and multiprogramming procedures. Program writing in BASIC to solve problems in statistics and numerical analysis. Program writing in machine language and an introduction to FORTRAN and COBOL programming. Techniques of data storage and retrieval.

10. Introduction to College Mathematics. Every fall. MESSRS. CHRISTIE AND RASMUSSEN.

An introduction to set theory and combinatorics, probability theory, linear algebra, computer programming and the PDP-10, and graph and network theory. This course, followed by **Mathematics 11** in the spring, is intended as a one-year introduction to mathematics and, as such, is recommended for those students who intend to take only one year of college mathematics. **Mathematics 10** may also be used to satisfy the prerequisites for **Mathematics 30** and the probability prerequisite for **Mathematics 37**.

11. Calculus. Every semester. THE DEPARTMENT.

Elements of differential and integral calculus.

Open to students whose secondary school courses, offered for admission to college, have included the customary training in first- and second-degree equations and inequalities, exponents and radicals, geometric progressions, the binomial theorem, the function concept, coordinate systems and graphs, and the properties of and relations among the trigonometric functions. The spring semester version includes additional topics and examples relevant to the social and life sciences.

12. Continuation of Course 11. Every semester. THE DEPARTMENT.

Additional calculus and an introduction to infinite series.

Prerequisite: **Mathematics 11** or an equivalent preparation which includes elementary analytic geometry and a thorough course in calculus.

13. Differential Equations and Intermediate Calculus. Every semester. MESSRS. CHITTIM AND JOHNSON.

Differential equations, functions of two or three variables, and geometry in three dimensions, using vectors, matrices, and complex numbers.

Prerequisite: **Mathematics 12** or equivalent.

14. Elementary Probability and Statistics. Every spring. MESSRS. RASMUSSEN AND SILVER.

Fundamental concepts of probability: experiment, outcome, event,

probability, conditional probability, independence. Combinatorics: Cartesian products, permutations and combinations, poker, and Bernoulli trials. Random variables and expectations: the mean, variance, covariance, coefficient of correlation, the laws of averages and large numbers. Descriptive statistics. Introduction to statistical decision theory.

17. Elementary Topics in Algebra. Fall 1975. MR. SILVER.

Real and complex numbers, determinants and matrices, theory of equations, divisors and prime numbers, congruences, quadratic residues, continued fractions.

Prerequisite: Two semesters of college mathematics or consent of the instructor.

21. Vector Geometry and Linear Algebra. Every semester. THE DEPARTMENT.

Vectors and matrices applied to topics in linear mathematics.

Prerequisite: A year of college mathematics or equivalent.

22. Calculus of Vector Functions. Every spring. MESSRS. CHRISTIE OR SILVER.

The differential and integral calculus of more than one variable. Vector fields; gradient, curl, and divergence; theorems of Green, Gauss, and Stokes. Applications.

Prerequisite: **Mathematics 12** and **21**, **Mathematics 13**, or consent of the instructor.

25. Number Theory. Fall 1974. MRS. GROBE.

An introduction to elementary number theory. Factorization and the notion of primes and irreducible elements in various number systems, together with the problems of unique factorization and of finding integer solutions for certain equations. Congruences and the law of quadratic reciprocity. A brief look at various number theoretic functions. Rational approximation of irrational numbers, a criterion for transcendence, and continued fractions.

26. Numerical Analysis. Every spring. MR. CURTIS.

BASIC and FORTRAN programming, solutions of systems of linear and nonlinear simultaneous equations, polynomial approximation, numerical differentiation and integration, solutions of systems of first-order differential equations. The PDP-10 time-sharing system is used extensively.

Prerequisite: **Mathematics 13** or **21** or **17** or consent of the instructor.

27. Probability. Fall 1975. MR. RASMUSSEN.

Basic probability theory; sample spaces, conditional probability; in-

dependent and dependent trials, binomial, Poisson, normal distribution. Theory of random variables; Markov chains.

Prerequisite: **Mathematics 12** or consent of the instructor.

28. Mathematical Models in Science. Fall 1974. MR. CHRISTIE.

How elementary models from analysis, algebra, geometry, topology, and probability arise naturally in science. The scientific focus of the course varies according to the interests of the instructor and students.

Prerequisite: **Mathematics 13** or **22**.

29. Graph Theory and Combinatorics. Fall 1975. MR. CHRISTIE.

An introduction to combinatorics with emphasis on graph theory and its applications: trees, blocks, coloring, matching, digraphs, duality, and networks.

Prerequisite: One year of college mathematics or consent of the instructor.

30. Linear Models. Every spring. MR. RASMUSSEN.

Techniques for solving maximization and minimization problems including linear programming and its applications to resource allocation problems, transportation problems, and the solution of 2-person zero-sum games.

Prerequisite: **Mathematics 10** or **12** or **21** or consent of the instructor.

31. Applied Analysis. Every fall. MR. CHITTIM, MR. FAY, or MR. GROBE.

The material for this course is selected from the following list of topics: the Taylor expansion, uniform convergence, Fourier series, the Laplace transform, general methods in ordinary linear differential equations, boundary value problems including the Sturm-Liouville equation and an introduction to partial differentiation equations.

Prerequisite: **Mathematics 13** or **22**.

32. Advanced Calculus. Every spring. MRS. GROBE.

An introduction to the theory of functions of one real variable. Topics include definition, completeness, and topological properties of the real numbers, sequences and series of both numbers and functions, continuity, uniform continuity, differentiability, the Riemann integral, the Riemann-Stieltjes integral, and properties of some transcendental functions.

Prerequisite: Consent of the instructor.

33. Foundations of Geometry. Fall 1974. MR. SILVER.

Euclidean and non-Euclidean geometries will be treated in the framework of Klein's Erlangen program. Topics are drawn from transformation groups and invariants, coordinatization and models, one- and

two-dimensional projective geometry and subgeometries such as affine, Euclidean metric, hyperbolic, and elliptic.

Prerequisite: **Mathematics 12**.

34. Complex Variable. Every spring. MR. CHITTIM, MR. FAY, OR MR. GROBE.

Analytic functions of a complex variable, differentiation and integration in the complex plane, theory of residues, conformal mapping.

Prerequisite: **Mathematics 13, 22**, or consent of the instructor.

35. Introduction to Algebraic Structures. Every fall. MR. JOHNSON OR MR. WARD.

Algebraic properties of number systems. Groups, rings, fields, and their homomorphisms.

Prerequisite: **Mathematics 21**.

36. Set Theory and the Foundations of Mathematics. Spring 1975. MRS. GROBE.

The foundations of mathematics, including the study of various axiom systems and their properties, axioms for the natural numbers, equivalence and order relations, ordinal and cardinal numbers, and the axiom of choice. Although there are no formal prerequisites, the student is expected to have completed at least two years of college mathematics.

37. Statistics. Fall 1974. MR. RASMUSSEN.

Introduction to the fundamentals of mathematical statistics; standard distributions such as χ^2 , point and interval estimation, small sample theory, hypothesis testing, regression and correlation, reliability theory, and analysis of variance.

Prerequisite: **Mathematics 27** is a natural prelude to **37**, but other routes are possible; instructor should be consulted.

38. Topics in Probability and Statistics. Spring 1975. MR. RASMUSSEN OR MR. SILVER.

One or more specialized topics from probability and statistics. Topics from probability include stochastic processes and measure theoretic aspects of probability. Topics in statistics could include statistical decision theory, sampling theory, and experimental design. Topics in applied probability theory that might be covered include queuing and inventory theory, reliability mathematics, and Monte Carlo techniques. The topics for spring 1975 will depend on the amount of material covered in **Mathematics 27** and **37** and the interests and preparation of the student.

Prerequisite: **Mathematics 27** or **37**.

39. Introduction to Topology. Every fall. MR. CHRISTIE OR MR. JOHNSON.

Fundamental concepts of general topology: topological spaces, con-

tinuity, separation and countability axioms, connectedness, and compactness. The geometric emphasis is made more explicit, as time permits, by a consideration of mappings, fixed points, vector fields, networks and polyhedra, curves, and surfaces.

Prerequisite: **Mathematics 13, 21, 22**, or consent of the instructor.

40. Topics in Topology. Spring 1976. MR. CHRISTIE.

One or two directions in topology are pursued with a fair degree of thoroughness, e.g., combinatorial topology, homology theory, homotopy theory, knot theory, differential topology, additional general topology, or applications of topology.

Prerequisite: **Mathematics 39** or consent of the instructor.

42. Advanced Topics in Algebra. Every spring. MR. JOHNSON OR MR. WARD.

Selection made from the following topics: rings, ring homomorphisms, ideals, polynomial rings, fields of quotients, fields, field extensions, Galois theory. Rings with minimum condition, noetherian and local rings, homology theory. Noncommutative rings. Finite and infinite abelian groups, torsion, the ring of endomorphisms of a module.

Prerequisite: **Mathematics 35**.

44. Advanced Topics in Geometry. Spring 1975. MR. SILVER.

Content of the course varies, so as to provide the student with advanced geometrical experience from the areas of algebraic geometry, classical differential geometry, or projective and metric geometry.

Prerequisites: **Mathematics 13, 22**; or consent of the instructor.

45. Advanced Topics in Analysis. Fall 1975. MRS. GROBE.

Topics include Lebesgue measure and integration and a brief introduction to Banach and Hilbert spaces.

Prerequisite: **Mathematics 32** or consent of the instructor.

200. Independent Study. THE DEPARTMENT.

1974 Summer Institute for Secondary School Teachers of Mathematics
Supported by the National Science Foundation

PROFESSOR CHITTIM, *Director*; AND ASSOCIATE PROFESSOR WARD

Course I. Topology. MR. WARD.

An introduction to the study of geometric properties that depend on continuous structure and connection, rather than on size and shape. Networks, curves, polyhedra, surfaces, three-dimensional manifolds. The concept of topological index used to treat continuous mappings and vector fields and to prove fundamental theorems on fixed points and

antipodal points. Classification of surfaces by combinatorial means, with extensions to Riemann surfaces and unbranched coverings.

Course II. Special Functions. MR. CHITTIM.

A part of advanced calculus, the course was concerned with Gamma and Beta functions, elliptic integrals, the Laplace transform, and orthogonal functions with special reference to Fourier coefficients, Legendre polynomials, Bessel functions, and the differential equations which lead to these functions.

The Experimental Course. Elementary Topological Notions. MESSRS. CHITTIM AND WARD.

A sequence of classes conducted by the institute participants for secondary school pupils chosen by teachers in the local schools. The course was concerned with elementary topology, the Königsberg bridge and other network problems, elementary graph theory, the Euler theorem on polyhedra, and coloring problems.

The Summer Institute for Secondary School Teachers of Mathematics was part of a program of *sequential* institutes. Participants were secondary school teachers who had done work of superior quality as undergraduate majors in mathematics at accredited institutions and who were ready to undertake graduate studies. Successful completion of work in four Bowdoin Summer Institutes led to the award of the degree of master of arts.

Music

PROFESSOR BECKWITH, *Chairman*; VISITING PROFESSOR MELLERS; ASSOCIATE PROFESSOR SCHWARTZ; VISITING ASSOCIATE PROFESSOR DUNSCOMBE; ASSISTANT PROFESSOR CALDWELL; VISITING INSTRUCTOR PALMER

Requirements for the Major in Music: The required courses are **Music 11, 12; 21-22; 31-32;** and three semester courses chosen with the approval of the department, except that **Music 1** does not satisfy this requirement and either **Music 2** or **5** but not both may count. Students planning to continue the study of music in graduate school should complete the theory sequence through **Music 14** and demonstrate facility at the keyboard. Any student planning to major in music should take **Music 11, 12** by the sophomore year if possible.

The departmental offerings and the requirements for the major in music are so designed that a very broad course of study is possible, well within the liberal arts tradition. It is also possible to follow more specialized programs, with emphasis on theory, history or applied music, if further professional study is contemplated.

All students majoring in music are expected to participate in at least one performing ensemble which rehearses weekly.

1. Introduction to Music. Every fall. MR. BECKWITH.

For students with little or no previous training in music. Ability to read music or play an instrument is not necessary. The essentials of music—sound and time—are studied as they have been used in different periods and in the context of musical forms. Listening materials are drawn from a variety of sources: early Western music, Western music from the baroque through romantic eras, twentieth-century music, and music of non-Western cultures.

[2. Contemporary Music.]

3. Studies in Music Literature: Opera. Fall 1974. MR. DUNSCOMBE.

A study of the masterworks of opera from the baroque period to the present. Individual works are approached through historical perspective, listening, selected readings, and lectures. The ability to read music, although not a prerequisite, is helpful.

4. Studies in Music Literature: Afro-American Music. Spring 1975. MR. PALMER.

An examination of the social implications of Afro-American music with emphasis on form, methods of composition, lyrics, and verse structure. Forms considered include field hollers, work songs, folk and sentimental ballads, spirituals, gospels, and the blues.

5. Electronic Music. Spring 1975. MR. SCHWARTZ.

A study of compositional procedures using electronic means. Some consideration will be given to current as well as classical styles and concepts. Students will work in the electronic music studio and create their own works.

6. Musica Poetica: The Origins of Music. Spring 1975. MR. MELLERS.

The origins of music, mostly in oral traditions, from body movement and speech with reflections on the relationships of music, ritual, and theater. Material studied includes primitive music, children's games, European folk music, religious ritual, and contemporary works by Cage, Partch, Orff, Britten, and others.

11, 12. Elementary Materials of Music. Every year. Fall 1974. MR. BECKWITH. Spring 1975. MR. SCHWARTZ.

Elementary harmony, counterpoint, ear training, and analysis, primarily of eighteenth- and early nineteenth-century music. Some composition in free style, as well as an elementary study of different approaches to the organization of sound and time from about 1600 to the present. There are three class hours plus two laboratory hours weekly.

13. Advanced Materials of Music I. Fall 1974. MR. BECKWITH.

A continuation of **Music 11, 12** with the addition of strict composition. There are three class hours plus two laboratory hours weekly.

Prerequisite: **Music 11, 12** or equivalent.

[14. Advanced Materials of Music II.]**16. Late Piano Sonatas of Beethoven.** Spring 1975. MR. MELLERS.

Includes performance where possible, with special reference to opuses 2, 109, 110, and 111, and the "Moonlight" and "Appassionata" sonatas. *Suggested for all music majors.*

Prerequisite: **Music 11, 12** or equivalent.

***21-22. Music History and Literature.** 1975-1976. MR. CALDWELL.

Intended primarily for majors in music, but open to other qualified students. The ability to read music is required.

Prerequisite: **Music 11, 12** (previous or concurrent) or equivalent.

24. Orchestration. Fall 1974. MR. DUNSCOMBE.

Transcription, arrangement, and free composition for ensembles of stringed, woodwind, and brass instruments, voice(s) and piano, the primary aim being that of effective instrumentation. Intensive study of orchestral and chamber scores, drawn from the music literature.

Prerequisite: **Music 11, 12** or equivalent.

26. Composition. Spring 1976. MR. SCHWARTZ.

Free composition for the ensemble combinations cited previously in **Music 24**, with the emphasis upon creative work in the more traditional forms (rondo, variation, sonata-allegro) and a variety of experimental techniques.

Prerequisite: **Music 11, 12** or equivalent.

***31-32. Form and Analysis.** 1974-1975. MR. CALDWELL.

A year course in the study of form and composition technique, intended primarily for majors in music.

Prerequisite: **Music 11, 12** or consent of the instructor.

Applied Music and Ensemble

Not more than six credits of applied music and ensemble courses together may be taken for graduation credit. For administrative purposes applied music and ensemble study will bear one of the course numbers 51, 52, . . . 58; 61, 62, . . . 68, depending on the number of semesters of such work the individual student has taken.

Instructors: Marion Anderson (organ), Anthony Boffa (guitar), Naydene Bowder (piano), Eloise Caldwell (voice), Keith Carreiro (guitar), Donna Dunscombe (voice), Harry Dunscombe (cello), William Eves (piano), John

Ferris (organ), Bradford M. Harnois (guitar), Ronald Lanz (violin), Roger Nye (voice), Burchard Tainter (clarinet), Calvin Torrey (trumpet), David Whiteside (flute), Andrew Wolf (piano).

51-58. Applied Music. Every year.

The following provisions govern applied music:

1. Applied music courses are intended for the continued study of an instrument with which the student is already familiar. Students may enroll only with the consent of the department. Students should plan to take at least two semesters because study on an instrument for less than two semesters is normally not sufficient for a meaningful educational or musical experience.

Admission is by audition only. Only students who are intermediate or beyond in the development of their skills are admitted.

At the end of the first year each student is critically reviewed by members of the department. Permission to continue is granted on the basis of seriousness of intent, attendance, rate of progress, etc.

At the end of the fourth semester each student is again reviewed critically. Only exceptional students are granted permission to continue beyond this point. Musicianship, talent, and general stage of development are the important factors. The same applies to the end of the sixth semester. At the end of the sixth and eighth semesters a student is expected to present a formal public recital of at least forty-five minutes duration.

During the first four semesters a student is expected to perform in public with reasonable frequency. The student may be called upon to play for the music faculty from time to time.

2. Half credit is granted for each semester of study.

3. The student pays a fee of \$100.00 for each semester of study. In some cases the student may have to travel off campus to receive instruction. Instruction is offered as available on orchestral and chamber instruments for which a significant body of written literature exists. Normally, instruction is available in flute, oboe, clarinet, bassoon, trumpet, trombone, violin, viola, cello, harpsichord, organ, piano, guitar, and voice.

61-68. Ensemble. Every year.

The following provisions govern ensemble:

1. Ensemble music courses are intended to provide a student with experience in group music making. Students are admitted to an ensemble class only with the consent of the department and, for those enrolled in chamber ensembles, upon the formation of a specific chamber group.

2. Half credit is granted for each semester of study.

3. Ensembles will include at least the following: Section 1, Orchestra; section 2, Glee Club; section 3, Chamber Ensembles, both vocal and in-

strumental; section 4, Contemporary Improvisation Ensemble (offered only in the spring semester); section 5, Chorale.

4. Grade will be pass or fail. For orchestra and choral groups, the course should be considered a year course for the first two semesters; for chamber ensembles and the contemporary improvisation ensemble, all courses should be considered semester courses.

5. Ensembles meet regularly for a minimum of two hours weekly. Chamber ensembles are offered only as instruction is available.

6. Each ensemble will perform in public.

200. Independent Study. THE DEPARTMENT.

1974 Summer School of Music

PROFESSOR BECKWITH, *Director*; LEWIS KAPLAN, *Music Director* (violin and viola); MARTIN CANIN (piano); ERICH GRAF (flute); THOMAS HILL (clarinet); JACK MAXIN (piano); CHANNING ROBBINS (cello); RONALD THOMAS (cello); DAVID WHITESIDE (flute)

The curriculum is designed to develop the musicianship, technique, and sense of style of young preprofessional instrumentalists. The program consists of an individually designed schedule of private instruction, chamber ensemble coaching and rehearsals, master classes, and performances at the student recitals.

Instrumental students devote proportionally more time to their individual studies, while chamber music students devote proportionally more of their time to ensemble work and do not receive as much private instruction.

Upon request, credit, equivalent to one semester course, is granted.

1975 Summer School of Music (Proposed)

See announcement for 1974 Summer School of Music.

Philosophy

PROFESSOR POLS, *Chairman*; PROFESSOR MCGEE; ASSISTANT PROFESSORS CORISH AND LIMPER

Requirements for the Major in Philosophy: The major consists of six courses approved by the department. The six must include **Philosophy 11, 12**; at least one from the group 21, 24, 25; and 31. **Philosophy 1** may not be counted for the major.

1. Introductory Seminars. Every semester.

Open primarily to freshmen, this course is in three seminar sections, each devoted to a separate topic. Enrollment limited to about twenty a

section. Upperclassmen are admitted with the consent of the instructor, but freshmen are given priority for the available places. Topics change from time to time but are restricted in scope and make no pretense at being an introduction to the whole field of philosophy. They are in all cases topics in which contemporary debate is lively and as yet unsettled and to which contributions are being made by more than one field of learning. (Although the course may be taken more than once with a changed topic, in the spring priority is given to freshmen who did not take the course in the fall.)

c. Mind and Body. Spring 1975. MR. POLS.

An examination of the contemporary controversy about the nature of the mind. Materialistic, behavioristic, and other "reductionistic" claims that intelligence can be understood in terms of neural physiology and "intelligent" machines (computers and similar automatons) are contrasted with claims that consciousness plays an indispensable role in human intelligence and cannot be exhaustively understood in terms of the machine image. Scientific and philosophical arguments on both sides of the question are examined, and the relevance of the controversy to the current cultural crisis is brought out.

d. Free Will. Fall 1974. MR. CORISH.

An examination of the concept of free will and of the arguments for and against the existence of free will in man. Literary and philosophical sources, both historical and contemporary, constitute the background reading for a course largely directed towards class discussions.

e. Value and Science. Fall 1974. MR. LIMPER.

An examination of some ideas and issues concerning the relation of science and value. Topics include possible value implications of science as a world view, as a body of knowledge and technique, and as a human activity. Some questions to be considered: whether science is neutral as to value or whether it does or should involve value commitments; whether there is a dichotomy between scientific and humanistic viewpoints. Consideration given to some of the specific value issues raised by certain contemporary developments in science and technology.

3. Logic and Formal Systems. Spring 1976 and spring 1978. MR. CORISH.

Treatment of the principles of valid inference. After a consideration of the traditional approach, including the syllogism, modern techniques for representing arguments and logical truths are presented. A survey of the structure of deductive systems and their use in science is then made.

4. Logic and the Limits of Language. Fall 1975 and fall 1977. MR. MCGEE.

Recognition of principles implicit in ordinary English is achieved through individual practice in searching for meanings and estimating

evidence, in distinguishing demonstration from mere assertion and plausible persuasion, in constructing valid arguments and trying to follow the ways of paradox, in testing differences between expressions of experience and claims to knowledge. This practice goes beyond the performance of exercises set for the course to a kind of field-work in ordinary language, each student analyzing and evaluating examples of discourse he has collected from a variety of outside sources.

5. Introduction to Existentialism. Spring 1975. MR. LIMPER.

The ideas of major nineteenth- and twentieth-century existentialist thinkers, including Kierkegaard, Nietzsche, Heidegger, and Sartre, concerning such topics as freedom, anxiety, death, the distinctive nature of human existence, and the possibility of authentic individuality. Some attention will be paid to religious aspects of existentialism.

6. Literature As Philosophy. Spring 1976 and spring 1978. MR. MCGEE.

After a presentation of the explicitly philosophical background of the literary works to be studied, the philosophic life-attitudes expressed in them are examined to determine their adequacy as philosophy and their relevance to conduct. Maximum student participation is sought, and during much of the course seminar techniques are employed. The literature varies from time to time but always includes one major contemporary work and one major older work. In 1976 some of the following authors will be studied: James Baldwin, Beckett, Camus, Gide, Kafka, Pirandello, James, Mann, Woolf, Dostoevski, Lucretius, Dante, and Goethe.

[9. Philosophy of Art.]

11. Major Philosophers of the West: Beginnings to Christianity. Fall 1974. MR. POLS. Fall 1975. MR. CORISH.

The sources and prototypes of Western thought. Concentration on Plato and Aristotle, but some attention is given to the pre-Socratic philosophers who influenced them and to the Stoics and Epicureans. Medieval philosophy is more briefly considered, to show the interaction of Christianity and Greek thought.

12. Major Philosophers of the West: Renaissance to Idealism. Spring 1975. MR. CORISH. Spring 1976. MR. POLS.

Some attention given to the philosophic grounds of the scientific revolution and to the intellectual and moral response the new scientific view of the world evoked from the philosophers. Reading in five or six of the following: Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

Prerequisite: **Philosophy 11.**

21. Morality and the Individual. Spring 1976 and spring 1978. MR. MCGEE.

Various types of answers to the questions "What is right for me to

do?", "What ought to be done?", and "What is the good for man?" are traced to their philosophic bases in historical and contemporary sources. The justification these bases provide is critically discussed and some possible meanings of statements used to answer questions in morals are made explicit and compared.

Prerequisite: **Philosophy 11, 12.**

24. Metaphysics. Fall 1975 and fall 1977. MR. POLS.

A study of the claim that man can achieve knowledge of ultimate reality and found his own self-knowledge upon it; of the counterclaim that knowledge is restricted by its nature to science and to the common-sense world; and of contemporary attempts, by a radical reexamination of the nature of man's reason, to reassert wider claims for it. The significance of this whole dispute for our conception of human nature is central to the course. Substantive metaphysical issues with an important bearing on the problem of human nature, such as time, free will, and mechanistic *vs.* teleological explanation, accordingly receive especial attention. The reading is largely contemporary.

Prerequisite: **Philosophy 11, 12.**

25. The Nature of Scientific Thought. Spring 1975. MR. CORISH.

A historical and methodological study of scientific thought as exemplified in the natural sciences. Against a historical background ranging from the beginnings of early modern science to the twentieth century, such topics as scientific inquiry, hypothesis, confirmation, scientific laws, theory, and theoretical reduction will be studied. The readings will include such authors as Burt, Butterfield, Duhem, Hempel, Koyré, Kuhn, Nagel, Poincaré, Popper, Toulmin, as well as classical authors such as Galileo, Descartes, Newton, Berkeley, and Leibniz.

Prerequisite: **Philosophy 11, 12** or consent of the instructor.

31. Advanced Seminar in Philosophy.

a. The Analytic Movement. Fall 1974. MR. POLS.

A chronological treatment of selected topics in twentieth-century analysis, beginning with Russell's logical atomism and ending with Wittgenstein's *Philosophical Investigations* and its influence. Readings will be drawn from the following group: Russell, G. E. Moore, Wittgenstein, Ayer, Ryle, Strawson.

Prerequisite: **Philosophy 11, 12.**

b. Topics in Medieval Philosophy. Fall 1974. MR. CORISH.

An examination of some fundamental medieval views concerning man and his environment. Special attention paid to the Aristotelian worldview as made over to Christian specifications, and to its decline in favor of the modern scientific view of man and the world.

Prerequisite: **Philosophy 11, 12** or consent of the instructor.

c. **Hegel and His Influence.** Spring 1975. MR. LIMPER.

A detailed study of Hegel as the leading exponent of nineteenth-century idealism, together with a less detailed study of his influence on Marx and on certain other nineteenth- and twentieth-century figures.

Prerequisite: **Philosophy 11, 12.**

d. **Contemporary Action Theory.** Spring 1975. MR. POLS.

An examination of some contemporary views, some analytic, some not, on human nature viewed from the perspective of action. Some topics to be considered: conflicting views of the explanation of action, or "behavior"; causality and freedom; the contrast between supposed reasons for action and supposed causes of action.

Prerequisite: **Philosophy 11, 12.**

200. **Independent Study.** THE DEPARTMENT.

Physics and Astronomy

ASSOCIATE PROFESSOR HUGHES, *Chairman*; PROFESSOR LACASCE; VISITING PROFESSOR DORAIN; ASSOCIATE PROFESSOR TURNER; ASSISTANT PROFESSOR BOHAN; TEACHING ASSISTANT CURRIER

Requirements for the Major in Physics: The major program in physics depends to some extent on the student's goals. Those who intend to do graduate work in physics or engineering should take **Physics 31, 32** and at least one other upper-level physics course. In addition to the required courses, upper-level mathematics and **Chemistry 31, 32** should also be considered. A major student with an interest in an interdisciplinary area should choose appropriate courses. For biophysics, the program should include organic and physical chemistry, biochemistry, and cell physiology. Geophysics and oceanography programs should include geology and physical chemistry. A student interested in secondary school teaching should seek a broad base in science courses as well as the courses necessary for a teacher's certificate. For a career in industrial management, some courses in economics and government should be included.

In any case, a total of six courses above the level of **Physics 17-Chemistry 18** is required. Students interested in an interdisciplinary area may, with permission, substitute courses from other departments.

1. **The Development of Astronomy.** Fall 1974. MR. HUGHES.

A qualitative discussion of the origins and development of astronomy from the earliest times to the present.

2. **Contemporary Astronomy.** Fall 1975. MR. HUGHES.

A qualitative discussion of the nature of stars and galaxies, stellar

evolution, the origin of the solar system and its properties, and the principal cosmological theories.

3. Physics of the Twentieth Century. Fall 1974. MR. BOHAN.

A nontechnical course treating physics and physicists and their interactions with contemporary society. The focal points used for this treatment are the Manhattan Project and the Oppenheimer case. In addition, the topics of revolution in science and how physics is "done" are discussed, and the qualitative features of the Special Theory of Relativity and the Quantum Theory are presented.

17. The Physical Properties of Matter. Every semester. THE DEPARTMENT.

A discussion of the fundamental laws governing the behavior of matter, including mechanics, electricity, and the structure of atoms and molecules. This course and **Chemistry 18** constitute the introductory program for students planning advanced work in science.

Prerequisite: Previous credit or concurrent registration in **Mathematics 11**.

21. Theoretical Physics. Every fall. Fall 1974. MR. BOHAN.

To provide a framework for interpreting and unifying the present experimental knowledge in physics, selected areas from five great theories in physics—classical mechanics, relativity, electricity, quantum mechanics, and statistical mechanics—are examined. Calculus is used to formulate physical models and concepts.

Prerequisites: **Physics 17-Chemistry 18** and previous credit or concurrent registration in a mathematics course above **Mathematics 12**.

22. Continuation of Course 21. Every spring. Spring 1975. MR. TURNER.

Prerequisite: **Physics 21**.

23. Electronic Circuits. Every fall. MR. TURNER.

Linear network theory, including the analysis of DC and AC circuits, both passive and active, and the principles of feedback. Laboratory work stresses the fundamentals of electronic instrumentation and measurements. Additional topics selected from the following: behavior of electron tube and semiconductor devices, transients in linear circuits, diode circuits and rectifiers, Fourier series, modulation and demodulation, pulse and digital circuits, energy conversion.

Prerequisites: **Physics 17-Chemistry 18** and **Mathematics 12**.

24. Solid State Electronics. Every spring. MR. TURNER.

Quantum theory and statistical mechanics are used to explain the transport properties of solids and junctions between solids, leading to a deeper understanding of the behavior of transistors and integrated circuits. General principles of transistor amplifier circuits and linear inte-

grated circuits are presented and the student is introduced to binary and logic circuits, including digital integrated circuits and modern computer circuitry. Laboratory exercises with linear amplifiers and digital circuits.

Prerequisite: **Physics 23**.

25. Topics in Physics. Every fall.

Investigation into an area of interdisciplinary work.

Fall 1974. **Sound or Noise: Problems in Acoustics.** MR. LACASCE.

A discussion of the basic physics of sound waves, followed by applications to several areas, including acoustics and hearing.

Prerequisites: **Physics 17-Chemistry 18** and **Mathematics 12**.

26. Biophysics. Every spring. MR. HUGHES.

An introduction, including discussion of the effects of ionizing radiation on cells and tissues, the application of X-ray diffraction methods to biological problems, and other modern topics. Some attention is given to historical aspects of the subject and to the development of devices such as the electron microscope.

Prerequisite: **Physics 17-Chemistry 18**.

27. Optical Measurement Techniques. Spring 1975. MR. LACASCE.

Optical instruments and methods are used in many fields of physics and in other disciplines. An understanding of the physical principles associated with the instrumentation and techniques provides the basis for more effective measurements. A summary of geometrical optics is followed by a study of wave propagation and its relation to coherence, interference, and diffraction. The laboratory work provides experience with particular instruments or topics.

Prerequisites: **Physics 17-Chemistry 18** and **Mathematics 12**.

31. Atomic Physics. Spring 1975. MR. BOHAN.

Relativity and the quantum theory with applications to atomic and nuclear systems and to elementary particles. There is a laboratory of selected modern physics experiments associated with the course.

Prerequisites: **Mathematics 13** and either **Physics 21** or **23** or consent of the instructor.

32. Electromagnetic Theory. Fall 1974. MR. LACASCE.

First the Maxwell relations are presented as a natural extension of basic experimental laws, then emphasis is given to the radiation and transmission of electromagnetic waves.

Prerequisites: **Mathematics 13** and either **Physics 21** or **23**.

[34. Optics.]

35. **Solid State Physics.** Fall 1974. MR. TURNER.

A discussion of the Physics of Solids, including Crystal structure, band theory, and other important topics.

Prerequisite: **Physics 22** and **31** or consent of the instructor.

37. **Advanced Mechanics.** Spring 1975. MR. HUGHES.

Development of Lagrange's techniques and Hamilton's equations. Applications to selected topics.

Prerequisite: **Physics 21** or **22**.

200. **Independent Study.** THE DEPARTMENT.

Programs of study for general relativity; astrophysics, including solar physics; cosmology; the physics of thin films; biophysics and magnetic resonance are available. Work done in these topics can serve as the basis for an honors paper. If the investigations concern the teaching of physics, this course satisfies certain of the requirements for the Maine State Teacher's Certificate.

Psychology

PROFESSOR FUCHS, *Chairman*; ASSISTANT PROFESSORS CHAPKO AND SMALL;
VISITING LECTURER DUTCH; AND MR. PESKAY

Requirements for the Major in Psychology: The major comprises **Psychology 1, 3, 11, 12, 13, 15**, and two additional courses chosen from the remaining offerings. Students considering a major should consult with the department regarding course selection, since there is no fixed sequence of courses. The department does recommend, however, that **Psychology 11** and at least two of the three required laboratory courses (**Psychology 12, 13, and 15**) be taken no later than the junior year. During the senior year majors are encouraged to engage in independent study on a library, laboratory, or field research project. Proposals for reading courses in areas in which the department has no formal offering may also be considered under independent study.

Students who are interested in teaching as a career should consult with the Department of Education for courses to be included in their undergraduate program. Ordinarily, students of education will find much of relevance in **Psychology 7, 17, and 12**; these courses cover the topics usually included in educational psychology. In addition, the prospective teacher may find **Psychology 3, 6, 8, and 10** compatible with his interests and helpful in his preparation for teaching.

1. **Introduction to Psychology.** Every semester. THE DEPARTMENT.

The basic psychological principles, concepts, theories, and methods of investigation in psychology. Lectures and laboratory work each week.

3. Personality. Every fall. MR. PESKAY.

A survey of theoretical and empirical attempts to understand normal behavior. Psychoanalytic, trait and type, cognitive and motivational, and learning theories will be considered in relation to research results.

Prerequisite: **Psychology 1.**

4. Abnormal Personality. Every spring. MR. PESKAY.

A general survey of the nature, etiology, diagnosis, and treatment of common patterns of personality disorganization and psychosocial deviance.

Prerequisite: **Psychology 3** or consent of the instructor.

6. Social Psychology. Every spring. MR. CHAPKO.

Social influences on the development and modification of individual behavior. Topics include affiliation, person perception, aggression, small groups, conformity, attitudes, and altruism. The first half of the course will be a survey of social psychology. In the second half, students will pursue a topic of personal interest.

Prerequisite: **Psychology 1.**

7. Developmental Psychology. Every fall. MRS. SMALL.

Topics include the development of various capacities in children—such as motor, perceptual, language, and cognition—and the development of personality and socialization. Where appropriate, such theoretical traditions as American S-R, psychoanalytic, and the epistemological approach of Piaget are contrasted. A weekly practicum with preschool and/or elementary school children.

Prerequisite: **Psychology 1** or consent of the instructor.

8. Adolescence. Alternate years. Spring 1976. MR. PESKAY.

Consideration in lecture, discussion, and field research of the various physical, personal, and social changes which occur during adolescence.

Prerequisite: **Psychology 1.**

10. The Atypical Child. Alternate years. Spring 1975. MR. PESKAY.

A general survey of the diagnosis, treatment, and education of atypical (retarded, gifted, handicapped, disturbed) children.

Prerequisite: **Psychology 7** or consent of the instructor.

11. Statistical Methods for the Behavioral Sciences. Every fall. MR. CHAPKO.

An introduction to the use of descriptive and inferential statistics in behavior research. Required of majors no later than the junior year.

Prerequisite: **Psychology 1** or consent of the instructor.

12. Experimental Psychology: Learning. Every spring. MR. FUCHS.

An analysis of research methodology and results of investigations of

learning and memory. Laboratory work, including the planning and execution of an original experiment.

Prerequisite: **Psychology 11**.

13. Experimental Psychology: Perception. Every fall. MRS. SMALL.

Laboratory investigation and analysis of sensory and perceptual processes in human behavior.

Prerequisite: **Psychology 11**.

15. Research in Personality and Social Psychology. Every fall. MR. CHAPKO.

Approaches to and problems of conducting both laboratory and field research in personality and social psychology. Laboratory and field work.

Prerequisites: **Psychology 3 or 6, and 11. Psychology 11** may be taken concurrently.

17. Psychological Assessment. Alternate years. Fall 1975. MR. PESKAY.

Theory and practice in the clinical application of techniques of personality and intellectual assessment. The design, administration, scoring, and interpretation of psychological tests are the foci of this lecture-laboratory course.

Prerequisite: **Psychology 11** or consent of the instructor.

19. Clinical Psychology. Alternate years. Fall 1974. MR. PESKAY.

The development of clinical psychology and its present and future characteristics. Emphasis on fundamental concepts and controversies, methodological and ethical aspects of a variety of psychotherapies, research findings, and problems rather than on specific clinical instruments.

Prerequisite: **Psychology 3, 4, or consent of the instructor.**

22. Systematic Psychology. Alternate years. Spring 1976. MR. FUCHS.

The historical and theoretical backgrounds of modern psychology, especially the chief systems of psychology, including behaviorism, Gestalt theory, and psychoanalysis.

Prerequisite: **Psychology 1** or consent of the instructor.

24. Topics in Psychology. Every spring. THE DEPARTMENT.

A seminar in a special topic in psychology.

Fall 1974. **Comparative Psychology.** MRS. SMALL, MR. FUCHS, AND MR. HUNTINGTON (Biology).

Comparative analysis of animal behavior. Special emphasis on evolution, innate behavior, perception, early experience, group behavior, and learning.

Prerequisites: **Psychology 1** or **Biology 11**, and consent of the instructors.

Spring 1975. **Environmental Psychology.** MR. CHAPKO.

Topics include urban stress, noise, crowding, population control, personal space, and environmental and architectural planning.

Prerequisite: **Psychology 1** or consent of the instructor.

26. Issues in Psychology. Every spring. THE DEPARTMENT.

A seminar devoted to the analysis of research issues in psychology.

Spring 1975. **Research and Theory in Learning and Motivation.** MR. DUTCH.

An assessment of research methods, results, and theories in the experimental analysis of learning and motivation. Particular attention given to research with animals.

200. Independent Study. THE DEPARTMENT.

Religion

PROFESSOR GEOGHEGAN, *Chairman*; ASSOCIATE PROFESSOR LONG; VISITING ASSOCIATE PROFESSOR WILLIAMS; AND ASSISTANT PROFESSOR McDERMOTT

Requirements for the Major in Religion: The major consists of eight courses in religion approved by the department. The introductory courses, **Religion 11** and **12**, should be taken not later than the sophomore year.

11. History of Religions I. Fall 1974. MR. GEOGHEGAN.

A survey of modes of inquiry in religion and a comparative and historical study of the major living religions of Far Eastern origin: Taoism, Confucianism, Hinduism, and Buddhism. Consideration given to some primitive and smaller religions and to a general comparison with Western religion. Lectures, discussions, and readings in basic scriptures and modern interpretations.

12. History of Religions II. Spring 1975. MR. GEOGHEGAN.

A comparative study and historical survey of major religious traditions of Near Eastern origin: Judaism, Zoroastrianism, Christianity (particularly Catholicism and Protestantism), and Islam. Consideration given to a general comparison with religion of non-Western origin. Lectures, discussions, and readings in classic texts and modern interpretations of the traditions.

13. Religions in America I. Fall 1974. MR. WILLIAMS.

American interpretations of religion (William James, Henry Adams, Reinhold Niebuhr). History, progress, reform, revival, restoration, and community as themes in American Protestantism. Cultural conflict and assimilation in Catholicism, Judaism, and black religions. Popular, civil, and Eastern religions in America.

14. Religions in America II. Spring 1975. MR. WILLIAMS.

Indigenous and semi-indigenous American religious movements, including Unitarianism, Mormonism, Christian Science, the Society of Friends, Fundamentalism, and the Black Muslims.

15. Hinduism. Fall 1974. MR. McDERMOTT.

The roots of Hinduism in Vedic tradition. The development of classical and contemporary systems of Hindu religion and thought. The relationship between Hindu religious values and the wider range of India's cultural life. Consideration of ritual, practice, sects, and Hindu spiritual paths. Readings, in translation, range from some Vedic hymns to the classical philosopher-theologians (Śankara, Rāmānuja, etc.) and contemporary Hindu writings.

16. Buddhism. Every spring. MR. McDERMOTT.

Buddhist origins and development in India; the spread of the religion to East and Southeast Asia; and its interaction with indigenous religions. Consideration of "folk Buddhism," contemporary manifestations of Buddhism, and of such sects as Zen and Tantrism. Readings largely from the Canon and other sacred texts of Buddhism in translation.

17. Religions of China. Fall 1974. MR. McDERMOTT.

Native Chinese traditions: Shamanism, Confucianism, Taoism, "The Hundred Schools," and the cult of ancestors. Neo-Confucianism as a state cult. The Sinification of Buddhism. The contemporary religious situation in the People's Republic. Particular attention to the interaction between the "Great," or philosophical, tradition and folk religion. Readings largely from primary sources in translation, ranging from the Chinese classics to the thoughts of Chairman Mao.

19, 20. Topics in Religion.

The study of a topic in religion of comparatively limited scope, such as one or two individuals of major importance or a community of significance; a movement, type, concept, problem, period, or theme. Topics will be changed from time to time, and the courses may consider contributions from related fields.

Topic courses may be repeated for credit with contents changed.

Prerequisites, if any, are determined by the instructor.

19, 1. Mysticism. Fall 1974. MR. GECHEGAN.

Consideration of the question, What is mysticism? by an examination of writings from a wide variety of sources by and about persons generally regarded as mystics. Special attention given to basic forms such as pantheistic, theistic, naturalistic, and humanistic as found in authors such as Stace, Zaehner, A. Huxley, W. James, Otto, Naranjo, and Ornstein.

Specific topics may include mystical elements not only in classics of religion and theology but also in philosophy, psychology, literature, the arts, nonreligious and popular forms, and in relation to other altered states of consciousness. Primarily for juniors and seniors. The course will be conducted as a seminar.

Prerequisite: Consent of the instructor.

19, 2. Religious Dimensions of American Literature. Fall 1974. MR. WILLIAMS.

Religious themes such as transcendence, the Millennium, and the Golden Age in selected American literary works, with emphasis on nineteenth-century New England. Authors include Melville, Hawthorne, Longfellow, Stowe, Henry James, Henry Adams, and T. S. Eliot. Primarily for juniors and seniors, but open to sophomores with consent of the instructor.

20, 1. Existentialism. Spring 1975. MR. GEOGHEGAN.

Consideration of the question, What is existentialism? through critical study of writings by and about persons commonly regarded as existentialists; including a current restatement of major themes, a survey of major thinkers (e.g., Kierkegaard, Nietzsche, Jaspers, Heidegger, Sartre, Marcel, etc.), and examples of influential writings. Primarily for juniors and seniors. The course will be conducted as a seminar.

Prerequisite: Consent of the instructor.

20, 2. Popular Religions of New England. Spring 1975. MR. WILLIAMS.

Focus on eighteenth- and nineteenth-century phenomena such as the Great Awakenings, Universalism, Spiritualism, Christian Science, and ethnic Catholicism. Some attention will be given to methodology and research techniques. Primarily for juniors and seniors, but open to sophomores with consent of the instructor.

21. Hebraic and Judaic Origins. Fall 1975. MR. LONG.

Hebrew literature and religion in their historical and cultural context with attention to the community which laid the foundations for Judaism. Lectures, discussions, and readings in the scriptures along with contemporary interpretations.

22. Christian Origins. Spring 1976. MR. LONG.

Christian literature and religion in their historical and cultural context with attention to the community which gave shape to Christianity. Lectures, discussions, and readings in the New Testament along with contemporary interpretations.

24. Prophetism and Religion. Spring 1976. MR. LONG.

A study of prophetism as a religious phenomenon with attention to

Israelite prophecy. Analysis and discussion of biblical texts and those of other religions along with contemporary interpretations.

31. Religious Thought I: Ancient and Medieval Western Religious Thought.

Fall 1975. MR. GEOGHEGAN.

A study of the philosophy of religion and theology—especially the central questions of the nature and existence of God, the nature and destiny of man, faith and reason, the problem of evil, etc.—by means of a critical examination of the development of Western religious thought from its beginnings through the Middle Ages, with special attention to a contemporary restatement of the tradition and to the presuppositions, methods, conclusions, and influence of the thought of Augustine and Aquinas. Lectures, discussions, and readings in basic writings and contemporary interpretations.

32. Religious Thought II: Modern and Contemporary Religious Thought.

Spring 1976. MR. GEOGHEGAN.

A study of the philosophy of religion and of theology—especially the central questions of the nature and existence of God, the nature and destiny of man, faith and reason, the problem of evil—by means of a critical examination of the development of Western religious thought from the early modern period to the present, with special attention to Protestant origins; religion and the rise of modern science; enlightenment criticism of traditional theology in Hume and Kant; conflict between Kierkegaard and Hegel; Schleiermacher and his influence; religious humanism and naturalism (Whitehead); neo-orthodoxy in Niebuhr and Barth; and religious existentialism in Bultmann, Tillich, and Berdyaev. Lectures, discussions, and readings in basic writings and contemporary interpretations.

34. Religious Thought IV: Methodologies in the Study of Religions.

Spring 1975. MR. McDERMOTT.

The various ways of interpreting religion as a phenomenon in human life. An analysis of the historical particularity and the structural universality of religious patterns of meaning. Selected works of such authors as Durkheim, Eliade, Freud, Jung, and van der Leeuw are considered. Illustrative material taken from traditional religions of Africa, the Pacific islands, and the American Indians.

Open to sophomores and upperclassmen, and to freshmen with consent of the instructor.

200. Independent Study. THE DEPARTMENT.

Romance Languages

PROFESSOR GEARY, *Chairman*; ASSOCIATE PROFESSORS BROGYANYI, NUNN,
AND THOMPSON; ASSISTANT PROFESSOR TURNER; AND TEACHING
FELLOWS DOREY AND PONGE

Requirements for the Major in Romance Languages: The major may consist entirely of either French or Spanish courses, or it may involve a combination of French, Italian, and Spanish courses. Eight courses are required for the major, of which not more than two may be courses of independent study. All courses more advanced than **French** or **Spanish** 4 or **Italian** 3 may be counted toward the major.

Prospective majors are expected to have completed **French** or **Spanish** 9, 10—the usual prerequisite for advanced literature courses—by the end of the sophomore year. Those who plan to attend graduate school or to teach should take **French** or **Spanish** 5, 6. Students who intend to qualify for admission to a junior year abroad program should complete **French** or **Spanish** 5, 6, **French** or **Spanish** 9, 10, or **Italian** 3, 4 by the end of the sophomore year.

French

1, 2. Elementary French. Every year. MR. GEARY.

Study of the basic forms, structures, and vocabulary. Emphasis on listening comprehension and spoken French. During the second semester, some stress is placed on reading. There are regular language laboratory assignments.

3. Intermediate French I. Every fall. MR. NUNN.

Intensive review of grammar. Emphasis on the reading of prose. Three class hours a week and regular language laboratory assignments.

Prerequisite: **French** 2 or appropriate score on a placement test set by the department at the start of the fall semester.

4. Intermediate French II. Every spring. MR. NUNN.

Reading and speaking French, with emphasis on vocabulary building and increased fluency. Oral work with the French teaching fellow.

Prerequisite: **French** 3 or appropriate score on a placement test set by the department at the start of the fall semester.

5. Third-Year French I. Every fall. MR. GEARY.

Reading of selected plays of Ionesco and Anouilh. Emphasis on close analysis, especially through discussion in French and *explication de texte*. Oral presentations with the French teaching fellow.

Prerequisite: **French** 4 or appropriate score on a placement test set by the department at the start of the fall semester.

6. Third-Year French II. Every spring. MR. GEARY.

Aims to develop fluency in spoken and written French. Exercises based on selected plays of Giradoux and Montherlant. Oral presentations with the French teaching fellow.

Prerequisite: **French 5** or appropriate score on a placement test set by the department at the start of the fall semester.

9. Introduction to French Literature I. Every fall. MR. BROGYANYI.

Close reading of selected poetry, with extensive reading and discussion of outstanding works from the major genres. Beginning with the Renaissance, the following works are studied: poems of the *Pléiade*, La Fontaine, and the romantic poets; plays by Corneille, Racine, Molière, Beaumarchais, and Musset; and representative fiction of Voltaire, Chateaubriand, Balzac, and Flaubert.

Prerequisite: **French 4** or appropriate score on a placement test set by the department at the start of the fall semester.

10. Introduction to French Literature II. Every spring. MR. BROGYANYI.

A continuation of **French 9**. The following works are studied: selected poems of Baudelaire and other major poets from the symbolist period to the present; representative fiction of Maupassant, Gide, Camus, and Robbe-Grillet; and plays by Sartre, Beckett, Arrabal, and Vian.

Prerequisite: **French 9** or consent of the department.

11. French Thought and Culture I. Every other year. Fall 1975.

The evolution of French thought from the medieval period through the Enlightenment, with consideration of the relevant social and cultural contexts. Conducted in French.

Prerequisite: **French 9, 10** or consent of the instructor.

12. French Thought and Culture II. Every other year. Spring 1976.

A continuation of **French 11**, with emphasis on the romantic and decadent movements, positivism, Bergsonian philosophy, surrealism, and existentialism. Conducted in French.

Prerequisite: **French 9, 10** or consent of the instructor.

13. French Poetry I. Every other year. Fall 1974. MR. BROGYANYI.

Critical study of poetic practice and close analysis of texts from the Middle Ages to the romantic period. Emphasis on the works of Villon, Ronsard, the baroque poets, La Fontaine, and Hugo.

Prerequisite: **French 9, 10** or consent of the instructor.

14. French Poetry II. Every other year. Spring 1975. MR. NUNN.

A continuation of **French 13**, from the symbolist movement to the present. Emphasis on the works of Baudelaire, Rimbaud, Mallarmé, Apollinaire, and Valéry.

Prerequisite: **French 9, 10** or consent of the instructor.

15. French Drama I. Every other year. Fall 1975.

Critical study of dramatic theory and practice from the medieval period to the end of the eighteenth century. Medieval farce and religious drama; development of tragedy and comedy. Conducted in French.

Prerequisite: **French 9, 10** or consent of the instructor.

16. French Drama II. Every other year. Spring 1976.

A continuation of **French 15**, from romantic to modern drama. Conducted in French.

Prerequisite: **French 9, 10** or consent of the instructor.

17. The French Novel I. Every other year. Fall 1974. MR. NUNN.

The development of the genre during the nineteenth century, with emphasis on the works of Balzac, Stendhal, Flaubert, and Zola. Conducted in French.

Prerequisite: **French 9, 10** or consent of the instructor.

18. The French Novel II. Every other year. Spring 1975. MR. NUNN.

A continuation of **French 17**, from realism to the *nouveau roman*. The principal authors studied are Gide, Proust, Malraux, Sartre, Camus, and Butor. Conducted in French.

Prerequisite: **French 9, 10** or consent of the instructor.

19. Seminars on French Literature and Culture.

Close study of a single author, period, theme, or literary movement. Following introductory lectures, main emphasis is on critical discussion and the preparation of research projects. *The course may be repeated for credit with the contents changed and is intended primarily for freshmen and sophomores.*

Prerequisite: **French 4** or appropriate score on a placement test set by the department at the start of the fall semester.

Fall 1974. **Classical Myths in Modern French Theater.** MR. GEARY.

Analysis of plays by Camus, Cocteau, Gide, Giraudoux, and Sartre.

20. Selected Topics in French Literature and Culture.

Designed to offer students who have a general knowledge of French literary genres the opportunity to study in greater depth selected topics, authors, and literary movements. Conducted in French. *The course may be repeated for credit with the contents changed and is intended primarily for juniors and seniors. Others may take it with consent of the instructor.*

Prerequisite: **French 9, 10.**

Spring 1975. **André Gide.** MR. GEARY.

The major *soties* and *récits* and the novel *Les Faux-Monnayeurs*.

Italian

- 1, 2. Elementary Italian.** Every other year. 1975-1976.

Three class hours a week, devoted to oral practice, reading, and linguistic analysis. There are regular language laboratory assignments.

- 3. Readings in Italian Literature I.** Every other fall. Fall 1974. MR. BROGYANYI.

Intensive review of fundamentals, followed by the reading of selected prose and poetry. Three class hours a week.

- 4. Readings in Italian Literature II.** Every other spring. Spring 1975. MR. BROGYANYI.

Reading of selected texts of classic and modern authors, including Dante, Petrarch, Boccaccio, Leopardi, Manzoni, and Pavese. Three class hours a week.

Prerequisite: **Italian 3** or consent of the instructor.

Spanish

- 1, 2. Elementary Spanish.** Every year. MR. TURNER.

Three class hours a week devoted to oral practice, reading, and linguistic analysis. There are regular language laboratory assignments.

- 3, 4. Intermediate Spanish.** Every year. Fall 1974. MR. THOMPSON. Spring 1975. MR. TURNER.

Three class hours a week: in the fall, three hours a week are devoted to a review of fundamentals; in the spring, there is progressively greater emphasis on the intensive study of selected literary texts, extensive reading outside of class, and practice in writing.

Prerequisite: **Spanish 1, 2** or appropriate score on a placement test set by the department at the start of the fall semester.

- 5, 6. Spoken and Written Spanish.** Every year. MR. THOMPSON.

Intended to develop fluency and to increase the range of expression in both speech and writing. Conducted in Spanish.

Prerequisite: **Spanish 3, 4** or appropriate score on a placement test set by the department at the start of the fall semester.

- 9, 10. Readings in Spanish and Hispanic-American Literature.** Every year. Fall 1974. MR. TURNER. Spring 1975. MR. THOMPSON.

Intended to acquaint the student with some of the works of the leading authors and to develop an ability to read Spanish accurately and fluently. Some works are explained and discussed in the classroom; others are assigned for outside reading.

Prerequisite: Spanish 3, 4 or appropriate score on a placement test set by the department at the start of the fall semester.

11. Selected Topics in Spanish and Hispanic-American Literature I.

Designed to provide students who have a general knowledge of Spanish literature the opportunity to study in depth selected authors, genres, and literary movements. Conducted in Spanish. *The course may be repeated for credit with the contents changed.*

Spring 1975. **Golden Age Poetry.** MR. TURNER.

200. Independent Study. THE DEPARTMENT.

Russian

ASSOCIATE PROFESSOR RUBIN, *Chairman*; AND TEACHING FELLOW ALT

***1-2. Elementary Russian.** Every year.

Emphasis on the acquisition of language skills through imitation and repetition of basic language patterns; the development of facility in speaking and understanding simple Russian.

3, 4. Intermediate Russian. Every year.

A continuation of Russian 1-2. Concentration on maintaining and improving the student's facility in speaking and understanding normal conversational Russian. Most of this course is conducted in Russian.

Prerequisite: Russian 1-2.

5, 6. Advanced Russian. Every year.

Intended to develop the ability to read Russian fluently by combining selected readings in Russian literature with a systematic analysis of Russian word-formation. Discussion, written reports, and explanation of texts exclusively in Russian.

Prerequisite: Russian 3, 4.

9, 10. Special Topics in Russian. Every year.

Intended to enable the student to utilize his knowledge of Russian as a research tool in the investigation of a particular topic. Reports and discussions exclusively in Russian.

Prerequisite: Russian 5, 6 and consent of the instructor.

200. Independent Study.

Senior Center Seminars

Administered by the Senior Center Council

Senior Center Seminars consist of one or more instructors and about fifteen students. Normally, a student enrolls in a seminar which explores an area of learning outside his major field of interest. Although primarily for seniors, underclassmen may enroll in a seminar if they have the consent of the instructor and if it is not filled by seniors. A fuller description of the seminar portion of the Senior Center program appears on pages 86-87.

Spring 1974

20. Perspectives in Women's Studies. Ms. EARLY AND Ms. KASTER.

Recognizing that many women know little of their heritage and that historians have traditionally failed to record the contribution or status of women in any given era, the seminar begins with a historical view which includes: 1) the prehistoric age of matriarchies, 2) women in the Greco-Roman period, 3) the subjugation of women with the rise of the Christian church, 4) women in colonial and revolutionary America, 5) women's involvement in the abolition and early feminist movements, and 6) the struggle for the nineteenth amendment. The seminar continues with sessions on the image of women in literature, the image of women in art, women and psychology, women and their bodies, women and the family, and women in politics.

21. The Law and Mental Health. GEORGE S. ISAACSON, LAW CLERK, SUPREME JUDICIAL COURT OF MAINE.

A survey and analysis of the major areas in which law becomes involved in mental health. Considers circumstances in the law in which mental illness will absolve an individual from liability for his actions. In the criminal field, the issues of incompetency to stand trial and the insanity defense, their definitions, distinctions, and purposes are discussed. In the civil field, the ability of a mentally ill individual to enter commercial contractual relations and the consequences of mental illness in domestic relations are considered. Consideration also given to the removal of mental patients from society, the obligations the state consequently incurs, and the rights that the individual retains. The commitment process is studied and attention is given to the emerging area of "the right to treatment," its constitutional foundations, and substance. The rights of the former mental patient are also discussed.

22. Don't Get Sick in America: Issues in Health Care. Mrs. Mooz.

Examines the crisis in health care and its delivery systems in the United States. Begins with a case study involving a patient and continues

with sessions on environmental problems and their relationships to health care, medical care to the indigent, financing of health care, alternative methods of health care delivery, and comprehensive health planning. Also visits to nearby health care facilities and discussions with experts engaged in the health care field.

23. **South Africa: Pariah or Precursor?** MR. POTHOLM.

The total context of South Africa: political, economic, social, and psychological aspects are investigated. Students are encouraged to develop scenarios for its future. These will extrapolate from the present situation into the indefinite future in order to weigh the possibilities of 1) maintenance of the status quo, 2) liberation of the area in terms of African majority rule, 3) expansion of the Bantustan concept to include a racial federation for southern Africa. Readings include novels by South Africans as well as conventional works.

Fall 1974

1. **Fifth-Century B.C. Athens: A Century of Greatness?** MR. AMBROSE.

An evaluation of the Athenian claim to greatness. Discussion and research will center around two questions: 1) Why has history accorded Athens the crown of greatness? 2) Is her claim to cultural and intellectual superiority relevant today? To answer these questions, primary sources, nearly all written by fifth-century Athenians, are read. Classics majors who wish to enroll must have the consent of the instructor.

2. **Improvisation for the Theater.** MRS. CHAPKO.

An examination of improvisation, its importance as an art, how it is used to develop an actor's mind, body, and emotion. As class work is highly important, the seminar meets three days a week for one and a half hours. Group and individual exercises cover the areas of concentration, imagination, communication, characterization, and atmosphere. At the end of the semester, each student is required to produce an improvisational piece using other class members and a written analysis of it. Readings include Hodgson and Richards, *Improvisation*; Chekov, *To the Actor*; and Jerzy Grotowski, *Towards a Poor Theater*. Guest speakers discuss the application of improvisation to psychodrama, education, music, etc.

3. **Structure of the Oceans.** MR. MOULTON.

The current interest in the oceans is a very lively one, and this seminar is intended to provide an opportunity for its participants to pursue a particular interest in "oceanology" as well as to learn something of oceanography as a field of science. It is hoped that there will be visiting lecturers. The middle part of the seminar is devoted to the preparation

of a long paper or other exposition. At the end, these works will be presented to members of the seminar in a series of evening meetings.

4. **Housing: A Case Study in Impoundment.** JAMES E. MITCHELL, DIRECTOR, MAINE STATE HOUSING AUTHORITY.

During the time that the executive branch of the federal government has impounded money appropriated for low-income housing projects, housing starts have been dropped, some local housing authorities have gone into bankruptcy, and the congressional will as expressed in statute law has been thwarted. It may be that impoundment has helped to balance the federal budget, but a close study of the ability of officials to change the law of the land by administrative action is warranted. This seminar considers the question of impoundment and its legal, administrative, social, and political effects. Attention is also given to a new Omnibus Housing Bill in Congress and, if time permits, to other aspects of the housing situation in the U. S.

5. **The Resolution of Environmental Controversies.** EDWARD LEE ROGERS, ASSISTANT ATTORNEY GENERAL, ENVIRONMENTAL SECTION, STATE OF MAINE.

A case-study approach, with cases selected to introduce students to important environmental laws, including the National Environmental Policy Act of 1969, the Clean Air Act, the Clean Water Restoration Act of 1972, and Maine's site selection and land-use regulation laws. Lawyers specializing in environmental litigation will be guest lecturers, and if it can be arranged, the class will attend one or more public hearings or court sessions.

Sociology and Anthropology

PROFESSOR RILEY, *Chairman*; PROFESSOR ROSSIDES; ASSISTANT PROFESSOR KERTZER; VISITING PROFESSOR MELBER; MRS. BHATTACHARYA
AND MR. NOVACK

Requirements for the Major: In consultation with an adviser, each student plans a major program that will nurture understanding of society and the human condition in order to enrich general education, to prepare for graduate study in sociology and anthropology, or to contribute to background preparation for careers in teaching, social research, law, personnel, social work, business, the health professions, or programs in developing countries. A student may choose either of two basic programs.

The major in sociology consists of eight courses, including **Sociology 1, 9,** and **11.** A minimum of six courses in sociology may be supplemented by two from related fields as approved by the department to meet the student's special

goals and interests. **Sociology 1** and **11** should be fitted into the major program early.

The anthropology-sociology major, designed to provide solid grounding in both fields, consists of a minimum of four courses in anthropology (including **Anthropology 1, 3, and 20**) and four courses in sociology (including **Sociology 1, 9, and 11**). Students, especially those considering graduate work in anthropology, are encouraged to take as many courses in anthropology as possible beyond the minimum of four.

Departmental Honors: Students distinguishing themselves in either major program may apply for departmental honors. Awarding of the degree with honors will ordinarily be based on honor grades in major courses and a written project (emanating either from independent study or course work), and will recognize the ability to work creatively and independently and to synthesize diverse theoretical, methodological, and substantive materials.

Sociology

1. Introduction to Sociology. Every semester. THE DEPARTMENT.

The major perspectives of sociology. Application of the scientific method to sociological theory and to current social issues. Theories ranging from social determinism to free will are considered, including the work of Marx, Weber, Durkheim, Merton, and others. Attention is given to such concepts as role, status, society, culture, institution, personality, social organization, the dynamics of change, the social roots of behavior and attitudes, social control, deviance, socialization, and the dialectical relationship between individual and society.

6. The Urban Community. Fall 1974. MR. NOVACK.

An analysis of the quality of urban life, stressing the impact of a bureaucratized mode of organization. Although individual alienation and anonymity are analyzed extensively, elements fostering cohesiveness are also examined. The problematic existence of a lower-class culture and the continuation of poverty are studied in terms of assimilation and acculturation. Examination of original data concerning community control projects in three ghettos of New York City. An ideological overview analyzing the way in which urban sociological knowledge is produced.

Prerequisite: **Sociology 1.**

7. Deviance. Spring 1975. MR. NOVACK.

The social meanings of deviance. Various sociological approaches and the development of particular perspectives in different periods, including organic theory, the Chicago School, functionalism, and labeling theory. Traditional sociological concern with behavioral causation vs. more recent consideration of the problematic meanings of these actions. A primary thrust of the course is toward an explication of the complex

processes that people use through social interaction in negatively evaluating types of behaviors and individuals. Applications to such substantive areas as crime and mental illness.

Prerequisite: **Sociology 1.**

8. Minority Groups. Fall 1974. MRS. BHATTACHARYA.

A descriptive and analytic study in a comparative framework. After provisional acceptance of Wirth's criteria—that a minority group must be physically and/or culturally identifiable, discriminated against, and opposed to this treatment—several minority groups are studied in depth. Focus on American blacks, women, and those minority groups recently appearing when newly independent nations such as India and Nigeria were established. Considered are such issues as the reasons for the development of minority groups, the material and psychological consequences of minority group membership, and the likelihood and problems of assimilation for minority groups.

Prerequisite: **Sociology 1** or **Government 3.**

9. Social Theory. Spring 1975. MR. ROSSIDES.

A critical consideration of some important theories of the nature of human behavior and society. Though attention is given to historical developments, the course concentrates on the great formative thinkers of "contemporary" sociology (late nineteenth century to the present).

Prerequisite: **Sociology 1.**

10. Organizational Behavior. Spring 1976. MRS. BHATTACHARYA.

The notion of bureaucracy and its role in society, including the influence of Max Weber's ideal-type model and major subsequent perspectives. The recruitment process for members of bureaucracies is considered, and a cross-cultural examination of bureaucracy investigates cultural adaptation and suitability of classical bureaucracy for industrialization and social development.

Prerequisite: **Sociology 1.**

11. Sociological Research I. Fall 1974. MRS. RILEY.

Provides firsthand experience with the scientific procedures through which sociological knowledge is developed. Reading and methodological analysis of a variety of case studies from the sociological literature. Field and laboratory exercises that include observation, interviewing, use of available data (e.g., historical documents, letters, statistical archives, works of art), sampling, coding, use of computer, analysis (measures of association, three-variable analysis, matrices, probability models), and interpretation. Lectures, laboratory sessions, small-group conferences.

Prerequisite: **Sociology 1.**

12. Sociological Research II. Spring 1975. MRS. RILEY.

Continuation of **Sociology 11**. For students interested in research or planning graduate work in sociology or a related professional field.

Scrutinizes, through a combination of firsthand investigation and critical readings, selected research methods and innovative scientific approaches to both theoretical issues and social problems and policies. Topics include design of data collection instruments, scaling, collective measures, experimental design, panel analysis, cohort analysis, social indicators. Special attention to the study of 1) social process and change and 2) groups or societies as interactive systems. Lectures, small-group conferences, field and laboratory exercises, individual and team projects.

Prerequisite: **Sociology 11** or consent of the instructor.

13. Social Stratification. Fall 1975. MR. ROSSIDES.

A lecture-discussion-reading course which introduces students to the field of social stratification. An examination of a representative selection of theories about inequality, together with case studies of the various types of social stratification. Extended analysis of social stratification in the United States. The American tradition of theory and research in this area is canvassed and a number of broad interpretive studies are read. However, the main emphasis is to establish what is known empirically about inequality in America (and by cautious extension, in industrial society in general). The final theme of the course examines the various theories which purport to see some form of "post-industrial" society emerging in the Western world.

Prerequisite: **Sociology 1**.

14. Social Psychology. Spring 1975. MR. NOVACK.

Analysis of various models of social interaction with particular emphasis on social exchange, symbolic interaction, reality construction, and social dramaturgy (action as performance). The relationship between sociology and psychology, stressing the place of the individual in sociological analysis. In dealing with each model, socialization and self-development are examined within the context of social determinism and voluntarism. Starting with a critical evaluation of the several interactionist perspectives, the course concludes by treating them as elements to be incorporated in a more coherent, emergent image of social interaction.

Prerequisite: **Sociology 1**.

15. Comparative Social Systems. Spring 1975. MRS. BHATTACHARYA.

An introduction to social-system analysis on a comparative basis. Both traditional "underdeveloped" and modern industrial societies are examined in respect to their value patterns, social structure, division of labor, and the related concerns and sources of meaning for the individual. Special attention is paid to the nature of the transition from

“traditional” to “industrial” society and to the concept of “post-industrial society.” Alternative forms of modernization are considered, focusing particularly on India, Japan, the United States, and Communist China.

Prerequisite: **Sociology 1.**

16. The Sociology of Age. Fall 1974. MRS. RILEY.

Theory and methods of this new field of sociology. Examines such diverse phenomena as interdependence and conflict among age strata, aging from birth to death, succession of generations, changing structure of the family, shifts in meaning of work, functions of education, difficulties of adolescence and old age, dilemmas of economic and population growth, socialization, and social change. Special attention paid in 1974 to the transition from youth to adulthood compared with other life-course transitions. Readings, discussions, original research.

Prerequisite: Concurrent registration or previous credit in **Sociology 11**, or consent of the instructor.

[17. World Population.]

[18. Social Control.]

19. Sociology of Sex Roles. Fall 1974. MRS. MELBER.

An analysis of the roles of men and women in preindustrial and industrial societies, including the United States, Japan, Sweden, the U.S.S.R., and the Israeli Kibbutz. Some issues are the origins and maintenance of gender stratification, changes in women's economic and political participation, emerging models of sex equality, and strategies for changing sex role patterns.

Prerequisite: **Sociology 1** or consent of the chairman.

31. Advanced Seminar. Spring 1975. MRS. RILEY.

Intensive study of one or more selected topics involving issues and trends of current sociological concern. The topic for spring 1975 will be announced. Readings, discussions, original research. This course, with contents changed, may be repeated for credit.

Prerequisite: Consent of the instructor.

200. Independent Study. THE DEPARTMENT.

Anthropology

1. Introduction to Anthropology. Every semester. MR. KERTZER.

Study of the biological and cultural evolution of man. The four major subfields of anthropology are discussed: physical anthropology, archaeology, social linguistics, and social anthropology. Particular attention is paid to the following questions: contemporary physical diversity of man,

human nature, "primitive" cultures, and the extent to which man is product of his culture.

3. **Social Anthropology.** Spring 1975 and spring 1977. MR. KERTZER.

Seminar on the methods and perspectives of social anthropology. Such topics as cultural ecology, kinship, and culture and personality are discussed.

Prerequisites: **Anthropology 1** and consent of instructor.

7. **Ritual and Myth.** Fall 1975. MR. KERTZER.

An investigation of the forms of ritual and myth found in human societies, including an examination of the place of ritual and myth in the larger social context. Also considered will be modes of analysis of witchcraft, magic, and shamanism. The work of Frazer, Durkheim, Malinowski, and Levi-Strauss, among others, will be discussed.

Prerequisite: **Anthropology 1**.

9. **Political Anthropology.** Fall 1974 and fall 1976. MR. KERTZER.

The study of local-level politics, with particular emphasis on pre-industrial societies. Of special concern are the interrelationships between politics and other spheres of society, including religion and kinship. Topics to be discussed include an examination of sociocultural conditions which favor revolutionary movements, and the political uses of religion. Case studies will be drawn from all parts of the world.

Prerequisite: **Anthropology 1**.

19. **North American Indians.** Spring 1976. MR. KERTZER.

An overview and analysis of American Indian societies from pre-Colombian times to the present.

Prerequisite: **Anthropology 1**.

20. **Anthropological Theory.** Spring 1976. MR. KERTZER.

An examination of the development of various theoretical approaches to the study of culture and society. Anthropology in the United States, Britain, and France are covered from the nineteenth century to the present. Contemporary controversies in anthropological theories are discussed. Among those considered are Morgan, Tylor, Boas, Mauss, Malinowski, Radcliffe-Brown, Margaret Mead, and Levi-Strauss.

Prerequisite: Two previous courses in anthropology or consent of the instructor.

200. **Independent Study.** MR. KERTZER.

Physical Education and Athletics

BOWDOIN BELIEVES that physical education is an important part of the total educational program. The Department of Physical Education provides students with opportunities for satisfying experiences in physical activities for the achievement of health and physical fitness. The physical education program includes classes which emphasize instruction in sports activities with carry-over value, intramural athletics, and intercollegiate competition. Students are encouraged to use the athletic facilities to participate in free recreational play.

Physical Education: The department offers courses of instruction in sports which students may enjoy for many years after college. These courses are voluntary, and it is the aim of the department to keep them flexible enough to serve the current interests of students. Last year, instruction was offered in tennis, squash, sailing, figure skating, weight training, swimming, water polo, life saving, scuba diving, fly fishing, golf, cross-country skiing, modern dance, gymnastics, calisthenics, field hockey skills, lacross skills, badminton, volleyball, and synchronized swimming.

Intercollegiate Athletics: Bowdoin offers intercollegiate competition in the following sports: football, field hockey, cross-country, basketball, track (winter and spring), swimming, hockey, wrestling, lacrosse, skiing, golf, tennis, baseball, soccer, squash, and sailing (fall and spring). During the past year, all-female teams were fielded in tennis, field hockey, swimming, basketball, skiing, and lacrosse. The department hopes to expand its offering for women as demand warrants. Junior varsity or freshman teams are maintained in intercollegiate sports whenever possible.

Intramural Athletics: Competition between intramural teams is scheduled in softball, touch football, basketball, hockey, track, swimming, soccer, squash, and volleyball. Undergraduates not actively engaged in intercollegiate sports during a given season are eligible for intramural contests.

Outdoor Facilities: The outdoor athletic facilities of the College are excellent. Whittier Field is a tract of five acres that is used for football games and also includes an all-weather track. It has a grandstand with team rooms beneath it. Pickard Field is a tract of over seventy acres that includes two baseball diamonds; spacious playing fields for lacrosse, soccer, football, touch football, and softball; ten tennis courts; and a field house.

Indoor Facilities: The College possesses indoor facilities that are the equal of its outstanding outdoor facilities. Morrell Gymnasium contains a modern

basketball court with seats for about 2,500 persons, four visiting team rooms, eleven squash courts, locker room with 480 lockers, shower facilities, modern fully equipped training room, adequate offices for the director of athletics and his staff, and other rooms for physical education purposes. Sargent Gymnasium includes a wrestling room, a weight-training room, two special exercise rooms, a regulation basketball court, and a locker room with 300 lockers. The Hyde Athletic Building, which is attached to the Sargent Gymnasium, includes a cinder track, facilities for field events, a banked board track, and an infield area used for baseball, lacrosse, and club rugby practice. Completing the athletic facilities are the Curtis Swimming Pool, containing a pool thirty feet by seventy-five feet, and the Arena, which has a refrigerated ice surface eighty-five feet by two hundred feet and seating accommodations for 2,400 spectators.

Reserve Officers' Training Corps

THE RESERVE OFFICERS' TRAINING CORPS at Bowdoin offers a voluntary curriculum of military science to eligible students. The curriculum consists of theoretical and practical instruction with particular emphasis on leadership and managerial development, which is specifically designed to give the student "on-campus" training and experience in the art of organizing, motivating, and leading others. It includes instruction to develop self-discipline, physical stamina, and bearing—qualities that are an important part of leadership and that contribute to success in any kind of career. Classes are presented by the Military Science Unit and selected members of the faculty. The curriculum, with its flexibility, provides for the military education of the student and accommodates the character and personality of Bowdoin College.

The objective of the curriculum offered is to identify and prepare young men and women who by their education, training, and inherent qualities are suitable for continued development as Reserve or Regular officers in the Army of the United States.

The Reserve Officers' Training Corps Unit at Bowdoin is an Army General Military Science Unit. The curriculum includes instruction in subjects common to all branches of the Army, and further provides for college-taught subjects to be chosen by the student during all four years. Upon successful completion of the program and graduation from college, a student is eligible for appointment as a second lieutenant in one of the branches of the United States Army. The branch assignment of the student is based on his individual choice, background, aptitude, and the needs of the Army at the time he is commissioned. Selected Advanced-Course students who apply may be offered commissions in the Regular Army.

The Senior Division ROTC Four-Year Program at Bowdoin is divided essentially into two major phases:

- 1) The Basic Course—covering the first two academic years. Enrollment for freshmen and sophomores involves one hour of classroom instruction weekly with a strong emphasis on leadership training. Satisfactory completion of the freshman course is a prerequisite for advancement to the second year of the Basic Course. Previous military training or satisfactory completion of accredited secondary school ROTC is accepted in lieu of first-year work in Military Science. The student must be physically qualified.

- 2) The Advanced Course—covering the third and fourth academic years. Successful completion of the Basic Course (or successful completion of the basic summer camp after the sophomore year), application by the student, and selection by the Military Science Unit are prerequisites for enrollment. This course involves two hours of classroom instruction weekly during the junior

and senior years. Students receive subsistence pay of \$100 a month while they are enrolled in the Advanced Course, except for the period they are at ROTC summer camp, when a different scale applies.

Between the third and fourth years, students attend a six-week advanced summer camp at an Army installation. During the period at summer camp the students are paid approximately \$400, including travel pay at six cents a mile to and from summer camp. Each student receives a total of approximately \$2,400 during the two years of the Advanced Course.

Supplementing the Four-Year Program is the Two-Year ROTC Program which replaces the first two academic years. For students who prefer, attendance at a basic six-week summer training camp after the sophomore year is acceptable in place of the Basic Course required of students in the traditional Four-Year Program. This summer camp is in addition to the summer camp required of all Advanced-Course students.

Uniforms, textbooks, and necessary supplies are provided at no expense to students enrolled in the Basic and Advanced Courses.

The Army offers a limited number of one-, two-, and three-year scholarships to outstanding students enrolled in the ROTC Program. Criteria are set by the Department of the Army and announced by the director of the ROTC Program in December of each year. See page 52 for further information regarding ROTC Four-Year Scholarships.

Preparatory training in college followed by active service as a commissioned officer gives the individual as a student, and later as a graduate, maximum leadership and management experience of a type which will prove invaluable to him in his future executive, professional, or business career.

Military Science

LIEUTENANT COLONEL ALMY, *Director*; MAJOR KALLOCH;
CAPTAINS BARNES AND COUGHLIN

***11-12. First Year Basic Course. Every year.**

An introduction to the historical growth and the organization of the Army and ROTC, and the Armed Forces' mission, functions, and responsibilities. Introduction to management of military resources, fundamentals of leadership, fundamentals of military operations, and the understanding of certain characteristics of leadership through progressive training in the exercise of command. This phase of military science continues in steps of increasing responsibility through the entire four-year program.

***21-22. Second Year Basic Course. Every year.**

The objective during the first semester is to develop in each student

proficiency in the use of aids to land navigation through classroom instruction and practical field work. The second semester is designed to assist the student in developing a general knowledge of and appreciation for military history as a part of our national history, with particular emphasis on the Civil War.

Prerequisite: **Military Science 11-12.**

***31-32. First Year Advanced Course.** Every year.

A study of the factors which affect human behavior, methods of accomplishing motivation, and the application of the principles of leadership; a study of military techniques of instruction and briefings; advanced work in small unit tactics and communications.

Prerequisite: **Military Science 21-22** or credit for completion of six weeks of basic summer camp.

ROTC Advanced Summer Camp: Students enrolled in the Advanced Course are required to attend a summer camp of six weeks' duration upon completion of MS 32. Camp training is essentially on the individual and small-unit level, with a student receiving experience in the performance of tactical, technical, and administrative duties in the field. Intensive training is conducted with emphasis on the development of leadership. Camp is conducted at and supported by a major military installation. Exact location will be announced.

***41-42. Second Year Advanced Course.** Every year.

A study of command and staff organization and the theory and dynamics of the military team (advance tactics); the position of the United States on the contemporary world scene; administration and logistical management; the concept of military justice in the Armed Forces; a study and exercise in effective military writing; and a survey of applied leadership and military management.

Prerequisite: **Military Science 31-32.**

Hawthorne-Longfellow Library

THE STRENGTH of a college library rests in its collections of books and other library materials and in the ability of its staff to make the library useful to students. Bowdoin's Nathaniel Hawthorne-Henry Wadsworth Longfellow Library is exceptionally strong in its reputation as a college library. Totaling more than 475,000 volumes, its collections have been built up over a period of more than 170 years and include an unusually large proportion of distinguished and valuable volumes. Similarly distinguished has been the roster of librarians of the College, a list that includes John Abbot, Calvin Stowe, Henry Wadsworth Longfellow, and George T. Little. Its present full-time staff includes nine professional librarians and fifteen library assistants.

The first books that belonged to the library—a set of the Count Marsigli's *Danubius Pannico-Mysicus*, given to the College in 1796 by General Henry Knox (who had been a bookseller in Boston before he achieved fame as George Washington's chief ordnance officer)—are still a part of its collections. In the early decades of the nineteenth century Bowdoin's library, largely because of extensive gifts of books from the Bowdoin family and the Benjamin Vaughan family of Hallowell, Maine, was one of the largest in the nation. It has been maintained as one of the larger college libraries of the country, but its areas of growth are now defined by the curriculum of the College and restrained by the desirability of containing it as a collection to which students can have easy, and almost complete, access on open shelves. In addition to its 475,000 volumes (a count which includes bound periodicals and newspapers), the library has a collection of approximately 60,000 maps, over 2,000 photographs, and more than 300,000 manuscript items. The current annual rate of acquisition is about 14,000 volumes and the annual expenditure per student is more than \$300.

The Hawthorne-Longfellow Library building was opened in the fall of 1965. The library occupies 60,000 square feet of its floor space and will eventually incorporate the 26,000 square feet presently used for the College's administrative offices. It now provides space for well over 400,000 volumes and for 538 readers (for 460 of these by individual study tables, carrels, or lounge chairs). Eventual full occupancy of the building will increase shelf capacity to 560,000 volumes and seating capacity to about 700. The College has reserved the stack wing of Hubbard Hall, the library building of the College from 1903 to 1965, which now houses the overflow from the Hawthorne-Longfellow Library. Space for 200,000 books is available there.

The entrance level of the building contains the portions of the library of most immediate use to its readers: the circulation desk and reserve-book shelves, the card catalog, reference books and bibliographies, current news-

papers, current periodicals, periodical indexes, government documents, copy machines, and two large and handsome reading areas. Study stations are conveniently dispersed on this floor as they are throughout the building.

The lower level of the library houses Bowdoin's extensive collection of bound periodicals, its bound volumes of newspapers, and its collections of microfilm and microcards.

Special features of the second floor are an exhibit area and the President Franklin Pierce Reading Room, informally furnished and giving a broad view through floor-to-ceiling windows. In this room are a collection of paperbound books for recreational reading and a selection of periodicals received by the library for immediate use only. Near this room are more newspapers and magazines for recreational reading. Also on this floor are two suites of ten faculty studies each and small rooms for student typing or group study. The rest of this floor is shelving surrounded by carrels.

More shelving and carrels occupy the principal portion of the third floor. There are nine additional faculty studies on this floor. The eastern end of the third floor is the special collections suite. This includes, in addition to shelf space for Bowdoin's rare books and manuscripts and space for their use, a map room, a conference room, and a staff and faculty lounge.

The collections of the library are strong (though inevitably of varying strength) in all areas covered by the curriculum of the College, and a constant effort is maintained to see that representative publications in fields outside the current curriculum are added to the library. There is special strength in documentary publications relating to both British and American history, in the books relating to exploration and the Arctic regions, in books by and about Carlyle, in books and pamphlets about Maine, in materials about the Huguenots, in books and pamphlets on World War I and on the history of much of middle Europe in this century, and in the literary history of pre-twentieth-century France.

The reference collection includes most of the English-language encyclopedias and a good representation in original editions of major foreign encyclopedias—from two editions of the monumental eighteenth-century *Encyclopédie* of Diderot to such modern works as the *Grand Larousse Encyclopédique*, *Der Grosse Brockhaus*, the *Enciclopedia Universal Illustrada Europeo-Americana*, the *Boľ'shala Sovetskāla Entsiklopedia*, and the *Enciclopedia Italiana de Scienze, Lettere ed Arti*. In it also are the principal national bibliographies and other major bibliographical tools. Dispersed in their proper places throughout the collections are such distinguished sets as the *Studies and Documents* of the American Institute of Musicology in Rome, Armando Cortesāo's *Portugaliae Monumenta Cartographia*, the elephant-folio edition of John James Audubon's *Ornithological Biography* (his "Birds of America"), E. S. Curtis's *The North American Indian*, the *Rerum Britannicarum Medii Aevi Scriptores*, Jacques Paul Migne's *Patralogiae* (Latina), the *Scriptores*

Rerum Germanicum, Reuben Gold Thwaite's *Early American Travels*, and *The Victoria History of the Counties of England*. Scholarly sets include the publications of the Camden Society, the Early English Text Society, the Egypt Exploration Society, the Geological Society of America, the Hakluyt Society, the Henry Bradshaw Society, the Huguenot Society of London, the Prince Society, the Royal Historical Society, the Royal Society, the Scottish History Society, the Scottish Text Society, and the Société des Anciens Textes Français. Of comparable, or perhaps even greater, distinction is Bowdoin's collection of more than 75,000 bound volumes of periodical publications.

Special collections in the Hawthorne-Longfellow Library comprise extensive collections of books, manuscripts, and other materials by and about both Hawthorne and Longfellow; books and pamphlets collected by Governor James Bowdoin; the private library of James Bowdoin III; an unusually large collection of late eighteenth- and early nineteenth-century books (particularly in the sciences) collected by Maine's distinguished Vaughan family; books, periodicals, and pamphlets contemporaneous to the French Revolution; the books, papers, and memorabilia of the Abbott family; an unusually fine representation of the items published in the District of Maine and in the state during the first decade of its statehood; and the books printed by the three most distinguished presses in Maine's history: the Mosher Press, the Southworth Press, and the Anthoensen Press.

Also in the special collections suite are the printed items relating to the history of the College and the chief collections of manuscript archives of the College. These include much material on Bowdoin alumni and extend far beyond a narrow definition of official college records. Here also is the library's general collection of manuscripts. Outstanding among the manuscripts are the collections of the papers of Generals O. O. Howard and Charles Howard, of Senator William Pitt Fessenden, and of Professors Parker Cleaveland, Alpheus S. Packard, Henry Johnson, and Stanley Perkins Chase; collections of varying extent of most of Bowdoin's presidents, especially Jesse Appleton, Joshua L. Chamberlain, William DeWitt Hyde, and Kenneth Charles Morton Sills; manuscripts by Kenneth Roberts, Kate Douglas Wiggin, Charles Stephens, Edwin Arlington Robinson, Elijah Kellogg, and such contemporary authors as Vance Bourjaily, John Pullen, and Francis Russell.

The books and manuscripts in Bowdoin's special collections are not treated simply as museum pieces. They are freely open to use by qualified scholars and are extensively used in introducing undergraduates—in their research projects, senior seminars, and other independent work—to the variety of research materials regularly used in the scholarly world and which they can expect to use if they continue into university graduate work.

Special collections include also the Bliss Collection of books on travel, on French and British architecture, and other fine books (miscellaneous in nature but largely relating to the history of art and architecture) which are

housed in the extraordinarily handsome Susan Dwight Bliss Room in Hubbard Hall. These books are additionally distinguished by their fine bindings. The books in this room and the room itself (with its Renaissance ceiling which once graced a Neapolitan palazzo) were the gift of Miss Bliss in 1945.

During term time the library is open from 8:30 A.M. to midnight Monday through Saturday, and on Sunday from 11:00 A.M. to midnight. When the College is not in session the library is open 8:30 A.M. to 5:00 P.M. Monday through Friday. Small departmental collections in art, biology, chemistry, mathematics, and music are housed contiguous to the offices of the departments and are available for use on separate schedules of opening.

The operations of the library and the growth of its collections are supported by the general funds of the College and by gifts from alumni and other friends of the library and of the College. The library is annually the recipient of generous gifts of both books and funds for the immediate purchase of books or other library materials. It is always especially desirous of gifts of books, manuscripts, and family records and correspondence relating to the alumni of the College. The income of more than a hundred gifts to the College as endowment is directed to the use of the library.

Museum of Art

AN ART COLLECTION has existed at Bowdoin almost since the inception of the College itself. The earliest acquisition of major importance was a group of 142 old master drawings bequeathed to the College in 1811 by James Bowdoin III. This was the first public collection of its kind in America and contains, among many treasures, a superb landscape by Pieter Brueghel the Elder. James Bowdoin III's collection of old master paintings came to the College two years later, in 1813.

Although various parts of the College's art collection were on view during the first half of the nineteenth century, it was not until 1855 that a special gallery devoted to the collection came into being in the College Chapel. This gallery was made possible by a gift from Theophilus Wheeler Walker, a cousin of President Leonard Woods. It was as a memorial to Walker that his two nieces, Harriet Sarah and Mary Sophia Walker, donated funds in 1891 for the erection of the present museum building, designed by Charles Follen McKim of McKim, Mead & White. Four tympana murals of Athens, Rome, Florence, and Venice by John La Farge, Elihu Vedder, Abbott Thayer, and Kenyon Cox, respectively, decorate the museum's Sculpture Hall.

The museum contains one of the most important collections extant of American colonial and federal portraits, including works by Smibert, Feke, Blackburn, Copley, Stuart, Trumbull, and Sully. Among the five examples by Robert Feke is his greatest work, the full-length likeness of *General Samuel Waldo*, generally regarded as the finest American portrait of the first half of the eighteenth century; the nine Gilbert Stuarts include the so-called official portrait of *Thomas Jefferson*, as well as its pendant, *James Madison*. A complete catalogue of this collection, *Colonial and Federal Portraits at Bowdoin College*, was published by the College, with a matching grant from the Ford Foundation, in 1966.

The College's collection of ancient art contains sculpture, pottery, bronzes, gems, coins, and glass of all phases of the ancient world. The most notable benefactor in this area was Edward Perry Warren, the leading collector of classical antiquities of the first quarter of the twentieth century. Five magnificent ninth-century B.C. Assyrian reliefs from the Palace of Ashurnazirpal II, the gift to the College of Henri Byron Haskell, Medical 1855, are installed in the Museum's Sculpture Hall. *Ancient Art in Bowdoin College*, a descriptive catalogue of these holdings, was published in 1964 by the Harvard University Press.

In recent years the College has been the recipient of a Samuel H. Kress Study Collection of twelve Renaissance paintings; a large collection of Renaissance and baroque medallions and plaquettes presented by Amanda,

Marquesa Molinari; a fine group of European and American pictures given by John H. Halford, of the Class of 1907, and Mrs. Halford; a collection of Chinese and Korean ceramics given by Governor William Tudor Gardiner and Mrs. Gardiner; and a collection of nineteen paintings and 168 prints by John Sloan bequeathed by George Otis Hamlin.

In the fall of 1964, the College was the recipient of the major portion of a collection of Winslow Homer memorabilia, which until that time had been in the artist's studio at Prout's Neck, the gift of the Homer family. This material, now known as the Homer Collection of the Bowdoin College Museum of Art, includes the artist's first watercolor; a significant group of letters he wrote over a period of many years to various members of his family; and a considerable quantity of photographs of Homer, his family, and of Prout's Neck. Recently, a large collection of woodcuts was purchased to augment these holdings and create an important center for the scholarly study of Homer's graphics.

The museum also contains fine examples of the work of such nineteenth-century and twentieth-century American artists as Winslow Homer, Eastman Johnson, Thomas Eakins, George Inness, Martin Johnson Heade, William Glackens, Marsden Hartley, Andrew Wyeth, and Leonard Baskin.

In addition to exhibitions of the permanent collection, the museum every year holds numerous exhibitions of works of art lent by institutions and private collectors throughout the United States. Among the important exhibitions organized by the museum in recent years have been *The Art of Leonard Baskin*, *Painting in British India*, *The Portrayal of the Negro in American Painting*, *The Salton Collection of Renaissance and Baroque Medals and Plaquettes*, *As Maine Goes* (photographs by John McKee of the despoilation of the Maine coast), *Winslow Homer at Prout's Neck*, *The Language of the Print*, *Hands to Work and Hearts to God: The Shaker Tradition in Maine*, *Rockwell Kent: The Early Years*, *The Medieval Sculptor* and *The Art of American Furniture*. From time to time the College lends pictures and objects in the custody of the museum to other institutions in various parts of the country. The Bowdoin College Traveling Print Collection is made available gratis to educational institutions in the State of Maine.

In 1961 the Associates program of the Bowdoin College Museum of Art was formed in order to more effectively share the facilities of the museum with the community beyond the College. Students are encouraged to become members at a reduced rate, so that they can take advantage of the Associates' publications and events, which include free exhibition catalogues and a film series.

PEARY-MACMILLAN ARCTIC MUSEUM

The Peary-MacMillan Arctic Museum, which is a part of the Bowdoin College Museum of Art, is a tribute to two famous explorers and Bowdoin alumni—Admirals Robert E. Peary and Donald B. MacMillan.

On April 1, 1909, Peary, a member of the Class of 1877, became the first man to reach the North Pole. MacMillan, a member of the Class of 1898, was his chief assistant on that historic expedition.

The museum is located on the first floor of Hubbard Hall, for many years the Bowdoin College Library and named for General Thomas Hubbard of the Class of 1857, a generous benefactor of the College and a major financial supporter of Peary's Arctic ventures. It was designed by Ian M. White, a museum designer and curator who accompanied MacMillan on a trip to the Arctic in 1950. Generous gifts from members of the Class of 1925, together with gifts from other interested alumni and friends, made the museum a reality in 1967.

Bowdoin's interest and activity in Arctic exploration go back to 1869 when Paul A. Chadbourne, a professor of chemistry and natural history at Bowdoin, with twenty Bowdoin and Williams College students sailed on a voyage which followed nearly the same route the Norsemen must have taken along the coast of Labrador and Greenland as far as Godthaab.

Performing Arts

DANCE AND DRAMA

THE DIVISION OF THEATER ARTS within the Department of English consists of the director of theater, the dance instructor, and the theater technician. The main thrust of its activities is in making possible the extensive extracurricular participation in dance and theater. The student drama group, Masque and Gown, celebrated its seventieth anniversary in the winter of 1973-1974 with a new staging of its original production of Oliver Goldsmith's *She Stoops to Conquer*. The dance group, for both men and women, began in 1971 with the advent of coeducation.

Classes in dance are under the direction of June Adler Vail. Intended for students interested in the performing arts, they are extracurricular and do not count for academic credit. Although the offerings vary in response to student interest, the following areas are normally covered:

Modern dance technique: classes aimed at improving movement skills and muscular strength as well as encouraging creative understanding of movement fundamentals—rhythm, force, direction, range, and qualities of movement.

Dance composition/choreography: Exploration of dance forms, individual and group compositions, motivational factors in dance, movement themes, and dynamics. The approach to learning is through guided experimentation.

Dance performance and production: Participation in and responsibility for lecture-demonstrations, workshops, and one major performance. Experience in production management, lighting, sound systems, and in combining dance with other fine arts, such as original music, art, film, and literature.

Credit courses in acting, directing, and scenic design are taught by the director of theater, A. Raymond Rutan IV. Lighting and stagecraft are taught by the theater technician, William H. Moody. Each year at least three major productions are produced by the Masque and Gown on the stage of Pickard Theater. The caliber of productions is illustrated by the fact that the 1973-1974 production of O'Neill's *Ah, Wilderness!* was selected from twenty-two college productions in New England by the American College Theater Festival for showing at the area festival at Providence, Rhode Island. Two of the cast members were selected for the Irene Ryan Scholarship competition for the best college actor in New England, and both received honorable mention.

Pickard Theater, the generous gift in 1955 of Frederick William Pickard, LL.D., of the Class of 1894, includes a modern, 600-seat theater with proscenium stage equipped with a complete system for flying scenery and central system for electronic lighting. In addition, Memorial Hall contains a scene

shop and, on the lower floor, a small open-stage theater for experimental work by students.

Membership in the Masque and Gown results from major work on one or minor work on two of the plays produced each season. An executive committee of undergraduates elected by the members consults with the director of theater to determine the program for each year, handle the finances and publicity of the club, and organize the production work. The Masque and Gown needs, as well as actors and playwrights, box-office and publicity men, directors, designers, builders, painters, electricians, property men, and costumers.

One of the most important activities of the club has been its encouragement of playwriting. For over thirty years the Masque and Gown has sponsored student-written one-act play contests, with cash prizes. Winners have later written full-length plays, fifteen of which have been produced on campus and four professionally in New York.

MUSIC

Bowdoin offers its students a variety of opportunities in music. Undergraduates participate in the Glee Club, College Chorale, Chamber Orchestra, Meddiebempsters, and chamber music ensembles. Student instrumentalists perform in recitals and concerts of solo and chamber music sponsored by the Bowdoin Music Club.

The Glee Club is a mixed ensemble chosen by audition. It concentrates on the performance of serious choral literature from the Renaissance to the present. Its activities include a Christmas carol concert, spring tour, and two on-campus concerts. In recent years the Glee Club has performed in Williamsburg, Virginia, the National Cathedral, Washington, D. C., and in Boston's Old North Church.

The College Chorale, a large mixed chorus of students, faculty members, and townspeople, presents one major choral work with orchestra each semester. Past performances have included Stravinsky's *Symphony of Psalms*, Poulenc's *Gloria*, Mozart's *Vesperae Solennes*, and Duruflé's *Requiem*.

The Meddiebempsters are a double quartet widely known through their European tours and concerts at other colleges. On several occasions they have performed on network radio and television and have appeared in New York's Town Hall.

Student instrumental ensembles, appearing in numerous concerts on the campus, have presented music by composers as diverse as Monteverdi, Corelli, Stockhausen, Gabrieli, Mozart, Terry Riley, and John Cage. Faculty performers also participate in these ensembles, offering two different series of concerts: those sponsored by the Bowdoin Music Club, featuring a wide range of chamber music from past centuries, and the "Ears" series, specializing in mixed-media works of the avant-garde, incorporating electronics, film, slides, theater, and dance.

Contemporary music plays an important role in Bowdoin's musical life. Student composers often prepare performances of their own works in special concerts, using the services of student, faculty, and visiting instrumentalists. Many visiting composers appear on campus, often in conjunction with Bowdoin's Contemporary Music Festival. These have included Elliott Carter, Milton Babbitt, Virgil Thomson, George Crumb, William Albright, Morton Subotnick, and Ross Lee Finney. Bowdoin operates an electronic music studio with synthesizer, tape decks, and mixing and editing facilities, used by students in the electronic music course and for independent study projects.

Bowdoin is also concerned with music composed before 1750 and is presently building a collection of early instruments for student performance. The collection includes a single-manual Challis harpsichord and a dual-manual Clayton and Garrett harpsichord. Early music is also stressed in the department's choral activities.

When an artist is invited to perform at Bowdoin, his visit often includes discussions with small groups of students, appearances in classes, and the reading of student compositions. The Curtis-Zimbalist Concert Series, established in 1964 and the principal program through which musicians are invited to perform at Bowdoin, has included the New York Pro Musica, the Festival Winds, pianist James Fields, and the New York Chamber Soloists.

Professional teachers are available to give instruction in voice, piano, and other instruments to those students who wish to continue their study of applied music. All students of applied music are also expected to participate in ensembles, and winners of the annual concerto competition perform with the Chamber Orchestra. The College provides practice rooms without charge. Instrumental and music lockers are available in Gibson Hall for a small fee.

The Bowdoin College Summer School of Music offers intensive training to talented young instrumentalists from all parts of the country. The Aeolian Chamber Players, resident faculty of the summer school, present recitals during July and August. In addition, the players have given the world premieres of works commissioned by Bowdoin at Contemporary Music Festivals. Several of these works are published by the Bowdoin College Music Press, whose catalogue lists twenty works.

The Summer School of Music was founded in 1965 to give serious music students and advanced young instrumentalists an opportunity to develop as performers and musicians through a concentrated program of instrumental and chamber music lessons.

During the summer of 1974 enrollment was limited to about forty-five students. Instruction was offered in violin, cello, flute, clarinet, piano, and chamber music. Students were given the opportunity to perform in public at weekly recitals. Upon successfully completing the six-week course, students received one Bowdoin semester course academic credit, the equivalent of four hours, toward the bachelor of arts degree. The Aeolian Chamber Players also presented a series of weekly concerts.

Student Life and Activities

Bowdoin provides for its students a campus life which combines traditional features of the liberal arts college with modern facilities and programs that enrich the experience of undergraduate life. The curriculum offers formal instruction in those subjects appropriate to the development of educated and enlightened citizens. Within this framework students are encouraged, and are permitted sufficient flexibility, to develop their talents and capacities for leadership to the utmost. The physical plant and equipment of the College have been considerably improved in recent years, and visitors are frequently impressed by the quality of these physical facilities, given the modest size of the student body. Along with the library, laboratories, art museum, concert and lecture halls, social center, infirmary, and athletic facilities, continuing attention is given to the less tangible—but more important—intellectual resources of the College. Art shows, lectures, concerts, motion pictures, and legitimate dramatic productions are all planned to provide stimulating experiences which will enhance the student's everyday work within the formal curriculum.

Honor System: A student-initiated proposal, the Bowdoin Honor System was devised with the uniqueness of Bowdoin foremost in mind. As voted by the faculty and students, it places complete responsibility upon the individual student for integrity in all of his academic work, including the use of the library. During registration, each student signs a pledge signifying that he understands and agrees to abide by the Bowdoin College Honor System. In so doing, he is pledging himself neither to give nor to receive unacknowledged aid in any academic undertaking. Further, he is pledging himself, in the event that he witnesses a violation of the Honor System, to "take such action as he believes is consistent with his own sense of honor." Responsibility for instructing students about their obligations under the Honor System resides with the Student Judiciary Board, which also recommends any action in the event of a reported violation. The constitution of the Honor System and other explanatory information are published in a special booklet distributed to all entering students.

Social Code: A Bowdoin College Social Code developed by the cooperative efforts of students and faculty members governs undergraduate behavior on the campus. Each student is required to subscribe to the Social Code at registration just as he accepts the Honor Code.

Primary responsibility is placed upon each student for the conduct of his own life. However, the college environment inevitably demands from every student social responsibility. The introduction to the code states: "The success

of the Social Code requires the active commitment of all members of the community to the principles on which life at Bowdoin is based."

The responsibility to create a harmonious community among students with different backgrounds and conflicting private views of morality is given, in the first place, to the students. When conflicts arise between students, the code suggests that they be settled on the local level where they originate. Persistent and serious violations of this Social Code may be brought to the attention of the dean of students and eventually to the Student Judiciary Board for action.

Living and Dining Accommodations: The College provides living and dining accommodations for its students. Students have the option of requesting to live in coeducational or single-sex dormitories. Entering freshmen live in housing owned by the College. Those electing to join fraternities will, after the first few days, normally take their meals at the fraternity house; others dine at the Moulton Union. Most seniors live and dine at the Senior Center. Students who request and accept room accommodations in the fall are obligated to pay a full year's rent for those accommodations. Further, students who live in campus dormitories are required to hold a regular board bill at the Moulton Union or at the Senior Center in the case of those living there. Students living in College apartments are not required to take a regular board bill. The fraternity chapter houses furnish dining accommodations to their members, with the exception of seniors, and living accommodations for a large proportion of the sophomore and junior classes (the final arrangements for living quarters being contingent upon the size of enrollment and other factors). Both fraternity and dormitory quarters help to promote the valuable friendships and give-and-take of opinion perennially associated with campus life.

Moulton Union: The Union is the community center of the College. It is not merely a building; it is also an organization and a program. Together they represent a well-considered plan for the community life of the College.

The main lounge, with its pleasant fireplace, is arranged for informal use as well as college gatherings: lectures, recitals, receptions, and banquets. The Lancaster Lounge, in the wing opposite the main lounge, and a smaller lounge add flexibility to the main floor area. Also on this floor are the scheduling and information desk and the campus telephone switchboard.

A large, self-service bookstore, which features a broad selection of paperbacks, is located in the southeast corner on the main floor and supplies textbooks and sundries to members of the College.

Extracurricular activities such as the *Bugle*, the Camera Club, and WBOR have offices in the Union.

On the lower floor, food service is provided in a variety of dining rooms with distinctive decor, where members and friends of the College may dine pleasantly for regular meals or between-meal snacks. One of the dining rooms

serves as a banquet room for groups of less than one hundred. Also on this floor are game and television rooms and a mail room.

The facilities resemble those of a club in which there are daily opportunities for new students to meet and form friendships with other students and faculty members. The donor's wish to provide a place where the fires of friendship may be kindled and kept burning has been amply realized.

The formulation of policies and the planning of the many-sided program of activities are the responsibility of the Moulton Union director assisted by the Student Union Committee, consisting of representatives of the Independents and each fraternity. By sponsoring concerts, art exhibitions, motion pictures, tournaments, and other entertainments, the committee contributes to the social life of the entire college community.

Fraternities: Greek-letter fraternities first appeared on the Bowdoin campus in 1841. A century ago their functions were purely literary and social, but with the passing years they have become more and more an integral part of college life. In the early years, the meeting places of the fraternities were known only to their members. Later the members of the various chapters lived together in several of "the ends" of the college dormitories. A new era began in 1900 when two of the Greek-letter societies moved into houses of their own and took over the provision of living and dining facilities. Ordinarily, the sophomore and junior class members live "at the house," while all of the members, with the exception of the seniors, dine there.

Membership in a fraternity provides much more than an attractive eating club, agreeable companionship, occasional house parties, and interfraternity athletic competition. To many graduates, such membership has meant a valuable training in the care of material property and in the maintenance of good relations with the town and with other groups, and cooperation with the administration and the faculty advisers in promoting worthy social and educational goals.

Independents: Nearly half of the students at Bowdoin do not choose to join fraternities. They may take their meals at the Moulton Union or the Senior Center. The College recently constructed garden-type apartments which offer still another pattern of college residential living to Bowdoin students.

Student Council: The control of student life at Bowdoin is entrusted in the fullest possible measure to the students themselves. Undergraduate self-government is vested in the Student Council, which makes recommendations about student affairs to the student body and to the faculty. In addition, the Student Council participates in the broader governance of the campus through representatives chosen by the council to sit on the various committees of the faculty and the Governing Boards.

Student Judiciary Board: The Student Judiciary Board is responsible for in-

roducing new students to the Honor System and Social Code. It also sits in judgment on violations of the Honor System and on breaches of the Social Code. Its decisions take the form of recommendations to the dean of students. The board comprises three seniors and two juniors, all elected by the Student Council.

Student Representatives to Committees of the Faculty and Governing Boards: Most of the committees of the faculty and Governing Boards have invited student representatives to sit with them in their deliberations. This representation has facilitated the exchange of information and points of view between the various constituencies of the College.

Student Committee for the Senior Center: The elected officers of the senior class meet frequently with the director of the Senior Center to assist in program planning. This committee may be augmented by additional representatives of the class, as decided by the seniors at a meeting in the early part of the senior year.

Board of Proctors: The maintenance of order in the dormitories and the responsibility for their proper care are delegated to a Board of Proctors nominated by the Student Council and appointed by the dean of students with the approval of the faculty.

Orient: *The Bowdoin Orient*, the college newspaper, is now in its 104th year of continuous publication. Opportunities for freshmen as "cub" reporters, and for newcomers at the news desk, continue as in the past, and advancement on the staff is rapid for those with a flair for journalism. Students interested in the business management of the newspaper will also find opportunities for work and advancement.

Quill: The *Quill* is the college literary publication and is normally published once each semester. Each issue contains articles in all fields of student literary interest: short stories, essays, poems, and reviews. Contributions are welcomed from all members of the College.

Interfraternity Council: The presidents of the fraternities meet regularly to discuss common problems and to review ways in which fraternities at Bowdoin may contribute more effectively to undergraduate life.

Bugle: The *Bugle* is the college yearbook.

Music: Music activities include the Meddiebempsters, an augmented double quartet; the Glee Club; the Chorale; the Bowdoin Marching Band; and the Chamber Orchestra.

Radio: In WBOR, "Bowdoin-on-Radio," the College has a well-equipped FM radio station as the result of a gift from the Class of 1924. Situated on the second floor of the Moulton Union, both studios and the control room are

sealed against disturbances of sound with acoustical tiling and sound-lock doors. The student-operated station broadcasts daily when classes are in session. Positions as announcers, engineers, newsmen, and sportscasters are numerous and open to any student who has an FCC Third Class Permit with broadcast endorsement.

Debating: In addition to the Achorn and Bradbury Prize debates, intercollegiate debating is sponsored by the Debating Council, and the annual interfraternity debate competition for the Wilmot Brookings Mitchell Debate Trophy is under its general supervision.

Masque and Gown: This college dramatic organization has for over sixty years provided undergraduates with opportunities to give practical expression to their interest in the theater. Townspeople collaborate with the student members of Masque and Gown in many productions. The Executive Committee hopes to continue its policy of producing full-length and one-act plays written by students; the committee also plans to use various experimental production techniques. Under the direction of a member of the faculty and housed in Pickard Theater, the Masque and Gown offers many opportunities for those interested in playwriting, scene design and construction, acting, and business management and publicity.

Political Forum: This student organization actively fosters the discussion and debate of current political practices and problems of local, state, national, and international interest. The forum has instituted the policy of inviting guest speakers to lecture to the college community.

Outing Club: Organized in 1948, the Outing Club sponsors a program of outdoor activities including rock and mountain climbing, cycling, canoeing, and skiing.

White Key: This organization programs and supervises all intramural athletics.

Afro-American Society: Primarily to make the black student proud and aware of his heritage and, at the same time, to convey to the white community an understanding of that heritage by emphasizing black contributions to culture, the Afro-American Society was formed by students in 1968. The society is instrumental in the recruitment of black students and assists black freshmen in making the adjustment to college life. The activities of the society are concentrated in the Afro-American Center.

Voluntary Service Programs: A wide range of social service activities are undertaken by students. About 200 are currently involved and so the programs as a whole represent perhaps the largest single extracurricular activity. Their voluntary nature is their essential characteristic. Students participating in them receive no compensation or academic credit. Each of the major programs

is coordinated by a student leader, and the smaller or individual activities are organized by the voluntary service programs coordinator.

Currently these activities include the Big Brother-Big Sister program, which provides companionship and activities for children of elementary and junior high school age; the Pineland Project of student assistance in a nearby state hospital for the mentally retarded; programs which seek to help the elderly and infirm in the region; a school tutoring program; Bowdoin Undergraduate Teachers, which is of particular interest to those interested in a teaching career since it provides opportunities for direct participation in local school classrooms; and Project Bermuda North, through which students work with the Passamaquoddy Indians in Washington County, Maine, in a variety of ways.

Religious Life: Religious activities at Bowdoin are controlled by the students. In recent years the Bowdoin Christian Association, the Bowdoin Newman Apostolate, and the Bowdoin Jewish Association have been active. Each has planned activities appropriate to its membership. Thus, the Newman Apostolate has sponsored weekly folk Masses on the campus and the Jewish Association has sponsored meetings and lectures.

Career Counseling and Placement

THE COLLEGE offers assistance to students and graduates in solving the problem of employment, both during their undergraduate courses and afterward. Opportunities for undergraduates to do part-time work at the College or in the community, or for information on certain summer employment openings, may usually be obtained through the Student Work Bureau or the Student Aid Office.

Students are encouraged to register early in their college career and to consult the director for vocational counseling and guidance.

A program of assistance is extended to undergraduates and alumni. While the selection of a career must necessarily be left to the individual, the College administers and provides counseling on vocational interest testing; maintains extensive reference material files, including occupational monographs and recent books on business careers; coordinates informal campus sessions with recent alumni, enabling undergraduates to gain firsthand understanding of a variety of occupations and industries; coordinates the visits of graduate school representatives, industry recruiters, and those interested in hiring future teachers; works to expand the network of alumni interested in assisting Bowdoin seniors and recent alumni in making contacts in the business world; strives to maintain updated information on alumni occupations which might be of assistance to all who use the services of the Placement Bureau.

Students planning to enter graduate school are urged to remain in close contact with the premedical school and prelaw school advisers, or the department chairman within the field of study that they plan to follow for a further degree.

The Placement Bureau offers a dossier/reference service and retains a student's file for future reference. However, it is up to each student to recognize the importance of letters of recommendation and to secure an adequate number for his file.

Lectureships

THE REGULAR INSTRUCTION of the College is supplemented each year by ten or twelve major lectures, in addition to lectures, panel discussions, and other presentations sponsored by the various departments of study and undergraduate organizations.

John Warren Achorn Lectureship: Established by Mrs. John Warren Achorn as a memorial to her husband, a member of the Class of 1879. The income is used for lectures on birds and bird life. (1928)

Charles R. Bennett Memorial Fund: Given by Mrs. Mary D. Bennett in memory of her husband, a member of the Class of 1907. The income is made available to the Department of Mathematics preferably for the purpose of meeting the expenses of a visiting mathematics lecturer. (1962)

Chemistry Lecture Fund: By vote of the Governing Boards the balance of \$1,280 from a fund given for Department of Chemistry Lectures is used for special lectures in chemistry. (1939)

Annie Talbot Cole Lectureship: Given by Mrs. Calista S. Mayhew in memory of her niece, Mrs. Samuel Valentine Cole. According to the terms of the gift, this lectureship was established to contribute "to the ennoblement and enrichment of life by standing for the idea that life is a glad opportunity. It shall, therefore, exhibit and endeavor to make attractive the highest ideals of character and conduct, and also, insofar as possible, foster an appreciation of the beautiful as revealed through nature, poetry, music, and the fine arts." (1906)

The Elliott Oceanographic Fund: Established by the Edward Elliott Foundation and members of the Elliott family in memory of Edward L. Elliott, a practicing geologist and mining engineer who expressed a life-long interest in science and the sea. The fund is to be used in support of oceanographic education, in its widest definition, for Bowdoin students. It is expected that at least part of the fund will be used to support the Elliott Lectures in Oceanography, which were inaugurated in 1971. (1973)

Alfred E. Golz Lectureship: Supported by an annual gift from Ronald A. Golz, of the Class of 1956, in memory of his father, it provides for an annual lecture "by an eminent historian or humanitarian on any subject of general import to students of the liberal arts." (1970)

Mayhew Lecture Fund: This lectureship was founded by Mrs. Calista S. Mayhew. The income from the bequest is used to provide lectures on bird life and its effect on forestry. (1923)

Charles Weston Pickard Lecture Fund: Given by John Coleman Pickard, of the Class of 1922, in memory of his grandfather, a member of the Class of 1857. Beginning with the academic year 1963-1964, and every four years thereafter, the income is used to provide a lecture in the field of journalism in its broadest sense. "By journalism is meant lines of communication with the public, whether through newspapers, radio, television, or other recognized media." (1961)

Edith Lansing Koon Sills Lecture Fund: Established by the Society of Bowdoin Women to honor Mrs. Kenneth C. M. Sills, the wife of a former president of Bowdoin College. The fund is to be used to support lectures at the College. (1961)

The Jasper Jacob Stahl Lectureship in the Humanities: Established by the bequest of Jasper Jacob Stahl, of the Class of 1909, the annual income from this fund is "to support a series of lectures to be delivered annually at the College by some distinguished scholarly and gifted interpreter of the Art, Life, Letters, Philosophy, or Culture, in the broadest sense, of the Ancient Hebraic World, or of the Ancient Greek World or of the Roman World, or of the Renaissance in Italy and Europe, or of the Age of Elizabeth I in England, or that of Louis XIV and the Enlightenment in France, or of the era of Goethe in Germany." (1970)

The Student Council Lectureship: This lectureship, an annual gift to the College from the Student Council, was established to provide a lecture on a topic of interest to students. (1958)

Tallman Lecture Fund: This fund was established with a gift of \$100,000 by Frank G. Tallman, A.M. (Bowdoin, 1935), as a memorial to the Bowdoin members of his family. The income is to be expended annually upon a series of lectures to be delivered by persons selected by the faculty. In addition to offering a course for undergraduates, a Visiting Professor on the Tallman Foundation gives public lectures on the subject of special interest. (1928)

The Visiting Professor on the Tallman Foundation for 1973-1974 was Mario Valenzuela, LL.B., A.M., former director general of the Chilean Ministry of Foreign Affairs.

Prizes and Distinctions

THE BOWDOIN PRIZE: A fund, now amounting to \$45,536, established as a memorial to William John Curtis, LL.D., of the Class of 1875, by his wife and children. The prize, four-fifths of the total income, is to be awarded "once in each five years to the graduate or former member of the College, or member of its faculty at the time of the award, who shall have made during the period the most distinctive contribution in any field of human endeavor. The prize shall only be awarded to one who shall, in the judgment of the committee of award, be recognized as having won national and not merely local distinction, or who, in the judgment of the committee, is fairly entitled to be so recognized." (1928)

The first award was made in 1933 and the most recent in 1973. Recipient of the award in 1973 was Leonard W. Cronkhite, Jr., M.D., LL.D., of the Class of 1941.

The Paul Kendall Niven, Jr., Memorial Fund: This fund, which currently amounts to \$5,281, was established in memory of a member of the Class of 1946 who was a distinguished radio and television journalist. The accumulated income is to be awarded once in every four years to the television or radio news commentator or figure who during the preceding four years is judged to have done the most outstanding job of interpreting and presenting the news to the public. It is hoped that the recipient will present a public lecture at the College at the time of receiving the award. (1971)

UNDERGRADUATE PRIZES

Prizes in General Scholarship

Brown Memorial Scholarships: A fund for the support of four scholarships in Bowdoin College given by the Honorable J. B. Brown, of Portland, in memory of his son, James Olcott Brown, A.M., of the Class of 1856. According to the provisions of this foundation, there will be paid annually the income of \$1,000 to the best scholar in each undergraduate class who shall have graduated at the high school in Portland after having been a member thereof not less than one year. The awards are made by the City of Portland upon recommendation of the College. (1865)

Almon Goodwin Prize Fund: This fund of \$1,799 was established by Mrs. Maud Wilder Goodwin in memory of her husband, Almon Goodwin, of the Class of 1862. The annual income is awarded to a Phi Beta Kappa man chosen by vote of the Board of Trustees of the College at the end of the recipient's junior year. (1906)

George Wood McArthur Prize: A fund of \$3,023 bequeathed by Almira L. McArthur, of Saco, in memory of her husband, George Wood McArthur, of the Class of 1893. The annual income is awarded as a prize to that member of the graduating class who, coming to Bowdoin as the recipient of a pre-matriculation scholarship, shall have attained the highest academic standing among such recipients within the class. (1950)

Leonard A. Pierce Memorial Prize: A prize, established by friends and associates, consisting of the income of a fund of \$5,774. It is awarded annually to that member of the graduating class who is continuing his education in an accredited law school and who attained the highest scholastic average during his years in college. It is paid to the recipient on his enrollment in law school. (1960)

Departmental Prizes

Sue Winchell Burnett Music Prize: A prize consisting of the annual income of a fund of \$1,653 established by Mrs. Rebecca P. Bradley in memory of Mrs. Sue Winchell Burnett. It is awarded upon recommendation of the Department of Music to that member of the senior class who has majored in music and has made the most significant contribution to music while a student at Bowdoin. If two students make an equally significant contribution, the prize will be divided equally between them. (1963)

Class of 1875 Prize in American History: A prize consisting of the annual income of a fund of \$6,838 established by William John Curtis, LL.D., of the Class of 1875, is awarded to the student who writes the best essay and passes the best examination on some assigned subject in American history. (1901)

Copeland-Gross Biology Prize: A prize from a fund of \$319 named in honor of two former Josiah Little Professors of Natural Science, Manton Copeland and Alfred Otto Gross, Sc.D., is awarded to that graduating senior who has best exemplified the idea of a liberal education during the major program in biology. (1972)

Hannibal Hamlin Emery Latin Prize: A prize consisting of the annual income of a fund of \$1,799 is awarded to a member of the junior or senior class for proficiency in Latin. (1922)

Fessenden Prize in Government: A prize of \$25, the gift of Richard Dale, of the Class of 1954, is given by the Department of Government to that graduating senior who as a government major has made the greatest improvement in his studies in government, who has been accepted for admission into either law or graduate school or has been accepted for employment in one of certain federal services, and who is a United States citizen. (1964)

Goodwin French Prize: A prize consisting of the annual income of a fund

of \$983 given by the Reverend Daniel Raynes Goodwin, D.D., of the Class of 1832, is awarded to the best scholar in French. (1890)

Nathan Goold Prize: A prize consisting of the annual income of a fund of \$3,896 established by Abba Goold Woolson, of Portland, in memory of her grandfather. It is awarded to that member of the "Senior Class who has, throughout his college course, attained the highest standing in Greek and Latin studies." (1922)

Edwin Herbert Hall Physics Prize: A prize, named in honor of Edwin Herbert Hall, LL.D., of the Class of 1875, the discoverer of the Hall Effect, is awarded each year to the best sophomore scholar in the field of physics. The prize consists of the income of a fund amounting to \$2,931. (1953)

Edward Sanford Hammond Mathematics Prize: The annual income of a fund amounting to \$1,951 is used to purchase a book that is awarded on recommendation of the Department of Mathematics to a graduating senior who is completing a major in mathematics with distinction. Any balance of the income from the fund may be used to purchase books for the department. The prize honors the memory of Edward S. Hammond, for many years Wing Professor of Mathematics, and was established by his former students at the time of his retirement. (1963)

Jefferson Davis Award: A prize consisting of the three-volume *Biography of Jefferson Davis* by Hudson Strode and the annual income of a fund of \$7,129 is awarded to the student excelling in constitutional law. (1973)

Sumner Increase Kimball Prize: A prize consisting of the annual income of a fund of \$4,231 established by Sumner Increase Kimball, Sc.D., of the Class of 1855, is awarded to that member of the senior class who has "shown the most ability and originality in the field of the Natural Sciences." (1923)

Eaton Leith French Prize: The annual income of a fund of \$2,105 is awarded to that member of the sophomore or junior class who, by his proficiency and scholarship, achieves outstanding results in the study of French literature. The prize was established in 1962 and endowed in 1966 by James M. Fawcett III, of the Class of 1958, to honor Eaton Leith, professor of Romance languages emeritus. (1962)

Noel C. Little Prize in Experimental Physics: A prize amounting to the income of a fund of \$385 named in honor of Noel C. Little, Sc.D., of the Class of 1917, professor of physics emeritus, and Josiah Little Professor of Natural Science Emeritus, to be awarded "to a graduating senior who has distinguished himself in experimental physics." (1968)

Charles Harold Livingston Honors Prize in French: The annual income of a fund of \$1,529 is awarded to encourage independent scholarship in the

form of honors theses in French. The fund was established by former students of Charles Harold Livingston, Longfellow Professor of Romance Languages, upon the occasion of his retirement. (1956)

Donald and Harriet S. Macomber Prize in Biology: A fund of \$6,490 established by Dr. and Mrs. Donald Macomber in appreciation for the many contributions of Bowdoin in the education of members of their family—David H. Macomber '39, Peter B. Macomber '47, Robert A. Zottoli '60, David H. Macomber, Jr. '67, and Steven J. Zottoli '69. The income of the fund is to be awarded annually as a prize to the outstanding student in the Department of Biology. If in the opinion of the department in any given year there is no student deemed worthy of this award, the award may be withheld and the income for that year added to the principal of the fund. (1967)

Philip Weston Meserve Fund: A prize consisting of the annual income of a fund of \$915 in memory of Professor Philip Weston Meserve, of the Class of 1911, "to be used preferably to stimulate interest in Chemistry." (1941)

Noyes Political Economy Prize: A prize consisting of the annual income of a fund of \$1,799 established by Crosby Stuart Noyes, A.M. (Bowdoin, 1887), is awarded to the best scholar in political economy. (1897)

The Old Broad Bay Prizes in Reading German: The income from a fund of \$1,561 given by Jasper J. Stahl, Litt.D., of the Class of 1909, and by others to be awarded to students who in the judgment of the department have profited especially from their instruction in German. The fund is established as a living memorial to those remembered and unremembered men and women from the valley of the Rhine who in the eighteenth century founded the first German settlement in Maine at Broad Bay, which is now Waldoboro. (1964)

Pray English Prize: A prize consisting of the annual income of a fund of \$1,946 given by Thomas Jefferson Worcester Pray, M.D., of the Class of 1844, is awarded to the best scholar in English literature and original English composition. (1889)

Sewall Greek Prize: A prize of \$25 from the income of a fund of \$2,354 given by Jotham Bradbury Sewall, S.T.D., of the Class of 1848, formerly professor of Greek in the College, is awarded to the member of the sophomore class who sustains the best examination in Greek. (1879)

Sewall Latin Prize: A prize of \$25 from the income of a fund of \$2,354 given by Professor Sewall is awarded to the member of the sophomore class who sustains the best examination in Latin. (1879)

David Sewall Premium: A prize consisting of the annual income of a fund

of \$1,871 is awarded to a member of the freshman class for excellence in English composition. (1795)

Bertram Louis Smith, Jr., Prize: A fund of \$6,136 established from the bequest of Bertram Louis Smith, in memory of his son, a member of the Class of 1903, to encourage excellence of work in English literature. The annual income of this fund is awarded by the department to a member of the junior class who has completed two years' work in English literature. Ordinarily, it is awarded to a student majoring in English and performance of major work as well as record in courses is taken into consideration. (1925)

Smyth Mathematical Prize: A fund of \$10,509, the gift of Henry Jewett Furber, of the Class of 1861, named by him in honor of Professor William Smyth. Three hundred dollars, the income of the fund, is given to that student in each sophomore class who obtains the highest rank in the mathematical studies of the first two years. The rank is determined mainly by the daily recitations, but the faculty may in its discretion order a special examination, the result of which will be combined with the recitation rank. The successful candidate receives one-third of the prize at the time the award is made. The remaining two-thirds is paid to him in installments at the close of each term during junior and senior years. If a vacancy occurs during those years, the next in rank secures the benefit of the prize for the remainder of the time. (1876)

Lea Ruth Thumim Biblical Literature Prize: A prize consisting of the annual income of a fund of \$1,314 given by Carl Thumim in memory of his wife, Lea Ruth Thumim, is awarded each year by the Department of Religion to the best scholar in biblical literature. (1959)

Prizes in Debating and Speaking

Edgar Oakes Achorn Prize Fund: The income of this fund of \$1,836 is distributed as prizes to the winning team in an annual debate between members of the freshman and sophomore classes. (1932)

Alexander Prize Fund: This fund of \$2,250 was established by DeAlva Stanwood Alexander, LL.D., of the Class of 1870, and furnishes two prizes, three-fifths and two-fifths of the annual income for excellence in select declamation. Competition is open to freshmen, sophomores, and juniors. (1905)

Bradbury Debating Prize: The annual income on \$3,220 of a fund of \$7,755 given by James Ware Bradbury, LL.D., of the Class of 1825, is awarded for excellence in debating. First team, two-thirds of the income; second team, one-third of the income. (1901)

Class of 1868 Prize: A prize of \$100, supported from a fund of \$1,634 con-

tributed by the Class of 1868, is awarded to the author of the second-best Commencement Part. (1868)

Hiland Lockwood Fairbanks Prize Fund: This fund of \$3,605 was established by Captain Henry Nathaniel Fairbanks, of Bangor, in memory of his son Hiland Lockwood Fairbanks, of the Class of 1895. Of the annual income of approximately \$230, one-half is awarded as a single prize of approximately \$60 for excellence in **English 4** and the remaining one-half, in a two-to-one ratio, is awarded as first and second prizes to the two outstanding students in **English 3**. (1909)

Goodwin Commencement Prize: Established by the Reverend Daniel Raynes Goodwin, D.D., of the Class of 1832, a prize of \$200 is awarded to the author of the best Commencement Part. (1882)

Wilmot Brookings Mitchell Debate Trophy: This trophy, presented by an anonymous donor, is to be inscribed annually with the winner of a competition among the undergraduate groups and awarded to that group which has won three annual competitions. (1953)

Stanley Plummer Prizes: The annual income of a fund of \$1,596 established by Stanley Plummer, of the Class of 1867, is awarded to the two outstanding students in **English 5**. First and second prizes are awarded in a two-to-one ratio. (1919)

Essay Prizes

Philo Sherman Bennett Prize Fund: This fund of \$910 was established by William Jennings Bryan from trust funds of the estate of Philo Sherman Bennett, of New Haven, Connecticut. The income is used for a prize for the best essay discussing the principles of free government. Competition is open to juniors and seniors. (1905)

Brown Composition Prizes: Two prizes from the annual income of a fund of \$2,163 established by Philip Greely Brown, A.M., of the Class of 1877, in memory of Philip Henry Brown, Esq., A.M., of the Class of 1851, are offered to members of the senior class for excellence in extemporaneous English composition. (1874)

General R. H. Dunlap Prize: This fund of \$5,317 was established by Katharine Wood Dunlap in memory of her husband, Robert H. Dunlap, Brigadier General, U.S.M.C. The annual income is to be awarded to the student who writes the best essay on the subject of "service." (1970)

Horace Lord Piper Prize: A prize consisting of the income of a fund of \$2,169 established by Sumner Increase Kimball, Sc.D., of the Class of 1855, in memory of Major Horace Lord Piper, of the Class of 1863. It is awarded to

that member of the sophomore class who presents the best "original paper on the subject calculated to promote the attainment and maintenance of peace throughout the world, or on some other subject devoted to the welfare of humanity." (1923)

Prizes in Creative Arts

Bowdoin Orient Prizes: Six cash prizes are offered by the Bowdoin Publishing Company and are awarded each spring to those members of *The Bowdoin Orient* staff who have made significant contributions to the *Orient* in the preceding volume. (1948)

Abraham Goldberg Prize: A prize of \$10, from a bequest of Abraham Goldberg, is awarded annually to that member of the senior class who, in the opinion of a faculty committee of which the director of theater is chairman, has shown, in plays presented at the College during the two years preceding the date of award, the most skill in the art of designing or directing. (1960)

Hawthorne Prize: The income of a fund of \$374 given in memory of Robert Peter Tristram Coffin, Litt.D., of the Class of 1915, Pierce Professor of Literature, and in memory of the original founders of the Hawthorne Prize: Nora Archibald Smith and Kate Douglas Wiggin, Litt.D. It is awarded each year to the author of the best short story. The competition is open to members of the sophomore, junior, and senior classes. (1903)

Masque and Gown Figurine: A figurine, "The Prologue," carved by Gregory Wiggin, is presented annually to the author of the prize-winning play in the One-Act Play Contest, and held by him until the following contest. (1937)

Masque and Gown One-Act Play Prizes: Cash prizes are awarded annually for excellence in various Masque and Gown activities, including playwriting, directing, and acting. (1934)

Alice Merrill Mitchell Prize: A prize consisting of the annual income of a fund of \$2,660, given by Wilmot Brookings Mitchell, L.H.D., of the Class of 1890, Edward Little Professor of Rhetoric and Oratory, in memory of his wife, Alice Merrill Mitchell, is awarded annually to that member of the senior class who, in the opinion of a faculty committee of which the director of theater is chairman, has shown, in plays presented at the College during the two years preceding the date of award, the most skill in the art of acting. (1951)

Poetry Prize: The annual income of a fund of \$441.16 is given each semester for the best poem on Bowdoin written by an undergraduate. (1926)

George H. Quinby Award: Established in honor of "Pat" Quinby, for thirty-one years director of dramatics at Bowdoin College, by his former stu-

dents and friends in Masque and Gown, the award is presented annually to the first-year member of Masque and Gown who makes an outstanding contribution through his interest and participation in Masque and Gown productions. The recipient is selected by the director of theater, the theater technician, and the president of Masque and Gown. The award consists of the income from a fund of \$2,576. (1967)

Forbes Rickard, Jr., Poetry Prize: A prize consisting of the annual income of a fund of \$821 given by a group of alumni of the Bowdoin chapter of Alpha Delta Phi Fraternity in memory of Forbes Rickard, Jr., of the Class of 1917, who lost his life in the service of his country, is awarded to the undergraduate writing the best poem. (1919)

Mary B. Sinkinson Short Story Prize: A prize consisting of the annual income of a fund of \$2,408 established by John Hudson Sinkinson, of the Class of 1902, in memory of his wife, Mary Burnett Sinkinson, is awarded each year for the best short story written by a member of the junior or senior class. (1961)

Awards for Character and Leadership

Leslie A. Claff Track Trophy: A trophy presented by Leslie A. Claff, of the Class of 1926, to be awarded "at the conclusion of the competitive year to the outstanding performer in track and field athletics who, in the opinion of the Dean, the Director of Athletics, and the Track Coach, has demonstrated outstanding ability accompanied with those qualities of character and sportsmanship consistent with the aim of intercollegiate athletics in its role in higher education." (1961)

Francis S. Dane Baseball Trophy: A trophy presented to the College by friends and members of the family of Francis S. Dane, of the Class of 1896, is awarded each spring "to that member of the varsity baseball squad who, in the opinion of a committee made up of the Dean of the College, the Director of Athletics, and the Coach of Baseball, best exemplifies high qualities of character, sportsmanship, and enthusiasm for the game of baseball." (1965)

William J. Fraser Basketball Trophy: The William J. Fraser Basketball Trophy, presented by Harry G. Shulman, A.M. (Bowdoin 1971), in memory of William J. Fraser, of the Class of 1954, is awarded annually to that member of the basketball team who best exemplifies the spirit of Bowdoin basketball. The recipient is selected by the coach, the athletic director, and the dean of the College. (1969)

Andrew Allison Haldane Cup: A cup given by fellow officers in the Pacific in memory of Captain Andrew Allison Haldane, USMCR, of the Class of 1941, awarded to a member of the senior class who has outstanding qualities of leadership and character. (1945)

Lucien Howe Prize: A fund of \$7,670, given by Lucien Howe, M.D., Sc.D., of the Class of 1870. Fifty dollars from the income is "awarded by the Faculty to that member of the Senior Class who, during his college course, by example and influence has shown the highest qualities of gentlemanly conduct and character, the award to be either in cash or in the form of a medal, according to the wish of the recipient." The remainder is expended by the president to improve the social life of the undergraduates. (1920)

Winslow R. Howland Football Trophy: A trophy presented to the College by his friends in memory of Winslow R. Howland, of the Class of 1929, is awarded each year to that member of the varsity football team who has made the most marked improvement on the field of play during the football season, and who has shown the qualities of cooperation, aggressiveness, enthusiasm for the game, and fine sportsmanship so characteristic of Winslow Howland. (1959)

Elmer Longley Hutchinson Cup: A cup given by the Bowdoin chapter of Chi Psi Fraternity in memory of Elmer Longley Hutchinson, of the Class of 1935, is awarded annually to a member of the varsity track squad for high conduct both on and off the field of sport. (1939)

Samuel A. Ladd Tennis Trophy: A trophy presented by Samuel Appleton Ladd, Jr., of the Class of 1929, and Samuel Appleton Ladd III, of the Class of 1963, awarded to a member of the varsity team who during the year by his sportsmanship, cooperative spirit, and character has done the most for tennis at Bowdoin. The award winner's name is to be inscribed on the trophy. (1969)

George Levine Memorial Soccer Trophy: A trophy presented by Lieutenant Benjamin Levine, coach of soccer in 1958, is awarded to that member of the varsity soccer team exemplifying the traits of sportsmanship, valor, and desire. (1958)

Robert B. Miller Trophy: A trophy, given by former Bowdoin swimmers, in memory of Robert B. Miller, coach of swimming, is awarded annually "to the Senior who, in the opinion of the coach, is the outstanding swimmer on the basis of his contribution to the sport." Winners will have their names inscribed on the trophy and will be presented with bronze figurines. (1962)

Hugh Munro, Jr., Memorial Trophy: A trophy given by his family in memory of Hugh Munro, Jr., of the Class of 1941, who lost his life in the service of his country. It is inscribed each year with the name of that member of the Bowdoin varsity hockey team who best exemplifies the qualities of loyalty and courage which characterized the life of Hugh Munro, Jr. (1946)

Paul Nixon Basketball Trophy: Given to the College by an anonymous donor and named in memory of Paul Nixon, L.H.D., dean at Bowdoin from

1918 to 1947, in recognition of his interest in competitive athletics and sportsmanship, this trophy is inscribed each year with the name of the member of the Bowdoin varsity basketball team who has made the most valuable contribution to this team through his qualities of leadership and sportsmanship. (1959)

Col. William Henry Owen Premium: An award of the income of a fund of \$1,002 established by Frederick Wooster Owen, M.D., in memory of his brother, a member of the Class of 1851, is awarded at commencement "to some graduating student recognized by his fellows as a humble, earnest, and active Christian." (1916)

Wallace C. Philoon Trophy: Given by Wallace Copeland Philoon, M.S., Major General, U.S.A., of the Class of 1905, this trophy is awarded each year to a nonletter winner of the current season who has made an outstanding contribution to the football team. The award is made to a man who has been faithful in attendance and training and has given his best efforts throughout the season. (1960)

William J. Reardon Memorial Football Trophy: A replica of this trophy, which was given to the College by the family and friends of William J. Reardon, of the Class of 1950, is presented each year to a senior on the varsity football team who has made an outstanding contribution to his team and his college as a man of honor, courage, and ability, the qualities which William J. Reardon exemplified at Bowdoin College on the campus and on the football field. (1958)

Franklin Delano Roosevelt Cup: A cup, furnished by the Bowdoin chapter of Alpha Delta Phi Fraternity, is inscribed annually with the name of that member of the three lower classes whose vision, humanity, and courage most contribute to making Bowdoin a better college. (1945)

Harry G. Shulman Hockey Trophy: This trophy is awarded annually to that member of the hockey squad who has shown outstanding dedication to Bowdoin hockey. The recipient will be elected by a vote of the coach, the athletic director, and the dean of the College. (1969)

Prizes in Extracurricular Activities and Scholarship

James Bowdoin Cup: This cup, given by the Alpha Rho Upsilon Fraternity, is awarded annually on James Bowdoin Day to the student who in his previous college year has won a varsity letter in active competition and has made the highest scholastic average among the students receiving varsity letters. In case two or more students should have equal records, the award shall go to the one having the best scholastic record during his college course. The name of

the recipient is to be engraved on the cup and the cup retained for the following year by that college group (fraternity or nonfraternity) of which the recipient is a member. (1947)

Orren Chalmer Hormell Cup: A cup, given by the Sigma Nu Fraternity at the College, in honor of Orren Chalmer Hormell, Ph.D., D.C.L., DeAlva Stanwood Alexander Professor of Government Emeritus, is awarded each year to a sophomore who, as a freshman, competed in freshman athletic competition as a regular member of a team, and who has achieved outstanding scholastic honors. A plaque inscribed with the names of all of the cup winners is kept on display. (1949)

Roliston G. Woodbury Memorial Award: Established in 1963 as the Roliston G. Woodbury Award by the Textile Veterans Association to honor the contributions of Roliston G. Woodbury, of the Class of 1922 and a member of the Board of Overseers, to the textile industry, it was renamed the Roliston G. Woodbury Memorial Award following his death in 1968. The annual award consists of a \$50 U. S. Savings Bond and a bronze medallion and is awarded to a student on the basis of scholarship, leadership, and extracurricular activities. (1963)

Military Prizes

General Philoon Trophy: A cup given by Wallace Copeland Philoon, M.S., Major General, U.S.A., of the Class of 1905, is awarded each autumn to that member of the senior class who has made the best record at the summer camp of the ROTC. (1951)

Pershing-Presnell Sword: A sword presented in honor of General John J. Pershing to Major John Finzer Presnell, Jr., '36, as the First Captain of the Class of 1940 at the United States Military Academy. Following the death of Major Presnell in the Second World War, his parents gave the sword to Bowdoin College. The Pershing-Presnell Sword is assigned to the Cadet Commander of the Bowdoin College Reserve Officers' Training Corps Unit, and the shield bearing the sword is inscribed with his name. (1951)

Miscellaneous Prize

Abraxas Award: A plaque is awarded to the school sending two or more graduates to the College, whose representatives maintain the highest standing during their freshman year. This award was established by the Abraxas Society. (1915)

PHI BETA KAPPA

The Phi Beta Kappa Society, national honorary fraternity for the recognition and promotion of scholarship, was founded at the College of William

and Mary in 1776. The Bowdoin Chapter (Alpha of Maine), the sixth in order of establishment, was founded in 1825.

Election is on the basis of scholarly achievement, in estimating which, consideration is given primarily to grades in courses, secondarily (at graduation) to departmental honors. Elections may be held twice a year—in February and June. Candidates must have completed twenty-four semester units for college credit.

Officers: Dennis J. Hutchinson '69, president; William B. Whiteside, vice president; Richard E. Morgan '59, secretary.

JAMES BOWDOIN DAY

Named in honor of the earliest patron of the College, James Bowdoin Day was instituted in 1941 to accord recognition to those undergraduates who distinguish themselves in scholarship. The exercises consist of the announcement of awards, the presentation of books, a response by an undergraduate, and an address.

The James Bowdoin Scholarships, carrying no stipend, are awarded to undergraduates who have completed two semesters' work, in recognition of high scholarship in their courses to date.

A book, bearing a replica of the early college bookplate serving to distinguish the James Bowdoin Collection in the library, is presented to every undergraduate who has carried a full course program and has received a grade of High Honors in each of his courses during the last academic year.

FACULTY DEVELOPMENT FUND

This fund, now amounting to approximately \$279,313, was established by Charles Austin Cary, LL.D., of the Class of 1910. The income from the fund is expended each year "for such purpose or purposes, to be recommended by the President and approved by the Governing Boards, as shall be deemed to be most effective in maintaining the caliber of the Faculty." These purposes may include, but not be limited to, support of individual research grants, productive use of sabbatical leaves, added compensation for individual merit or distinguished accomplishment, other incentives to encourage individual development of teaching capacity, and improvement of faculty salaries.

FACULTY RESEARCH FUND

This fund, founded by the Class of 1928 on the occasion of its twenty-fifth anniversary and amounting to \$21,208, is open to additions from other classes and individuals. The interest from the fund is used to help finance research projects carried on by members of the faculty.

SUMNER TUCKER PIKE FUND

This fund, amounting to \$1,565, was established by an anonymous donor in 1966 in recognition of the many significant services to the country and to the College of Sumner T. Pike, LL.D., of the Class of 1913. The principal and/or income of this fund is to be applied at the discretion of the President of Bowdoin College, with preference given to support of research and/or publications of studies in the social sciences (including history).

UNDERGRADUATE RESEARCH ASSISTANCE**Surdna Foundation Undergraduate Research
Fellowship Program**

An undergraduate research fellowship program established in 1959 was re-named in 1968 the Surdna Foundation Undergraduate Research Fellowship program in recognition of two gifts of the Surdna Foundation, of Yonkers, New York. The income from a fund of \$218,258, which these gifts established, underwrites the program's costs. Fellowships may be awarded annually to highly qualified seniors. Each Surdna Fellow participates under the direction of a faculty member in a research project in which the faculty member is independently interested.

The purpose is to engage the student directly in a serious attempt to extend man's knowledge. Each project to which a Surdna Fellow is assigned must therefore justify itself independently of the program, and the fellow is expected to be a participant in the research, not a mere observer or helper. The nature of the projects differs from discipline to discipline, but all should give the fellow firsthand acquaintance with productive scholarly work. Should the results of the research be published, the faculty member in charge of the project is expected to acknowledge the contribution of the Surdna Fellow and of the program.

Surdna Fellows are chosen each spring for the following academic year. Awards are made on the basis of the candidate's academic record and departmental recommendation, his particular interests and competence, and the availability at the College of a research project commensurate with his talents and training. Acceptance of a Surdna Fellowship does not preclude working for Honors and the financial need of a candidate does not enter into the awarding of fellowships. Surdna Fellows are, however, obligated to refrain from employment during the academic year.

Alfred O. Gross Fund

This fund of \$7,576, established by Alfred Otto Gross, Ph.D., Sc.D., Josiah Little Professor of Natural Science, and members of his family, is designed

to assist worthy students in doing special work in biology, preferably ornithology. Income from the fund may be used for such projects as research on Kent Island, travel to a given region or library for particular work, purchase of special apparatus, attendance at an ornithological congress or other scholarly gatherings, and publication of the results of research. Although the fund is administered by Bowdoin College, assistance from the fund is not limited to Bowdoin students.

Fritz C. A. Koelln Research Fund

This fund, which amounts to \$1,122, was established in 1972 by John A. Gibbons, Jr., of the Class of 1964, to honor Fritz C. A. Koelln, professor of German and George Taylor Files Professor of Modern Languages Emeritus, who was an active member of the Bowdoin faculty from 1929 until 1971. A maximum grant of \$250 may be awarded annually to a faculty-student research team to support an interdisciplinary research project. At the discretion of the granting committee, the award may be to defray travel and research expenses, to purchase books and equipment, to pay costs of publishing research results, as a direct stipend to the students or any combination of the above. In no case shall the award take the form of a direct stipend to the faculty member.

Edward E. Langbein Summer Research Grant

An annual gift of the Bowdoin Family Association is awarded under the direction of the president of the College to undergraduates or graduates to enable the recipients to participate in summer research or advanced study directed towards their major field or life work. Formerly the Bowdoin Fathers Association Fund, the grant was renamed in 1970 in memory of a former president and secretary of the association.

UNDERGRADUATE INTERNSHIPS

Earle S. Thompson Student Fund

A fund of \$27,619 given in 1967 in honor of Earle S. Thompson, LL.D., of the Class of 1914, to provide administrative internships for seniors in Bowdoin's Senior Center Program.

Public Affairs Research Center

THE PUBLIC AFFAIRS RESEARCH CENTER was established in September 1966 through the merger of the Bureau for Research in Municipal Government (established in 1914) and the Center for Economic Research (established in 1958). A full-time professional staff enables the center to carry on a program of identification, preparation, and administration of research investigations dealing generally with economic conditions, community government, regional development, and public administration. These activities are financed through research contracts with government and business organizations, as well as through the assistance of foundation grants and contributions from business firms and individuals.

In addition to special research reports, the center edits the *Maine Business Indicators* for the Maine National Bank. They contain widely used economic analyses as well as the monthly Maine Business Index. Monographs dealing with various aspects of government activity in Maine—the Government Research Series—are also available through the center. As an established 1970 Census Summary Tape Processing Center, PARC has already analyzed and printed a great quantity of census data for public and private organizations.

Within this general framework PARC exercises a unique role in Maine as a research and information center. In addition to the formal studies, the staff of the center is available to answer specific requests for information about socio-economic conditions in Maine that are of concern to business firms, government officials, or other organizations and individuals. An informal advisory group to the center is composed of chairmen of the Departments of Economics, Government, and Sociology of Bowdoin College who, by virtue of their experience and interest, can assist in the development and execution of the research program of the center. Students are encouraged to participate in projects of the center and to utilize its library.

The offices of the Public Affairs Research Center are located on the first floor of Hubbard Hall. Here also is the center's library of books, reports, and periodicals covering its fields of interest. This library, supplemented by the regular collection in the Hawthorne-Longfellow Library, is available for consultation and along with the facilities of the Bowdoin Computing Center provides the basis for answering requests for specific information. Inquiries should be directed to the Public Affairs Research Center, Bowdoin College, Brunswick, Maine 04011.

Bowdoin Scientific Station

THE COLLEGE maintains a field station at Kent Island, off Grand Manan, in the Bay of Fundy, New Brunswick, Canada, where qualified students can conduct field work on biological problems. Kent Island, containing about two hundred acres and several buildings, was presented to the College in 1935 by John Sterling Rockefeller. Charles E. Huntington, professor of biology, is the director of the station.

This valuable scientific resource of the College is a major seabird breeding ground and the home of various land birds. Its location makes it a concentration point for migrating birds in spring and fall. The famous Fundy tides create excellent opportunities for the study of marine biology. The terrestrial habitats, including spruce woods, bogs, and meadows, are surprisingly varied for an island of this size.

No formal courses are offered at the station, but students from Bowdoin and other institutions are encouraged to select problems for investigation at Kent Island during the summer and to conduct field work on their own initiative with the advice and assistance of the Department of Biology. Approved work at the station is acceptable for credit as independent study. Financial assistance for students doing research at Kent Island is available from the Alfred O. Gross Fund (see pages 217-218).

Faculty members and graduate students from other institutions have often used the facilities of the station in their research. They have helped the undergraduate members of the station through informal instruction and as examples of experienced investigators at work.

Field trips of short duration to Kent Island are a feature of Bowdoin's courses in ecology and ornithology.

Breckinridge Public Affairs Center

THE BRECKINRIDGE PUBLIC AFFAIRS CENTER was given to Bowdoin College in 1974 by Mr. and Mrs. Jefferson Patterson of St. Leonard, Maryland, and Washington, D. C. Situated on a twenty-three-acre estate on the York River in southern Maine, the center includes a twenty-five room main house, a formal garden, playhouse, gymnasium, tennis court, loggia, and large circular swimming pool. Built in the French tradition with capped chimneys, hipped dormers, and a mansard roof about the portico, the main house was designed by Guy Lowell in 1905 and reconstructed in 1927 following a fire. Among the many stunning and harmonious furnishings in the house are sixteenth-century Italian hangings, an eighteenth-century French tapestry, and a rectangular dining room table, the top of which was carved from a single block of veined Italian marble. Paintings in the drawing room include a Sully portrait of former Princeton President Samuel Stanhope Smith and a Jouett portrait of Mrs. John Breckinridge, both ancestors of Mrs. Patterson.

Bowdoin intends to use the center, which was dedicated to the memory of members of Mrs. Patterson's family, for a variety of educational and cultural programs such as seminars, workshops, institutes, lectures, concerts, forums, and conferences. Many of the programs will be shared with residents of York and surrounding communities.

The Research Institute of the Gulf of Maine (TRIGOM)

BOWDOIN COLLEGE is a charter member of the Research Institute of the Gulf of Maine, which is a nonprofit corporation established as a consortium to carry out research and education projects related to oceanography. The projects which TRIGOM executes involve faculty members and students as well as the physical facilities of institutional members. None of the participating institutions lose any of their autonomy with respect to any of TRIGOM's programs, however.

Much of the impetus for this consortium followed from a conference on oceanography at Bowdoin College in 1967. Physical space has been provided by the University of Maine at Portland-Gorham. Staffing, including the position of executive director, has been made possible through legislative appropriations. Various research and educational projects are funded by grants from individuals, businesses, and government agencies.

An important aspect of TRIGOM's education effort is a special summer course in marine science for undergraduates. It is hoped that this course will grow into a full-fledged summer marine institute.

Other academic members of TRIGOM are Bates College, Colby College, University of Maine at Orono, University of Maine at Portland-Gorham, Nasson College, St. Francis College, the Maine Maritime Academy, and the Southern Maine Vocational Institute.

WCBB-TV

WCBB-TV, a public television station which serves southern Maine, is licensed to the Colby-Bates-Bowdoin Educational Telecasting Corporation, formed by the three colleges in 1961. At the time of its founding it was the first educational television station in Maine, the third in New England, and the sixth in the nation. Supported in large part by gifts from its viewing audience, WCBB-TV works in close cooperation with the state-supported members of the Maine Public Broadcasting System to bring in-school and home-study courses to students in its viewing area. In addition, the station is affiliated with the Eastern Educational Television Network and the National Association of Educational Broadcasters and presents programs on public affairs, drama, music, and art to a viewing audience estimated at a half million.

Alumni Organizations

ALUMNI ASSOCIATION

THE BOWDOIN COLLEGE ALUMNI ASSOCIATION has as its purpose "to further the well-being of the College and its alumni by stimulating the interest of its members in the College and in each other." Membership is open to former students who during a minimum of one semester's residence earned at least one academic credit toward a degree, to those holding Bowdoin degrees, and to anyone elected to membership by the Executive Committee of the Alumni Council.

The officers of the Alumni Council are ex officio the officers of the Alumni Association. The Council Members-at-Large, Directors of the Alumni Fund, Faculty Member, Treasurer, Secretary of the Alumni Fund, and Alumni Secretary serve as the Executive Committee of the Council and the Association.

ALUMNI COUNCIL

Officers: Alden H. Sawyer, Jr. '53, president; Albert F. Lilley '54, vice president; Louis B. Briasco '69, secretary and treasurer.

Members-at-Large: Term expires in 1975: John Shoukimas '38, Edward J. Goon '49, Alden H. Sawyer, Jr. '53, Robert C. Delaney '55. Term expires in 1976: W. Streeter Bass, Jr. '38, Ronald R. Lagueux '53, Albert F. Lilley '54, David G. Lavender '55. Term expires in 1977: Wesley E. Bevins, Jr. '40, Willard H. Cobb, Jr. '47, Lloyd E. Willey '56, Frank M. Drigotas, Jr. '64. Term expires in 1978: Richard A. Morrell '50, David M. McGoldrick '53, Norman C. Nicholson, Jr. '56, John D. Delahanty '70.

Other members of the Council are the editor of the *Bowdoin Alumnus*, a representative of the faculty, representatives of recognized alumni clubs, and three undergraduates.

ALUMNI FUND

One of the principal sources of endowment and income has been the alumni. The Alumni Fund, inaugurated in 1869 and reorganized in 1919, has contributed \$7,779,048 for the current purposes and capital needs of the College through June 1973.

Officers: Herbert S. French, Jr. '46, chairman; Robert R. Neilson '42, vice chairman; Robert M. Cross '45, secretary.

Directors: Herbert S. French, Jr. '46 (term expires in 1975), Robert R. Neilson '42 (term expires in 1976), Norman P. Cohen '56 (term expires in 1977), David C. Wollstadt '63 (term expires in 1978), Lendall B. Knight '41 (term expires in 1979).

ALUMNI COUNCIL AWARDS

Alumni Service Award: First established in 1932 as the Alumni Achievement Award and changed in name to the Alumni Service Award in 1953, this award is made annually to the person who, in the opinion of alumni, as expressed by the Alumni Council, best represents the alumnus whose services to Bowdoin most deserve recognition.

The recipient in 1974 was Roy A. Foulke '19.

Alumni Award for Faculty and Staff: Established by the Alumni Council in 1963, it is presented each year "for service and devotion to Bowdoin, recognizing that the College in a larger sense includes both students and alumni." The award is made at the annual Alumni Day Luncheon in the fall and consists of a Bowdoin clock and a framed citation.

The recipient in 1974 was Ernst C. Helmreich.

Distinguished Bowdoin Educator Award: Established in 1964 to recognize outstanding achievement in education by a Bowdoin alumnus in any field and at any level of education, except alumni who are members of the Bowdoin faculty and staff, the award consists of a framed citation and \$500.

The recipient in 1974 was L. Wyman Trull '32.

ALUMNI FUND AWARDS

Alumni Fund Cup: Awarded annually since 1932, it is given to the class with the highest performance score, which is based on participation and percentage of dollar goal achieved. The award is presented in the fall.

The recipient in 1973 was the Class of 1922, Louis Bernstein, agent.

Class of 1916 Bowl: Presented to the College by the Class of 1916 in 1959, it is awarded annually to the class whose record in the Alumni Fund shows the greatest improvement over its performance of the preceding year.

The recipients in 1973 were the Class of 1933, Carleton H. Gerdson, agent, and the Class of 1938, S. Kirby Hight, agent.

Class of 1929 Trophy: Presented by the Class of 1929 in 1963, it is awarded annually to that one of the ten youngest classes attaining the highest percentage of participation.

The recipient in 1973 was the Class of 1969, Louis B. Briasco, agent.

Edwards Trophy: Awarded annually to that one of the ten youngest classes attaining the highest percentage of its dollar goal, this trophy honors the memory of Robert Seaver Edwards '00.

The recipient in 1973 was the Class of 1969, Louis B. Briasco, agent.

Fund Directors' Trophy: Established in 1972 by the directors of the Alumni Fund, the trophy is awarded annually to the class graduating more than

fifty-five years ago which finishes with the highest performance score, based on both participation and percentage of dollar goal achieved.

The recipient in 1973 was the Class of 1917, Edwin H. Blanchard, agent.

BOWDOIN ALUMNUS

Published five times a year at the College, the *Bowdoin Alumnus* is the magazine of the Bowdoin Alumni Association and is sent without charge to all alumni. It contains articles and news items relating to events at the College as well as news of alumni, alumni clubs, and Alumni Council activities. Established in 1927, it is currently edited by David F. Huntington, of the Class of 1967.

SOCIETY OF BOWDOIN WOMEN

The Society of Bowdoin Women was formed in 1922. Its purpose is to provide "an organization in which women with a common bond of Bowdoin loyalty may, by becoming better acquainted with the College and with each other, work together to serve the College in every possible way."

The society has made specific gifts to the College, such as silver and china for the president's house. In 1961 it established the Edith Lansing Koon Sills Lecture Fund, honoring Mrs. Kenneth C. M. Sills, wife of a former president of the College, and in 1971, following the decision to admit women undergraduates, the society created a scholarship fund restricted to qualified women students. Contributions have also been made to the Elisabeth Clark Wilder Scholarship Fund in memory of Mrs. Philip S. Wilder, a former president and longtime member of the society.

Membership is open to any interested woman by the payment of annual dues of \$2.00. There are nearly one thousand members in the society, and it is their interest, together with their dues and contributions, which makes possible the society's program.

Officers: Mrs. Roger Howell, Jr., honorary president; Mrs. Howard H. Dana, Jr., president; Mrs. Phineas Sprague, vice president; Mrs. Athern P. Daggett, vice president at large; Mrs. Albert M. Rogers, secretary; Mrs. Alden H. Sawyer, Jr., treasurer; Mrs. Robert H. Millar, assistant treasurer.

BOWDOIN FAMILY ASSOCIATION

Originally organized in 1946 as the Bowdoin Fathers Association, this organization has recently been renamed the Bowdoin Family Association and has as its purpose "to contribute to the development and perpetuation of the spirit which has made Bowdoin the college that it is."

Since 1950 the association has given a prematriculation scholarship, usually equal to tuition, to be awarded to a deserving candidate from outside New England. In 1962 the association established an annual grant to be awarded under the direction of the president of the College to undergraduates or grad-

uates to enable the recipients to participate in summer research or advanced study directed towards their major field or life work.

An annual meeting is held in October in conjunction with Parents' Weekend, which owes its success largely to the efforts of the Bowdoin Family Association. All parents of Bowdoin undergraduates, as well as parents of alumni who continue to demonstrate an interest in the College, are automatically members of the association. There are no membership dues, but a solicitation of parents is undertaken each year by the association on behalf of the Bowdoin Parents' Fund to finance the work of the organization.

Officers: Josiah H. Spaulding, president; Bernard H. Lipman, vice president, programs; E. Miles Herter, vice president, Parents' Fund; Robert P. Lampert, secretary; Herbert E. Mehlhorn, treasurer.
